ATTORNEY GENERAL'S OPINION

Opinion No. 213
March 8, 1982

Dear Senator Carsten:

You have asked our opinion as to the constitutional validity of LB 816, as amended by the Revenue Committee. We detect no constitutional problems with the bill, as amended.

Section 1 of the bill provides that the Legislature shall appropriate an additional $45,000,000 to the School Foundation and Equalization Fund, to be distributed pursuant to §79-1334. In our Opinion No. 189, dated February 8, 1982 to Senator Lamb we said that the present method of distribution of this fund provided for by §79-1334 appeared to be valid, and simply adding more money to be distributed under that section would have no effect on its constitutionality. We reach the same conclusion now.

Section 2 provides for an additional $2,000,000 appropriation for aid to technical community colleges, to be distributed pursuant to §§79-2651 to 79-2653. Neb.Rev.Stat. §79-2651 (Supp. 1980) provides for distribution of state aid to technical community college areas. Fifteen percent of the funds appropriated is to be distributed to each of the six technical community college areas. This accounts for ninety percent of the funds appropriated. Although, in some circumstances equal distributions to all recipients of state aid might be held unreasonable (as, for example, equal distributions to each of the 93 counties), we have no reason to believe that the six technical community college areas are so dissimilar as to invalidate equal distributions to each.

Under §79-2651 the remaining ten percent is to be distributed in the same proportion as the audited reimbursable educational unit total for each area for the preceding year is to the audited reimbursable educational unit total of all technical community college areas. Neb.Rev.Stat. §79-2637(10) (Supp. 1980) defines "reimbursable educational unit." In general, it is based on student population, giving different weights to students in three different categories of educational programs. We see nothing unreasonable in such a method of distribution. Again, adding more money to the pot to be distributed has no effect on the constitutionality of the basic system.

Section 3 of the bill, as amended by the committee, would amend §77-27,136. It would provide for an appropriation of $18,900,000 for aid to incorporated municipalities. Section 4 would amend §77-27,137.01 to provide for a distribution of this fund to the municipalities on the basis of the ratio of the population of each municipality to the population of all municipalities in the state. So far as the question of constitutional law is concerned, we do not believe a successful attack could be made against a formula utilizing population in this manner.

Section 5, as amended, would provide for an appropriation of an additional $16,700,000 to the Department of Public Welfare for the payment of medical assistance. Neb.Rev.Stat. §68-1022 (Supp. 1980) now provides for payment by the counties of a portion of the cost of certain medical assistance, as provided in §§68-1018, et seq. §68-1022 would be repealed by LB 816. The Department of Public Welfare informs us that the projected amount of payments by the counties under §68-1022 for the coming fiscal year is about $16,700,000.

Therefore, what LB 816 would do would be to relieve the counties of this obligation, and appropriate enough state money to pay for it. This is certainly a proper exercise of legislative discretion.

Section 6 states that it is the intention of the Legislature, if the federal government assumes the entire responsibility for the costs of the medical assistance program prior to fiscal year 1984-85, to appropriate at the next regular or special session of the Legislature an additional $18,000,000 for state aid to counties. This section has no legal effect. It is only a statement of intention, and would not be binding on any future Legislature. Furthermore, of course, it does not specify how the $18,000,000 would be distributed. However, although the section is legally meaningless, it is innocuous, and certainly would have no adverse effect on the other provisions of the bill, particularly in light of the savings clause.

We therefore believe that the bill can be successfully defended against constitutional attack.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

79-801. The territory embraced within the corporate limits of each incorporated city or village in the State of Nebraska, together with such additional territory and additions to such city or village as may be added thereto, as declared by ordinances to be boundaries of such city or village, having a population of more than one thousand and less than one hundred thousand inhabitants, including such adjacent territory as now is or hereafter may be attached for school purposes, shall constitute a school district of the third class and be known by the name of The School District of (name of city or village), in the county of (name of county), in the State of Nebraska. As such in that name, the district shall be a body corporate and possess all the usual powers of a corporation for public purposes, and in that name and style may sue and be sued, purchase, hold, and sell such personal and real estate, and control such obligations as are authorized by law. The title to all school buildings or other property, real or personal, owned by any school district within the corporate limits of any city or village, shall, upon the organization of the district, vest immediately in the new district; and the board of education of the new district shall have exclusive control of the same for all purposes herein contemplated; Provided, that where the territory annexed by a change of boundaries of such city has been part of a Class IV, V, or VI school district for more than one year prior thereto, ~~having been annexed by petition,~~ the question as to which district the annexed territory shall be part of shall be negotiated by the school boards of the school districts involved. The registered voters of ~~all~~ the Class ~~I~~ VI ~~districts~~ district which ~~form~~ forms the annexed territory shall then vote on the question at such election. When a city or village subject to this section annexes territory in which registered voters reside and which has been part of a Class III school district for more than one year prior thereto, the issue of whether the area annexed shall remain a part of its current school district or whether it shall become part of the school district of the annexing city or village shall be submitted to the registered voters of the area annexed. The issue may be submitted at a primary, general, or special election. The election shall be conducted in the same manner, as nearly as possible, as other elections in such school district are conducted. Notice of the election to be held pursuant to this section shall be published at least once each week for three weeks prior to the election. The governing board of the school district of the annexing city or village shall call for the election and shall pay the costs of such election. A simple majority of votes cast shall resolve the issue.

If, within the boundaries of the annexed territory, there exists a Class VI school, the school building, facilities, and land owned by the district shall remain a part of the Class VI district notwithstanding any action taken by the school boards and notwithstanding the result of such election.

If the Class VI district wishes to dispose of such school building, facilites, or land to any individual or political subdivision, including a Class I school district, the question of such disposition shall be placed on the ballot for the next primary or general election. All registered voters of such Class VI district shall then vote on the question at such election. A simply majority of the votes cast shall resolve the issue.".

2. On page 3, line 7, strike "is" and insert "and section 79-801, Revised Statutes Supplement, 1981, are".

3. Renumber original section 2 as section 3.

The motion prevailed with 33 ayes, 0 nays, and 16 not voting.

The Chair appointed Mrs. Apking, Messrs. L. Johnson, Fenger, Remmers, and Beyer to serve on said committee.

The Committee returned and escorted Governor Charles Thone to the rostrum where he delivered the following message to the members.

Mr. President, Mr. Speaker, Members of the Legislature and distinguished guests. First, let me thank the Speaker and the other members for providing me the opportunity to address you on a matter of critical importance to the citizens of our State.

I appreciate the tight time constraints of your schedule, and I will be brief and directly to the point.

Nebraska - its citizens and its State Government - are in the midst of a very difficult economic situation. A severely depressed agricultural economy, stifling high interest rates, rising unemployment, layoffs, cutbacks in hours, the closing of small and large businesses, all combined with a general decline in economic activity, have resulted in a sharp reduction in the revenue projections prepared last November.

As I have noted on many occasions, projecting revenues 12 to 18 months in advance is a difficult task under the best of circumstances. I am certain that no one would call our present economic situation the best of circumstances. Bob Bishop, Editor, quotes in the current issue of The Nebraska Farmer a farm credit official as saying, "If you are blessed with the ability to arrange flowers in a whirlwind, the 1980's will be just for you." To be sure, the 1982 economic projections are a bit treacherous, indeed. Suffice it to say that those projections of the Revenue Department were wrong - along with those of almost everyone else on the national level who engaged in this risky endeavor of predicting the future.

Let me quote to you today a paragraph from my State of the State message in January. Two months ago, I said: (QUOTE)

> I advised you at the conclusion of the Special Session that we were not yet out of the economic woods. That advice warrants repeating today. Nebraska has not experienced the worst of the national recession. Nebraska has not been forced to contemplate the extreme measures undertaken by other states. Nevertheless, the recession continues to have an inevitable effect on Nebraska's economy. While national forecasters project an economic upturn sometime in late spring or early summer, I repeat to you now, "We are not yet out of the economic woods." (UNQUOTE)

On February 1, State Budget Administrator Larry Bare presented to your Appropriations Committee my revised revenue and budget proposals. At that time, the estimated total general funds available for appropriation and the recommended budget were set at 758 million dollars. Since that date, several actions have been taken to change that number. Based on a decline in January revenues and higher than projected refunds, Tax Commissioner Don Leuenberger reported to you a potential decline in FY 81-82 net revenues of between 10 and 16 million dollars. The Legislature, through a combination of committee and floor actions has reduced my proposed revenue measures by 15.8 million dollars through changes in the Corporate Tax, Cigarette Tax, Reserve Requirement and funding of Mass Transit assistance. In addition you have established a spending target of 763 million dollars - 5 million in excess of my recommendation.

Today, I must inform you that even further changes are in store. During the past week intensive efforts have been underway to completely review and analyze the revenue situation for the current fiscal year and FY 82-83. My report is as follows.

First, rather than the projection that current year revenues could be down by 10-16 million dollars, that number is now an estimated 34 million dollar decline.

Second, where our original projection for net revenues for FY 82-83 was 718 million dollars, we are now projecting 690 million dollars - a drop of 28 million.

It is difficult for me to have to report these facts to you. Difficult, not because of what it will require of us to balance the State Budget, but difficult because these numbers reflect genuine hardships being experienced by the citizens of our state. Difficult, because they reflect the farmer or rancher who isn't receiving any return - let alone a fair return - on his or her investment of time, capital and work. Difficult, because they reflect jobs lost, construction workers idled, small businesses with no sales to keep the doors open, automobile dealerships and implement dealerships who have gone out of business. The real difficulties are not generally suffered by people in government. The real difficulties are being felt by all those who have been affected by the economic recession.

However, State Government faces a challenge which must be met. We must move ahead, together, to forge a budget that is reasonable and responsible, given the economic conditions of the day.

Nebraskans have a right to know where their Governor stands and what he proposes. Many of you are asking this. That is why I am here today. Here is where I stand, and this is what I propose: I propose more than 25 specific cuts in State spending.

Your Appropriations Committee has prepared a budget recommendation of 761.2 million dollars plus an additional 1.8 million for "A" bills. I believe there should be virtually no "A" bills. I propose to reduce that budget by more than 23 million dollars. Here is my recommendation as to how that can be done.

First, the 5% salary increase for state employees should be deferred to January 1, 1983, with a savings of 8.5 million dollars. With over 43,000 Nebraskans out of work and contracts being negotiated in the private sector with no salary increases, this is no time for a state pay raise. Also, remember that last year's package of wages and benefits was the most generous in the history of the State. In addition, I am announcing that agency directors appointed by me, likewise, will receive no salary increase.

I also ask that all government entities in Nebraska follow this general austere approach. It is appropriate to point out loud and clear that over one half of this entire budget of ours is distributed as aid to local governments and individuals.

Second, the portion of the State Patrol which is out on the highways every day protecting the people and property of our State should be funded from the Highway Trust Fund. This would provide a savings to the General Fund of 8 million dollars.

With the 3% cut which General Fund agencies received during the Specal Session and with other cuts which have been or will be made, it is only fair that the Gas Tax revenues share in the cost of this program. They do so in 26 other states, including almost all our surrounding states.

State Government has traditionally assumed the major share of the increase in health insurance premiums for our employees. While we will do so again this year, the funding for these increased costs will have to be achieved by improved efficiencies and additional economies by each agency. No additional funds should be provided. This step will effect a savings of about 1 million dollars.

In several areas, the recommendations of the Appropriations Committee are above the budget which I submitted. Those amounts will be vetoed if submitted to me in your final budget. They include the University at 1,058,600 dollars, mental retardation assistance at 1,357,000 dollars, the 309 Task Force at 850,000 dollars, the Department of Corrections at 403,400 dollars, mental health at 218,000 dollars, Special Education at 174,600 dollars, Mass Transit assistance at 92,800 dollars, Drivers Education reimbursement at 47,800 dollars and a variety of others, for a total of more than 4,300,000 dollars.

In the area of Capital Construction, I call on you to defer an additional half million dollars of the cost of the Medium/Minimum Correctional Facility in Omaha. It should be deferred until FY 83-84, which is in line with our current estimate of the construction schedule. I propose to veto the $170,000 for renovation of Legislative space in the Capitol building and other amounts included either in excess of my recommendation or additions to the projects proposed in my budget. Together, these cuts total 698,000 dollars.

The amount appropriated for wastewater treatment grants in the Department of Environmental Control can be reduced by $200,000 without a significant risk of slowing down the actual scheduled construction activity.

The $200,000 included for the newly created Family Assistance Program will receive my veto. We can and must wait another year.

The amount appropriated for the Optometry and Veterinary Contracts can be reduced to the level of my original recommendation at a savings of $195,400.

There are additional reductions I propose:

I ask you to cut 86,000 dollars appropriated to the Department of Motor Vehicles to pay for the costs of eliminating the motor vehicle inspection program. Eliminating a program should save money, not cost more. Any costs should be absorbed through the management of existing resources.

I ask you to cut the 40,100 dollars budgeted for the Coordinating Council for the Handicapped, which was not included in my budget.

Cut 31,000 dollars for brochures and the slide show on the Capitol.

Cut 18,600 dollars for a cabinet maker in the Historical Society.

Together, those reductions amount to 23.4 million dollars.

Now, with the program I have outlined today, we will still not be in clover. We will be facing a potentially serious cash flow situation. For that reason, and to help with the overall revenue picture, I am today taking the following steps:

I am calling on the Legislature to repeal the portion of the bill passed last year over my veto which directs the state to pay 25 percent of state aid to schools in October. In my veto message I warned that the bill could have serious implications for the State cash flow, but the Legislature failed to heed that warning. Now the day for reconsideration has come and the action is required.

State aid to schools was not cut in the Special Session. State aid to schools is not proposed to be cut in this session. A 40 million dollar annual increase in this program was made just two years ago. State aid to schools should be distributed as it was in the past.

In addition, I am announcing the following actions:

1. An intensive effort by the Department of Revenue with my full support to insure full compliance with our existing tax laws. I have discussed this matter with Attorney General Paul Douglas, and should additional attorneys be needed, they will be made available by the Attorney General's Office to the Revenue Department on a temporary basis. Those who owe taxes should pay those taxes.

2. A severe cutback on out-of-state travel. We have reduced state automobile travel by an average of 25 percent since 1978, and a much harsher standard will be set for out-of-state travel.

3. A freeze on all merit raises.

And I issue a call to all agencies and employees of State Government to demonstrate to the people of Nebraska that we can do better, we can be more efficient, we can control costs and we can and will be their partners in sharing the necessary economies which are required in this difficult period.

The final authority on the setting of the budget, of course, belongs with the Legislature. Nevertheless, I am here to advise you that 23 million dollars must be cut. You now have my detailed proposals on how it can be done. The actual components of the cut will, in the final analysis, be determined by you. However, you share with me the responsibility for maintaining the fiscal integrity of our State in this difficult period.

Even with a reduction in the budget of that amount, revenues will fall short by 56 million dollars. If you will exercise your responsibility with respect to the cuts I have called for, and approve the recommendations of my revenue package, I am confident that the Board of Equalization will discharge its duty by increasing the individual income tax rate to 17% of the reduced Federal base, retroactive to January 1, 1982. While as Chairman I have only one vote, you - and all Nebraskans - now know where I stand.

Regarding revenues, my original proposal to you called for a 4¢ increase in the cigarette tax. The Revenue Committee has recommended 2¢. Can we consider cutting the budget by more than 23 million dollars, raising the individual income tax by 2% and fail to raise the full 4¢ requested? I say "NO!"

One final item regarding my revenue package. I have asked the Tax Commissioner to begin work immediately with your Revenue Committee to revise the proposal for the corporate tax increase. The increase in the personal income tax will mean an automatic increase in corporate taxes of about 5.4 million dollars. I want the corporate rate changed to bring in another 14 million dollars over 18 months. This will approximately equal my January proposal for 20 million dollars in a year and a half from corporations.

For some months a major debate has taken place in our state on the raising of the income tax rate. Because we are tied to the federal income tax, which is being reduced, increasing the rate does not necessarily increase the tax. The public has a much better understanding of the issue today than it did last November. I have tried to further that understanding. Many of you have helped on this.

As you will recall, when I became Governor, the personal income tax rate was 18 percent of the federal level. We reduced that to 15 percent. Because of our tax cuts, the people of Nebraska in 1980 and 1981 kept 100 million dollars in their pockets that otherwise would have been taken by State government.

The Federal government cut income taxes by 5 percent in October, 1981, and another 10 percent cut is scheduled for July 1. As you know, it was my desire to pass through these cuts and give another 15 percent cut in State income taxes on top of the 16.6 percent cut that Nebraskans have enjoyed for two years.

Declining revenue shows that all of those cuts just cannot be put in place.

If you adopt the proposal I am outlining today, the State personal income tax paid in 1982 will be virtually the same as was paid in 1981.

To be more specific, let's look at the state taxes paid by a family of four with an adjusted gross income of 20,000 dollars.

In 1979, the year I became Governor, that family on that income, after food sales tax credit, owed 327 dollars in State income taxes. In both 1980 and 1981, the amount paid was about 228 dollars. In 1982, the amount for this family, with the budget I now suggest, would be less than 230 dollars. In other words, this family would pay 97 dollars less in State income taxes in 1982 than they paid in 1979.

Last year, this Legislature responded with courage and commitment to my call for belt tightening in the special session. Had you not, the situation we face today would be much more critical. Now, you are being asked to take in another notch.

I have every confidence that as men and women dedicated to true representation of your constituents, you will respond appropriately to the serious problems confronting us. They are not problems of your making, or of mine. They are the result of economic circumstances far beyond the control of any one state.

Together we bear the responsibility for meeting this new challenge. In this message I have offered my proposals and indicated the course I believe we should take. Those recommendations are based on some difficult and often distasteful decisions. But they have to be made.

The decision now lies in your hands. If any member of this Legislature or any Committee believes there are better ways to achieve the goals I have outlined, I assure you I will be most receptive to any suggestion.

The people of Nebraska are looking to their Governor and their Legislature to take the difficult but necessary actions that the situation requires. I am confident we will meet the current challenges head-on. And I'm also confident that there are good days ahead for Nebraska and for its solid citizens.

The Committee escorted the Governor from the Chamber.

(1) Any freeholder or freeholders, person in possession or constructive possession as vendee pursuant to a contract of sale of the fee, holder of a school land lease under section 72-232, or entrant upon government land who has not yet received a patent therefor may file a petition with ~~a board consisting of the county superintendent, county clerk, and county treasurer~~ the State Board of Education, asking to have any tract of land described therein set off from a Class I, ~~or Class~~ II, III, or VI district in which it is situated and attached to some other district in the petitioner's county of residence or a county adjoining thereto for the purpose of providing a better education for children of school age residing in the land to be transferred. In order for the petitioner to prove the petition is in the best educational interests of such children, he, she, or they shall show the differences in the accreditation, teaching staff, management, total cirricula, and efficiency between the schools involved. The petition shall state the reasons for the proposed change and shall show with reference to the land of each petitioner: (a) That (i) the land therein described is either owned by the petitioner or petitioners or that he, she, or they hold a school land lease under section 72-232, are in possession or constructive possession as vendee under a contract of sale of the fee simple interest, or have made an entry on government land but have not yet received a patent therefor and (ii) such tract of land includes all contiguous land owned or controlled by each petitioner; (b) that ~~the land is located in a district that adjoins~~ the district to which ~~it~~ the land is to be attached is located in the petitioner's county of residence or a county adjoining thereto; (c) that the land proposed to be attached has children of school age who have resided thereon with their parents or guardians for not less than forty days prior to filing the petition; and (d) that such petition is approved by a majority of members of the school board or board of education of the district to which such land is sought to be attached. ~~either that they are each more than two miles from the schoolhouse in their own district, and at least one half mile nearer to the schoolhouse or a school bus route of the adjoining district, which distance shall be measured by the shortest route possible upon section lines or traveled roads open to the public or that the route to the schoolhouse in the adjoining district is more practicable and, for at least half its distance, over hard-surfaced roads and the distance to the schoolhouse in the adjoining district does not exceed the distance to the schoolhouse in their own district by more than six miles or that they have personally paid tuition for one or more of their children to attend school in the other district over a period of two or more consecutive years, or that they reside in a Class I or Class II district and own, or lease under section 72-232, have possession or constructive possession under a contract of sale as vendee or have made entry on government land but have not yet received a patent therefor, not less than eighty acres of land in an adjoining Class II, III, IV, or V district to which they wish to transfer additional land. Failure of such children to attend a public school in the district to which the land is attached shall invalidate the transfer from the date of approval. The petition shall be verified by the oath of the petitioner or petitioners.~~

The ~~board~~ State Board of Education may, after a public hearing on the petition, thereupon change the boundaries of the districts so as to set off the land described in the petition and attach it to such adjoining district as is called for in the petition whenever ~~they deem it just and proper and for~~ the board deems it in the best educational interest of the children of school age residing on such land ~~petitioner or petitioners so~~ to do so. Appeals may be taken from the action of the State Board of Education ~~such board, or when such board fails to agree,~~ to the district court of the county in which the real estate is located within twenty days after entry of such action on the records of the board. If the land sought to be transferred pursuant to this subsection is to be set off from a Class I, II, III, or VI district and attached to an accredited Class VI district, the land shall not be set off and attached to such Class VI district unless the petition states that the land ~~is to~~ shall be attached to a Class I district located within the boundaries of such Class VI district, and a majority of the members of the school board or board of education of both such Class VI and Class I districts approve such petition. ~~All procedures as provided in subsection (1) of this section including provisions for the transfer of property across county lines shall apply to this subsection except that the board shall in this instance change the boundaries where it is found that all provisions as herein set forth have been met.~~ For purposes of this ~~subsection~~ section, children of school age shall mean children who are attending public school or children who are not attending a public school in such district but who will attend a public school in the district to which the land will be attached. Failure of such children to attend a public school in the district to which the land is attached shall invalidate the transfer from the date of approval. The petition shall be verified by the oath of each petitioner. The board shall, after a public hearing on the petition and a determination that all requirements of this subsection have been complied with, change the boundaries of the districts so as to set off the land described in the petition and attach it to such adjoining district pursuant to the petition. Notice of the filing of the petition and of the hearing for such petition before the board shall be given at least ten days prior to the date of such hearing, by one publication in a legal newspaper of general circulation in each district and by posting a notice on the outer door of the schoolhouse in each district affected thereby, and such notice shall designate the territory to be transferred. Petitions requesting transfers of property across county lines shall be addressed jointly to the county superintendents of the counties concerned, and the petitions shall be acted upon by the county superintendents, county clerks, and county treasurers of the counties involved as one board, with the county superintendent of the county from which the real estate is sought to be transferred acting as chairperson of the board. When the tract of land attached is not contiguous to the district receiving such land, the transportation allowance provisions of section 79-490 shall not extend beyond the boundary line of the receiving district that existed prior to the attachment of such tract of land.

Appeals may be taken from the action of such board, or when such board fails to agree, to the district county of the county in which the real estate is located within twenty days after entry of such action on the records of the board by the county clerk of the county in which the real estate is located or within twenty days after March 15 if the board fails to act upon such petition as provided in section 79-1103.05, in the same manner as appeals are now taken from the action of the county board in the allowance or disallowance of claims against the county.

Such inspection may be made at any time within the two calendar months preceding the month of registration.

Sec. 2. Every motor vehicle, semitrailer weighing over five thousand pounds, trailer weighing over five thousand pounds, as defined in section 60-301, and school bus subject to the provisions of section 79-488, except motor vehicles and trailers registered pursuant to section 60-305.09, shall be inspected once each year at official inspection stations at times established by the Department of Motor Vehicles and an official certificate of inspection and approval shall be obtained for each such vehicle. The inspections shall be made with respect to the operating mechanism and equipment that shall be designated by the department and an official certificate of inspection and approval and satisfactory evidence thereof shall be issued only when the mechanism and the equipment meet standards prescribed by the department. No person shall operate any motor vehicle, semitrailer, or school bus subject to the provisions of section 79-488, except implements of husbandry subject to section 60-333 and motor vehicles and trailers registered pursuant to section 60-305.09, without the required certificate of inspection and approval.

The required certificate of inspection and approval for vehicles subject to the provisions of section 60-320, and owned by motor vehicle dealers subject to sections 60-1401 to 60-1435, shall consist of a certificate of inspection that shall be carried in the vehicle at all times as proof of such approval.

No motor vehicle dealer licensed under the provisions of Chapter 60, article 14, shall sell at retail any motor vehicle, semitrailer weighing over five thousand pounds, or trailer weighing over five thousand pounds until such motor vehicle, semitrailer, or trailer has been inspected and a current official certificate of inspection and approval attached and satisfactory evidence thereof issued. If approval is denied and the purchaser agrees to make the necessary repairs and adjustments to meet the standards prescribed by the department, then the motor vehicle dealer shall issue to such purchaser a permit setting forth the time of purchase and delivery to the purchaser, the needed repairs and adjustments, and the signature of the purchaser agreeing to make such repairs and adjustments. The permit shall be in a form prepared by the department and attached to a conspicuous place on the motor vehicle or semitrailer. The motor vehicle dealer shall retain a copy of such permit for a period of one year from the date of sale and the permit shall not be removed from such motor vehicle or semitrailer until it has been reinspected and meets the requirements prescribed by the department. Such motor vehicle or semitrailer shall not be operated on any public street or highway except to the place of repair or to the place of an official inspection station.

Sec. 3. The Director of Motor Vehicles may, at the request of a law enforcement officer, or with other reason to believe that a motor vehicle or trailer bearing a current motor vehicle inspection certificate is in such condition as not to meet the minimum requirements for safe operation on the streets and highways of this state, give notice to the owner or operator thereof to submit to a motor vehicle inspection station as provided in this act to prove it qualified for safe operation on the road. If the vehicle or trailer does not qualify at the time of the inspection, the safety inspection certificate of approval, if attached, shall be removed from and such vehicle shall not be operated on the streets or highways of this state until necessary repairs have been made and the vehicle has satisfactorily passed the motor vehicle inspection requirements. A refusal to submit such vehicle or trailer to an inspection as directed shall be unlawful, and any person violating this section shall be guilty of a Class III misdemeanor.

Sec. 4. The Director of Motor Vehicles shall promulgate such rules and regulations and prescribe such forms as are deemed necessary for the inspection of implements of husbandry in accordance with the provisions of this act.

Sec. 5. The Department of Motor Vehicles may authorize the acceptance in this state of a certificate of inspection and approval issued in another state having an inspection law similar to the provisions of this act. The department may extend the time within which a certificate shall be obtained for a Nebraska registered vehicle which was in another state during the time an inspection was due.

Sec. 6. (1) The Department of Motor Vehicles shall designate official inspection stations, including automobile service stations, public and private garages, and issue permits for and furnish instructions and all necessary forms to official inspection stations for the inspection of vehicles and the issuance of official certificates of inspection and approval and satisfactory evidence thereof. Official inspection stations may be designated to serve the public generally or to inspect only a fleet of vehicles owned or operated by the permittee.

(2) Application for a permit as an official inspection station shall be made upon an official form and be granted only when the department is satisfied that the station is properly equipped and has competent personnel to make such inspections and adjustments necessary for the safe operation of motor vehicles and semitrailers. Upon notice of approval of the station by the department and before a permit is issued, the applicant shall forward to the department a permit fee of ten dollars.

(3) A permit shall be valid for twelve months following the date of issuance unless canceled or revoked. Proprietors of inspection stations may renew such permits by payment of a renewal fee of ten dollars and complying with the other requirements of the department for such renewal.

(4) The department shall supervise and inspect the official inspection stations and shall revoke and require the surrender of the permit issued to a station which is not properly equipped, does not have competent personnel, or is not being properly conducted. The department shall maintain a record of all stations currently holding permits and all those whose permits have been canceled or revoked in the preceding twelve months.

(5) In performing the inspection, an official inspection station shall be an agent of the State of Nebraska, and not an employee of the State, and such agent shall not be liable in any civil action to respond in damages as a result of its acts of commission or omission arising out of and in the course of its rendering in good faith any services involving defects alleged to exist at the time of the inspection.

Sec. 7. (1) No permit for an official inspection station shall be assigned or transferred or used at any location other than designated on the permit and every such permit shall be posted in a prominent place at the location designated.

(2) An official inspection station shall issue a certificate of inspection and approval and satisfactory evidence thereof furnished by the department to the owner or operator of a vehicle upon inspection and determination that its equipment is as required by the Department of Motor Vehicles. A station shall make and maintain for one year a record of every inspection and disposition of every certificate furnished by the department and make reports on these records as required by the department.

(3) Official inspection stations designated to serve the public generally shall order the number of inspection stickers they will require, and shall pay to the department a fee of sixty cents for each sticker ordered at the time of placing such order. Each official inspection station shall collect a fee of six dollars and seventy-five cents for each vehicle inspected except for new vehicles being inspected for the first time. When the fee is paid for an inspection and approval is denied, no additional fees shall be charged for reinspection if repairs and adjustments are made within ten days and the vehicle is returned to the original inspection station for final approval.

(4) All fees collected by the Department of Motor Vehicles under this act shall be paid to the Vehicle Safety Inspection Cash Fund which is hereby created. All expenditures in connection with the administration of this act shall be made from such fund, subject to appropriation by the Legislature. Any money in the Vehicle Safety Inspection Cash Fund available for investment shall be invested by the state investment officer pursuant to the provisions of sections 72-1237 to 72-1269.

Sec. 8. The Department of Motor Vehicles shall make any necessary rules and regulations for the administration and enforcement of this act and the manner and period in which certificates of inspection and approval shall be obtained and displayed. In making such rules and regulations, the department shall comply with Chapter 84, article 9, and shall consult with the Advisory Committee on Motor Vehicle Inspection which is hereby established. The advisory committee shall consist of the Director of Motor Vehicles, who shall be ex officio presiding officer, and five members to be appointed by the Governor. Appointed members of the advisory committee shall have experience in the motor vehicle service field. Terms of committee members shall be five years, except that initial appointments shall be for one, two, three, four, and five years, as the Governor shall designate. Initial appointments shall be effective July 1, 1982, and shall be made prior to that date. Members of the advisory committee shall receive no compensation other than actual expenses incurred in the performance of their official duties as provided in sections 84-306.01 to 84-306.05 for state employees. The advisory committee shall meet on call of the presiding officer.

Sec. 9. (1) No person shall in any manner represent any place as an official inspection station unless such station is operating under a valid permit issued by the department.

(2) No person shall make, issue, or use any imitation or counterfeit of an official certificate of inspection or satisfactory evidence thereof.

(3) No person shall display or cause or permit to be displayed for any vehicle any fictitious or fraudulently issued certificate of inspection and approval or any certificate issued without an inspection having been made.

(4) No person shall use a fictitious or fraudulently issued or obtained satisfactory evidence of inspection and approval thereof in order to register any vehicle or trailer required to be inspected pursuant to this act, with knowledge that it is fictitious or that it has been fraudently issued or obtained.

Sec. 10. (1) Except as provided in section 3 of this act or in subsection (2) or (3) of this section, any person violating any provision of this act shall be guilty of a Class II misdemeanor.

(2) Any person who is arrested on a charge of operating a motor vehicle with an expired certificate of inspection within thirty days after such expiration shall be allowed five calendar days, excluding holidays, within which to obtain a valid certificate of inspection for such motor vehicle. Presentation of such certificate of inspection obtained within such five-day period shall be an absolute defense and cause for dismissal of such charge. Any person who fails to obtain and present a certificate of inspection pursuant to this subsection shall be subject to the penalty provided by subsection (1) of this section.

(3) It shall be unlawful for any inspection station to issue a certificate of inspection and approval without having made the inspection required by this act. Any inspection station violating this subsection shall be guilty of a Class IV misdemeanor. When any inspection station is convicted of violating any provisions of this subsection, the Department of Motor Vehicles shall immediately revoke the permit of such station. No new inspection station permit shall be issued to any person who has been convicted of a violation of this subsection.

Sec. 11. Sections 1 to 11 of this act shall be known and may be cited as the Motor Vehicle Safety Inspection Act.

Sec. 13. Sections 1 to 11 and 14 of this act shall become operative on July 1, 1982, except that appointments and other necessary actions preparatory to implementation of such sections may be taken prior to such date. Sections 12 and 15 of this act shall become operative three calendar months after the adjournment of this legislative session. Section 13 of this act shall become operative on its effective date.

Sec. 14. That section 60-1708, Revised Statutes Supplement, 1981, is repealed.

RESOLUTION

LEGISLATIVE RESOLUTION 248.

Introduced by Administrative Rules and Regulations Review Committee: V. Johnson, 8th District, Chairperson; Koch, 12th District; Barrett, 39th District; DeCamp, 40th District; Fowler, 27th District; Haberman, 44th District; R. Peterson, 21st District.

Several states have employed a central panel of administrative law judges for the adjudication of cases before administrative agencies. These judges are employed by a separate agency from the one involved in the case. Agencies covered by the state's Administrative Procedure Act are required to use only central panel hearing officers or judges. Generally, the hearing officers are lawyers with some trial experience.

Currently, in Nebraska, most hearing officers are employed by the agency involved in the case, either on a permanent or temporary basis. Concern has been expressed with this type of system where the agency is the rule-maker, the prosecutor and the judge in an administrative proceeding. The implementation of a central panel of hearing officers or administrative judges may alleviate some of these concerns by interjecting into the system decision-makers who are not associated with the agency prosecuting the proceeding.

NOW, THEREFORE BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Administrative Rules and Regulations Review Committee conduct an interim study into the feasibility of employing an independent hearing examiners system for state agencies in Nebraska.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 214
March 4, 1982

Dear Senator Kahle:

By letter dated February 11, 1982, you have requested an opinion from this office regarding the constitutionality of legislation which would maintain the constitutional office of Auditor of Public Accounts but shift some of the present functions of that office to a legislatively established Public Auditor. Specifically, the Auditor of Public Accounts would continue to do audits of the counties, miscellaneous political subdivisions and agencies receiving federal grants and would continue to review audits submitted by municipalities. The Public Auditor would perform performance reviews, financial audits of state agencies and miscellaneous studies and analyses at the request of the Legislature.

As the legislation of which you are inquiring has not yet been drafted, it being a possible compromise to LB 795 which purports to abolish the office of Auditor of Public Accounts, our opinion as to the proposal's constitutionality is necessarily limited to a review of the general outline of the plan as set forth above, rather than a review of its specific provisions.

The Legislature does have the power to create additional executive offices, such as the Public Auditor. The Constitutional Convention of 1919-1920 proposed certain changes to the Constitution as it then existed. The Constitution at the time provided that no executive state office would be established other than those listed within the document itself. The Convention resulted in a proposal whereby the Legislature could create such offices and that provision is now found in Article IV, Section I of the Nebraska Constitution. A reason given for such proposal was as follows: "Future development of the state doubtless will bring with it new conditions and problems which can not now be foreseen. The Constitution should be sufficiently elastic to enable the people to meet such changing conditions." Constitutional Convention 1919-1920 pages 2964, 2965. The context of the discussion on the proposal would indicate that the change was being sought so that additional officers could be established to meet the additional problems experienced with the passage of time rather than to enable the Legislature to transfer the traditional duties of the constitutional executive offices to a statutorily created office.

It is clear that "the legislature cannot abolish a constitutional office nor deprive the office of a single prescribed constitutional duty. Nor can this be done by indirection, such as depriving him of all statutory duties, thereby leaving the office in name only, an empty shell." Thompson v. Legislative Audit Commission, 79 N.M. 693, 694, 448 P.2d 799, 801 (1968). In the Thompson case, the Legislature had, in effect, over a period of time removed all of the audit functions from the State Auditor and placed them with the statutorily created department and commission, leaving the auditor only as a member of certain state boards and with insignificant miscellaneous duties. The question becomes more difficult, however, where the legislation does not abolish the office entirely, or does not eviscerate its statutory duties, if to do so would leave the office without any functions.

It is equally clear that "the Legislature connot relieve or preclude any executive officer from the performance of a duty enjoined on him by the Constitution, or, as otherwise expressed, it cannot take away from a constitutional officer the powers or duties given him by the Constitution; or vest such powers or functions in any other department or officer (footnotes omitted)." 16 C.J.S. §130, page 545 (1956).

Therefore, in addition to the inability of the Legislature to abolish the office entirely or to excessively diminish its statutory responsibilities when no duties of any significance remain, is also impermissible to take away any of the duties constitutionally established for the office.

The Constitution of Nebraska does not specifically establish any duties for the Auditor of Public Accounts, with the exception of Article IV, Section 28, which gives him the authority, in conjunction with other named constitutional officers, to review and equalize assessments of property for taxation. The only other constitutional provision regarding the duties of this officer is found in the same section which creates the office: "Officers in the executive department of the state shall perform such duties as may be provided by law." Nebraska Constitution, Article IV, Section I.

The absence of specifically enumerated duties, however, does not necessarily mean that any present duty of the Auditor is fair game for legislative modification. For instance, in Allen v. Rampton, 23 Utah 2d 381, 463 P.2d 7 (1969), it was determined that legislation which attempted to remove the responsibility for investment of state funds from the state treasurer and place it in the hands of an investment council was unconstitutional as it took away from the constitutional duties necessarily implied in the office of state treasurer, even though the only duties set out in that state's constitution for the state treasurer was that he be the custodian of public money. See also, State ex rel. Cummins, 99 Ten. 667, 42 S.W. 880 (1897), which held that the keeping of prisoners is a duty inherent in the constitutional office of sheriff and a law which sought to place that function in another was unconstitutional. Attached for your convenience is a copy of Attorney General Opinion No. 110, 1969-70, which contains a helpful discussion of this issue.

The dividing line between duties which are inherent in the constitutional office of Auditor of Public Accounts and those which are solely the product of statute is not clear. In addition, there is some precedent that a constitutional provision which describes the duties of constitutional officers solely by reference to such duties "as may be provided by law," as does our Constitution, requires the interpretation that the office carries no inherent duties but is molded exclusively by statute. Shute v. Frohmiller, 53 Ariz. 483, 90 P.2d 998 (1939). This interpretation, taken to its extreme, would suggest that the Legislature would be within its power to take all statutory duties away from a constitutional officer and create a statutory office to assume those responsibilities formerly lodged in the constitutional one. However, an attempt to do just that was tested in that jurisdiction and was held unconstitutional. Hudson v. Kelly, 76 Ariz. 255, 263 P.2d 362 (1953).

It should also be pointed out that the Arizona court has taken a more restrictive approach than the Nebraska Supreme Court to the constitutional language giving constitutional officers such duties "as may be provided by law." The Arizona court has read this to exclude any common law powers of the Attorney General. State v. Frohmiller, supra. In Nebraska, the Attorney General possesses all the common law powers of that office unless limited by statute. State ex rel. Sorensen v. State Board of Equalization, 123 Neb. 259, 242 N.W. 609 (1932). This difference may indicate that constitutional officers in Nebraska are more likely clothed with certain inherent duties. Whether the difference would cause greater limitations on the ability of the Legislature to limit those implied powers and duties is not clear.

The constitutionality of legislation affecting an executive office established by the Constitution, therefore, appears to be a matter of degree. That which removes the substance of the office will likely be held unconstitutional while that which makes minor deviations in what had previously been considered the functions of that office may well be upheld (see, Follmer v. State, 94 Neb. 217, 142 N.W. 908 (1913), wherein the supreme court of this state saw no constitutional infirmity with a statute which permitted the chief officer of a department of state government to employ an attorney other than the Attorney General).

Some of what makes up the substance of the office of Auditor of Public Accounts is evident from the title of the office itself. In Thompson v. Legislative Audit Commission, 79 N.M. 693, 448 P.2d 799 (1969), "auditor" was defined as "An officer of the government, whose duty it is to examine the acts of officers who have received and disbursed public moneys by lawful authority." Id. at 696, 448 P.2d at 802, citing Ballentine Law Dictionary, Second edition. Other insights into the authority inherent in the office can be found by examining the record of the Constitutional Convention of 1875. At that early date, the Auditor of the state was requested to furnish to the Convention 1) the amount of the appropriation made by the last legislative assembly for each public institution in each department of state government, 2) the amount; to whom, what department of state government, or public institution; and for what material or service warrants had been drawn since a specified point in time, 3) whether the warrants referenced in paragraph 2 represented the total expenditures for the department or institution, and, if not, he was requested to explain (Id. at 524), 4) to furnish a statement showing lands donated to Nebraska by the federal government and the lands donated by the state to each railroad or for other internal improvements, and 5) to furnish an accounting of the school fund for calendar years 1874 and 1875, with an itemization of legislative appropriations from the fund (Id. at 578). The foregoing request provides some indication that the Auditor was thought to be the general accountant of the state, an overseer of appropriations and expenditures for all state departments.

Considering the proposal to create the office of Public Auditor in light of the foregoing, it is the opinion of this office that such legislation would be unconstitutional if it removed the responsibility for financial audits of state agencies from the Auditor of Public Accounts by placing that function with the Public Auditor as that function is one properly belonging to the Auditor of Public Accounts.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 215
March 8, 1982

Dear Senator Kahle:

By letter dated February 11, 1982, you requested an opinion from this office as to the constitutionality of various provisions of LB 882, in particular section 2 which requires that both the Auditor and Deputy Auditor be certified public accountants and holders of current certificates to practice.

In State ex rel. Quinn v. Marsh, 141 Neb. 436, 3 N.W.2d 892 (1942), an applicant under the age of 30 sought to have his name printed on the ballot for the constitutional office of State Railway Commissioner. A statute required that commissioners be 30 years of age and, therefore, the Secretary of State rejected the application. This was challenged in the courts, the district court holding that the statute was unconstitutional. The Supreme Court, however, reversed. Although the court accepted the proposition "that where the Constitution creates an office and enumerates the qualifications for eligibility to the office the legislature is without power to impose other conditions of eligibility [citations omitted]", id. at 439, 3 N.W.2d at 894, it could not agree with the applicant's argument that where the Constitution contains no provision for eligibility for an office, it implies that there should be none imposed by the Legislature, stating: "[W]e are fully committed to the doctrine that the Constitution of this state is not a grant but a restriction on legislative power, and that the legislature may legislate upon any subject not inhibited by the Constitution." Id. at 445, 3 N.W.2d at 897, quoting Swanson v. State, 132 Neb. 82, 271 N.W. 264. The court then went on to consider the reasonableness of the age limitation.

Another case standing for the proposition that where the Constitution is silent on a subject, the Legislature has the power to impose reasonable qualifications as a condition of eligibility to hold office is State ex rel. Landis v. Ward, 158 So. 273 (Fla. 1934). This case is mentioned as it permitted the imposition of professional licensing requirements on a constitutional officer. The court upheld the statute which required county surveyors, a constitutional office, to be registered with the State Board of Engineering Examiners, as a reasonable means of insuring that the holder of the office was "competent under the law to personally perform the acts that must be done by an incumbent of it in order to enable him to discharge the official duties that the law requires." Id. at 275.

As no eligibility requirements for the Auditor of Public Accounts are set forth in the Constitution, it would, in our opinion, be permissible for the Legislature to impose reasonable qualifications for eligibility for that office. The requirement that the Auditor be a certified public accountant would appear to be such. "Auditor" is defined in Black's Law Dictionary, 4th Ed. (1968) as "A public officer whose function is to examine and pass upon the accounts and vouchers of officers who have received and expended public money by lawful authority. An officer who examines accounts and verifies the accuracy of the statements therein." This state has seen fit to oversee the professional qualifications of those who examine books, records and financial statements of others so as to give their opinion of whether the financial statements accurately portray the financial condition of the one being examined. Neb.Rev.Stat. §1-106, et seq. (Reissue 1977). It would seem reasonable to require the Auditor of Public Accounts to meet these same requirements.

As a matter of statutory consistency, you may wish to change the last sentence of section 2 to require the Auditor and Deputy Auditor to be holders of current permits to practice, if that is what was intended. Under Nebraska law there are both certificates and permits and the use of the term "certificate" in section 2 may cause some confusion.

You have also requested the opinion of this office on the constitutionality of the bill's other provisions.

There are many provisions that are constitutionally questionable in several respects. First, the bill includes provisions which clarify the definition of public accountancy, impose professional licensing requirements on the office of Auditor of Public Accounts and his deputy, require the minimum standards for accounting reports prepared for political subdivisions to be consistent with sound accounting principles as determined by the State Board of Public Accountancy, and establish certain personnel policies and practices for a constitutional office. This menagerie of topics is arguably in violation of Article III, Section 14, of the Constitution of this state prohibiting bills from containing more than one subject. However, this section of the Constitution has been liberally construed in favor of the constitutionality of legislation and as the provisions are all tied to the Auditor of Public Accounts, it is likely that the bill will be upheld in that respect.

Another concern is that the effect of amendments contained in section 1 and section 2 of the bill which require the Auditor to be a certified public accountant and classify the practice of accounting by the Auditor as the profession of public accountancy, would be to subject the Auditor of Public Accounts to the revocation of his certificate and permit to practice for any of the grounds listed in Neb.Rev.Stat. §1-137 (Reissue 1977). As section 2 of the bill requires the Auditor of Public Accounts to be a certified public accountant and a holder of a current "certificate" (permit ?) to practice, this would open up the possibility that the Auditor could be disqualified from holding his office during the term thereof. If this construction were adopted, the legislation would be violative of Article IV, Section 5, of the Nebraska Constitution which has been interpreted to provide that the only means for removing the holder of a constitutional office during his term in office is by impeachment. Fitzgerald v. Kuppinger, 163 Neb. 286, 79 N.W.2d 547 (1956). It is our opinion, however, that the bill will not be considered constitutionally defective for this reason. Legislation carries with it a presumption of constitutionality and, if possible, will be construed in a way to negative any constitutional infirmity. As a result, a court confronted with the problem would most likely determine that the requirements that the Auditor be a certified public accountant and holder of a current certificate or permit to practice are for eligibility purposes only and a revocation of either during his term of office would not result in the Auditor having to vacate his position until the end of his term.

The provision which causes us the greatest problem is section 4 which requires the Auditor of Public Accounts to establish grievance procedures for his employees. The proposed legislation does not go into detail in regard to the grievance procedures to be offered to employees. Whether the finding of the hearing officer presiding over the grievance proceeding is to be binding upon the Auditor or merely a recommendation is also not specified. As a result of this lack of specificity, we have not attempted to consider the question of whether the Legislature has gone too far in attempting to regulate the internal workings of a constitutional office.

However, it does appear that the establishment of grievance procedures for employees in the office of the Auditor of Public Accounts does run afoul of Article III, Section 18, of our Constitution which prohibits the enactment of special laws where general laws can be made applicable. LB 882 has only conferred the benefit of grievance procedures on employees of one constitutional officer. Although there is no prohibition on class legislation, the classification must be reasonable. It "must rest upon real differences in situation and circumstances surrounding members of the class relative to the subject of the legislation which renders appropriate its enactment." State ex re. Douglas v. Marsh, 207 Neb. 598 at 608, 300 N.W.2d 181 at 187 (1981). Although the creation of a class within the office of the Auditor of Public Accounts may be appropriate for some purposes, we fail to see a rational basis for the distinction being drawn between employees of the Auditor's office and employees of other constitutional offices in relation to grievance procedures. While there may be a basis for the distinction between state employees who are in a constitutional office and those who are not (neither Merit System nor Personnel rules are applicable to the employees of constitutional officers, Attorney General Opinion No. 129 (1981).), a further division in respect to employment rights would not seem warranted.

Although to some extent the Legislature is free to identify areas needing the most attention and confine its actions to those areas (Parker v. Roth, 202 Neb. 850, 278 N.W.2d 106 (1979), cert. denied, 444 U.S. 920), "they cannot take what may be termed a natural class of persons, split that class in two, and then arbitrarily designate the dissevered fractions of the original unit as two classes, and enact different rules for the government of each." State ex rel. Taylor v. Hall, 129 Neb. 669 at 683, 262 N.W. 835 at 842 (1935), quoting from State v. Julow, 129 Mo. 153, 31 S.W. 781.

We believe that if the question were raised a court would likely find the singling out of employees of the Auditor's office for additional employment rights to be unconstitutional.

Opinion No. 216
March 10, 1982

Dear Senator Carsten:

It has been called to our attention that in our Opinion No. 213 to you, dated March 8, 1982, we had misinterpreted Neb.Rev.Stat. §79-2651 (Supp. 1980). We had interpreted that section to provide for the payment of 15 percent of the funds appropriated for technical community colleges to each technical community college area, making a total of 90 percent of such appropriated funds.

Upon rereading that section we realize that it provides that only 15 percent of the total fund is to be divided equally among the six technical community college areas, and the remaining 85 percent is to be distributed on the basis of audited reimbursable educational unit totals. This makes no difference as to the validity of LB 816, which was the subject of our opinion. However, our opinion had caused some confusion with administrative officials responsible for the distribution of aid to technical community college areas, and this supplemental opinion is written for the purpose of correcting that error in our previous opinion.

Opinion No. 217
March 12, 1982

Dear Senator Cullan:

This is in reply to your inquiry concerning the constitutionality of LB 893, which would authorize the Nebraska wheat development, utilization, and marketing board to determine a minimum price for wheat sold in the state.

In arriving at our conclusion, we call particular attention to the provisions of two sections of the bill. Section 6 provides:

> (1) The board shall fix the minimum price on all grades and types of wheat grown, bought, and sold in this state.
>
> (2) The minimum price fixed by the board shall not be less than a price determined by the product of seventy per cent of parity divided by the average county loan rate, multiplied by the county loan rate of each of the counties of the state.

(Emphasis added). With regard to the underscored provisions of section 6, section 2, the definition section of the bill, provides that "Parity shall have the same meaning as that defined by the provisions of the agricultural adjustment act, title 7, section 1301, U.S.C.A.;" and, "County loan rate shall mean that amount of money the United States Department of Agriculture will loan per bushel on wheat in each county of the state."

In other words, as we read these provisions of the bill, the wheat marketing board shall fix a minimum price on wheat of not less than seventy percent of an amount fixed by congress, divided by the average of an amount fixed by the United States Department of Agriculture, multiplied by an amount also fixed by the United States Department of Agriculture.

We also call attention to section 8 of the bill which would make it a Class IV misdemeanor for anyone to buy or sell wheat for a price less than that fixed by the board. In other words the board could vary what would constitute a Class IV misdemeanor.

In Lincoln Dairy Corporation v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960), our Supreme Court held: The Legislature may not lawfully delegate legislative powers to an administrative or executive authority." It also held: "The Legislature cannot delegate its power to create criminal offenses and prescribe penalties to an administrative or executive authority."

Aside from the question of whether or not the Legislature is directly or indirectly delegating to the congress and/or United States Department of Agriculture the ultimate authority for determining the minimum price of wheat, it does seem quite clear that the bill, by granting to the wheat board authority to determine a minimum price of wheat, and by making the sale of wheat below the price set by the board a crime, the Legislature is delegating to the wheat board its power to create a criminal offense.

It is therefore our conclusion that to the extent that the Legislature has, in LB 893, granted to the wheat board, or any federal agency, any of the referred to powers reserved to the Legislature, the bill would be constitutionally suspect.

ATTORNEY GENERAL'S OPINION

Opinion No. 218
March 15, 1982

Dear Senator Goodrich:

You have requested our opinion concerning the provisions and interpretation of LB 202 presently pending before the Legislature. We address each inquiry separately below.

1. Your first question is whether the death penalty could properly be reserved by statute solely for those persons convicted of first degree murder while imprisoned. The Legislature may not make the death penalty *mandatory* for the commission of any criminal offense. *Woodson v. North Carolina*, 428 U.S. 280 (1976). If the Legislature perceived a rational basis for the possible imposition of the death penalty upon those imprisoned and not upon any other class of persons committing a similar homicide we are aware of no other restrictions under either our state or federal constitutions which would prohibit such legislation. However, in order for the death penalty to be properly imposed all procedures presently relating to the imposition of this penalty in our statutes would need to be retained. Neb.Rev.Stat. §§29-2519 et seq., (Reissue 1979). These sections would be repealed by the present language of LB 202.

2. You next inquire what affect the passage of §4 of LB 202 would have upon those prisoners presently under sentence of death. Section 4 provides: "This act shall apply to all cases in which judgment has not become final as of the effective date of this act."

In our opinion, passage of §4 would affect only the death sentences of those prisoners whose convictions have not completed the direct appeal process. The direct appeal process would include the original trial from which the sentence arose and the direct appeal of that conviction pursuant to Neb.Rev.Stat. §29-2528 (Reissue 1979). Section 4 would not affect the cases of those prisoners under sentence of death who are presently involved in state post conviction proceedings pursuant to Neb.Rev.Stat. §29-3001 et seq., (Reissue 1979) or attempts to acquire habeas corpus relief from the federal courts pursuant to 28 U.S.C. §2254.

3. Your third inquiry concerns whether any constitutional or statutory problems would be created for the Board of Pardons by the passage of LB 202 due to requests to commute the sentences of those prisoners under sentence of death not affected by §4. See, 2 above. We are aware of none.

Very truly yours,

“Sec. 3. That section 29-2519, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

29-2519. The Legislature hereby finds that it is reasonable and necessary to establish mandatory standards for the imposition of the sentence of death; that the imposition of the death penalty in every instance of the commission of the crimes specified in subsection (1) of section 28-303 fails to allow for mitigating factors which may dictate against the penalty of death; and that the rational imposition of the death sentence requires the establishment of specific legislative guidelines to be applied in individual cases by the court. The Legislature therefore determines that the death penalty should be imposed only for the crimes set forth in subsection (1) of section 28-303 and, in addition, that it shall only be imposed in those instances when the aggravating circumstances existing in connection with the crime outweigh the mitigating circumstances, as set forth in sections 29-2520 to 29-2524.

Sec. 4. That section 29-2520, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

29-2520. Whenever any person is found guilty of a violation of subsection (1) of section 28-303, the district court shall within seven days fix a date for hearing on determination of the sentence to be imposed. WHEREAS, multiple purpose dams and reservoirs in Nebraska and other states with interstate streams that enter Nebraska have provided numerous benefits for irrigation water supplies, hydroelectric power generation, flood control and protection, recreation, and fish and wildlife; and

WHEREAS, the federal government has reaffirmed that the rights over use of water and priorities for such use shall remain the sole prerogative of the individual states; and

WHEREAS, excessive federal regulations, restrictions, and requirements can adversely affect the rights of the states to water use, preferences, and priorities; and

WHEREAS, operation of man-made dams in Nebraska and other states has been consistent with state and federal requirements and individual state priorities for the beneficial use of surface water; and

WHEREAS, the federal Environmental Protection Agency has determined that dams should not be considered point sources of pollution to be made subject to additional stringent federal licensing and permit procedures under the federal Clean Water Act; and

WHEREAS, the federal district court of the District of Columbia on January 29, 1982, ordered that the Environmental Protection Agency must designate dams as point sources of pollution; and

WHEREAS, such designation will impose excessive restrictions, regulatory requirements, and costs on the operation and management of water projects involving dams, may lead to extensive future litigation, and may threaten future operations of dams for supplying water crucial to irrigation projects, hydroelectric energy production, and other beneficial purposes;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That designation of man-made dams as point sources of pollution is not necessary and will impose excessive federal restrictions, requirements, and regulations on the operation of water projects to the detriment of the State of Nebraska and the United States; and

2. That additional federal regulation of water projects poses a threat to the sovereignty of the states in their exclusive rights regarding water use, priorities, and beneficial purposes in the future; and

3. That the Executive Branch of the United State Government is urged to appeal the January 29, 1982, decision of the federal district court of the District of Columbia, in the case of National Wildlife Federation vs. Anne Gorsuch, Administrator, U.S. Environmental Protection Agency; and

4. That the United States Congress is urged to enact legislation to specifically exempt dams as point sources of pollution under the National Pollution Discharge Elimination System (NPDES) of sections 301 (a) and 402 (a) of the Clean Water Act and Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. sections 1311 (a) and 1342 (a) to clarify the application of the Clean Water Act to dams, to render nul and void the decision of January 29, 1982, and to prevent future litigation to determine dams as point sources of pollution; and

5. That the Clerk of the Legislature is directed to provide copies of this resolution with notification of its approval by the Legislature, to: all members of the Nebraska delegation serving in the U.S. Congress; the Secretaries, Majority Leaders, and Minority Leaders of the United States Senate and U.S. House of Representatives; the U.S. Secretary of the Interior; the U.S. Attorney General; the Administrator of the U.S. Environmental Protection Agency; the President of the United States; and the Governor of Nebraska.

Until such time as redistricting is completed pursuant to this section, membership on the governing board shall remain on an at-large basis. The provisions of this section shall apply to all counties, notwithstanding the limitations on alteration of districts contained in section 23-151. When any new city, village, county, or school district is established or the number of board members has changed, members of the governing board shall be at large until such time as districts are established pursuant to this section.

Any city, except a city under a home rule charter, village, county, or school district ~~electing members to its governing body at large~~ may at a general election submit to the voters the question of ~~electing~~ whether to elect members to its governing body by district or ward or at large, except that such question shall not be submitted more than once every three years.

~~Any city, except a city under a home rule charter, village, county, or school district electing members to its governing body by district or ward may at a general election submit the question of electing members to its governing body at large.~~

Petitions for submission of the question shall be prepared, circulated, and signed by registered electors of the city, village, county, or school district desiring to change the procedures for electing its governing body. The petition or petitions shall be signed by registered electors equal in number to twenty-five per cent of the votes cast for the person receiving the highest number of votes in the city, village, county, or school district at the preceding general election for electing the last member or members to its governing body. Each sheet of the petition shall have printed the full and correct copy of the question as it shall appear on the official ballot. The petitions shall be filed with the county clerk or election commissioner not less than seventy days prior to the date of the general election and no signatures shall be added or removed from the petitions after they have been so filed.

If the petition or petitions are found to contain the required number of valid signatures, it shall be the duty of the county clerk or election commissioner to place the question on a separate ballot to be issued to the electors of the city, village, county, or school district entitled to vote on such question.

Any city, village, county, or school district voting to change from electing the members of its governing body by district or ward to at large shall notify the public and instruct the filing officer to accept all filings on an at-large basis. Candidates shall be nominated and elected on an at-large basis at the next primary and general election following submission of the question.

Any city, village, county, or school district voting to change from electing the members of its governing body at large to electing by district or ward shall notify the public and instruct the filing officer to accept all filings by district or ward. Candidates shall be nominated and elected on a district or ward basis at the next primary and general election following submission of the question. When the question for district or ward elections has been approved by the majority of the electorate, the governing body of any city, village, county, or school district approving such question shall establish districts substantially equal in population as determined by the most recent federal census.

Each city, except a city under a home rule charter, village, county, and school district which votes to elect members to its governing body by district or ward shall establish districts or wards so that the members of its governing body may be nominated and elected from districts or wards bearing odd numbers at one election and from districts or wards bearing even numbers at the following election. Districts or wards shall be created not later than October 1 in the year following the general election at which the question was voted upon. If the governing body fails to redistrict by October 1, any registered elector or group of registered electors may file suit in the proper court of the county for removal of the governing body for failure to comply with the provisions of this section. ANNOUNCEMENT

Mr. Lamb announced the following concerning Interim Study Resolutions:

During the 1980 and 1981 Sessions, the Executive Board adopted certain policies and procedures regarding the handling of Interim

Study Resolutions. The Executive Board has modified that policy in that the Committees will not be asked to develop a "Study Proposal" as they have before. The Committees are to develop a priority listing of all Resolutions initially referred to them. Any expenditures of Legislative Council funds for items outside the normal expense must be submitted to the Board for approval prior to the expenditure of those funds. The following timetable has been established:

1. The deadline for introduction of Study Resolutions will be Tuesday, April 6, 1982.
2. The Executive Board will make a preliminary non-binding reference recommendation of all Interim Study Resolutions by Wednesday, April 7, 1982. Dr. Rodgers will make the Reference Report recommendation.
3. Based upon the preliminary references to the Executive Board, the Committees are to develop a rank order listing with the highest priority Resolution listed as No. 1. The listing must be submitted to the Board by April 13, 1982. The Executive Board will then consider the priority listings and submit a final reference report to the Legislature by April 14, 1982. It is anticipated that no more than four (4) Study Resolutions will be referred to any particular committee for study.

If, by his or her failure to give such notice, any such property owner permits the allowance of the homestead exemption for any succeeding year, or for that year in the case of transfers pursuant to sections 10 and 11 of this act, after the homestead exemption status of such property has changed, an amount equal to the amount of the taxes lawfully due but not paid by reason of such unlawful and improper allowance of homestead exemption, together with penalty and interest on such total sum as provided by statute on delinquent ad valorem taxes, shall be due and shall, upon entry of the amount thereof on the books of the county treasurer, be a lien on such property while unpaid. Such lien may be enforced in the manner provided for liens for other delinquent taxes. Any person who has permitted the improper and unlawful allowance of such homestead exemption on his or her property shall, as an additional penalty, also forfeit his or her right to a homestead exemption on any other property in this state for the two succeeding years.

Sec. 10. In counties having a population greater than three hundred thousand, if the owner of any homestead granted an exemption under sections 77-3507 to 77-3509 transfers the ownership of such homestead on or before September 15 of any year, such exemption shall be disallowed for that year if the exemption was granted based on the status of that owner.

Sec. 11. In counties having a population greater than three hundred thousand, the owner of a homestead which has been granted an exemption provided in sections 77-3507 to 77-3509, who transfers the ownership of such homestead and becomes the owner of another homestead within the county prior to September 15 during the year for which the exemption was granted, may file an application with the county assessor on or before September 15 of such year, for a transfer of the exemption to the new homestead. The county assessor shall examine each application and determine whether or not the new homestead, except for the January 1 occupancy requirement, is a homestead as defined in section 77-3502. If the application is approved by the county assessor, he or she shall make a deduction upon the assessment rolls using the same criteria as previously applied to the original homestead. The county assessor may allow the application for transfer to also be considered an application for a homestead exemption for the subsequent year.".

ATTORNEY GENERAL'S OPINION

Opinion No. 219
March 19, 1982

Dear Senator Haberman:

You have asked whether there are any constitutional problems with respect to LB 890, which would amend Neb.Rev.Stat. §77-27,119 (Supp. 1981). We believe there is no problem with the general purpose of the bill, but the language needs to be clarified, to resolve some uncertainties now present.

Section 77-27,119 now requires that a state income tax return shall have a place where the taxpayer shall designate the school district in which he or she lives and the county in which the district is located. LB 890 would amend this section by adding the following language: "Commencing with the taxable year 1982, the amount of twenty dollars will be added to the amount required to be shown on the return if, after one request by the commissioner, such return does not include the school district information required by this subsection."

In State ex rel. Douglas v. Herrington, 206 Neb. 516, 294 N.W.2d 330 (1980), the court said that the test for vagueness in a statute was whether it either forbade or required the doing of an act in terms so vague that men of common intelligence must necessarily guess as to its meaning and differ as to its application. The first vagueness we notice in the bill is in the term, "the amount required to be shown on the return." In looking over the 1981 return, we see at least ten different amounts required to be shown, including federal adjusted gross income, federal taxable income, federal income tax before credits, and Nebraska income tax. We assume it is the latter figure which was intended, but the language of the amendment does not require that conclusion.

Also, the bill requires the addition of the penalty if, after one request, "such return" does not include the required information. Obviously, the return filed is not going to be sent back to the taxpayer for the insertion of the information on the school district. The information will be furnished by the completion and return of some supplemental form. We believe it should be made clear that it is the failure to furnish the information to the Tax Commissioner upon request which will result in the penalty.

We think you also should consider the situation where, by mistake or typographical error, the wrong information is put in the return, or given in response to the Tax Commissioner's request. If it is put in the original return, it will probably not be discovered until, somehow, the Tax Commissioner finds out what the actual school district is, so he won't make his request until such time, at which time he may already have the information requested. Obviously, however, under the bill as written, the twenty dollar penalty cannot be assessed until a request has been made, and the taxpayer has failed to respond. If wrong information in response to a request is to be treated as a failure to respond, the statute should make it clear.

The bill does not specify the details about the request for information by the Tax Commissioner, the response by the taxpayer, the time within which such response must be received, nor the procedure for assessing the twenty dollar penalty in the event of failure of proper response. However, the bill requires the Tax Commissioner to adopt and promulgate rules and regulations to insure compliance with the requirement contained in §77-27,119(2), and we believe such rules and regulations can properly supply those details.

If the bill is clarified in the areas we have discussed, we believe it can be sustained against constitutional attack.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 220
March 22, 1982

Dear Senator DeCamp:

In your letter of March 19, 1982, you ask whether, if the $70 million distribution formula under §§77-3605 to 77-3609 were extended for another year, as proposed in LB 898, a city of the metropolitan class could bring suit to enjoin the distribution of funds, or challenge the constitutionality of the distribution formula without posting bond. Obviously, any party having standing to bring the suit could challenge the constitutionality of the distribution formula, and ask for a permanent injunction against the distribution under that formula, without posting bond.

The issue you are interested in, however, is whether a city of the metropolitan class could get a temporary injunction against such distribution while the action is pending, without posting bond. We pointed out in our opinion dated April 30, 1981, to Senator Johnson, Opinion No. 87, that Neb.Rev.Stat. §14-817 (Reissue 1977) makes provision for a city of the metropolitan class to obtain an injunction without posting a bond. This section provides:

> No bond for cost, appeal, supersedeas, injunction or attachment shall be required of any city of the metropolitan class or of any officer, board, commission, head of any department, agent or employee of any such city in any proceeding or court action in which said city of the metropolitan

> class or its officer, board, commission, head of department, agent or employee is a party litigant in its or his official capacity.

We also point out that Neb.Rev.Stat. §15-842.01 (Reissue 1977) contains a similar provision with respect to cities of the primary class.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

RESOLUTIONS

LEGISLATIVE RESOLUTION 263.

Introduced by Hefner, 19th District; Newell, 13th District; Duda, 14th District; Fenger, 45th District; Von Minden, 17th District; Beyer, 3rd District; Barrett, 39th District.

PURPOSE:

To study current issues and concerns within liquor control in the State of Nebraska, with special emphasis on certain areas.

Some of the present liquor license fees have not been increased for over 40 years. The effects of "New Federalism" have not yet been adequately identified in terms of state liquor control and taxing. Section 53-183 prohibits the retail sale of liquor on credit. Section 53-168 places a 30-day credit limit between liquor wholesalers and retailers, and restricts distributors and wholesalers, but not manufacturers, from participating in any coupon plans. The Legislature's intent regarding the control and regulation of bottle clubs has faded and needs reconsideration. The Nebraska Liquor Control Act was enacted in 1935, and has been substantially amended since then. In the last years the Legislature has enacted correcting legislation to update the Act in a piecemeal fashion. The Act and its licensing structure may require, at some point, a total redrafting to maintain the Legislature's intent in proper liquor control.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Miscellaneous Subjects Committee of the Legislature shall be designated to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 264.

Introduced by Hefner, 19th District; Von Minden, 17th District; Beyer, 3rd District; Fenger, 45th District; Duda, 14th District; Barrett, 39th District.

PURPOSE:

To review the Nebraska Political Accountability and Disclosure Act and conduct an examination of the statutes regulating political action committees (PAC's), the statutorial definition of lobbyist, and the need or desire of establishing further regulations concerning lobbying practices.

The Nebraska Political Accountability and Disclosure Act regulates PAC's through certain campaign practice and disclosure requirements. The parameters of these provisions and their intent and purpose may need further clarification.

The statutorial definitions of lobbying and lobbyist are not clear and some people coming before the Legislature to influence certain legislation are concerned about whether or not they should be registered as lobbyists. The important concern is that the statutes be clear and reflect the Legislature's intent by requiring the registration of bona fide lobbyists, and not requiring registration of average concerned citizens.

Some organizations and individuals employ or engage lobbyists to influence action in favor of certain interests. At certain times lobbyists' influence on important legislation can be great. It is at this point and for this reason that lobbyists' practices may require careful guidance and scrutiny.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Miscellaneous Subjects Committee of the Legislature shall be designated to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 265.

Introduced by Hefner, 19th District; Von Minden, 17th District; Duda, 14th District; Fenger, 45th District; Beyer, 3rd District; Barrett, 39th District.

PURPOSE:

To examine any issues or potential problems in Nebraska bingo laws and how state lotteries and gambling laws relate thereto.

The issues within the area of bingo are difficult to clearly define and identify. Not all groups affected by bingo laws are satisfied that a balance exists between over- and under-regulation of the industry. In addition, certain provisions in the law affect different areas in the state in completely different ways.

Many groups involved in bingo are also involved in lotteries or other types of gambling. Because of these complexities, the issues and laws may need added clarification.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Miscellaneous Subjects Committee of the Legislature shall be designated to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Mr. Kremer asked unanimous consent to be excused for the remainder of the day. No objections. So ordered.

LEGISLATIVE BILL 942. Title read. Considered.

The Chair sustained the division of the question.

The Standing Committee amendment (1) was adopted with 26 ayes, 0 nays, 13 present and not voting, and 10 excused and not voting.

Mr. Chronister offered the following amendment to the Standing Committee amendment (2):

1. Delete "physicians" and insert "practitioners."

The Chronister amendment was adopted with 20 ayes, 3 nays, 16 present and not voting, and 10 excused and not voting.

Mr. Warner moved for a Call of the House. The motion prevailed with 14 ayes, 0 nays, and 35 not voting.

LEGISLATIVE RESOLUTION 266.

Introduced by Carsten, 2nd District; Beyer, 3rd District; Koch, 12th District; Dworak, 22nd District; Sieck, 24th District; Fowler, 27th District.

WHEREAS, education is vital to the safety and well-being of the future of the United States; and

WHEREAS, after World War II, the United States Congress recognized the importance of education by providing low-interest loans and grants to citizens who otherwise would not be able to afford an education; and

WHEREAS, federal Pell Grants allowed more than eighteen thousand students to attend the University of Nebraska, state colleges and universities last year; and

WHEREAS, more than twenty-two thousand students from the University of Nebraska, the state colleges, Nebraska's technical community colleges, and the state's independent colleges and universities used a guaranteed student loan to pay for their education last year; and

WHEREAS, approximately half of the nation's graduate students use guaranteed student loans to become tomorrow's scientists, agribusiness leaders, engineers, teachers, attorneys, physicians, and architects; and

WHEREAS, President Reagan has proposed elimination of guaranteed student loans for graduate students, elimination of supplemental educational opportunity grants, elimination of state student incentive grants, elimination of federal support to the national direct student loan program, approximately a forty percent reduction in the Pell Grant program and a thirty percent reduction in the college work-study program; and

WHEREAS, as a result of the President's devastating cuts, by 1984 Nebraska students could lose more than eleven million dollars in educational assistance; and

WHEREAS, Nebraska students would lose more than seventeen thousand assistance awards as a result of the President's 1982-83 budget cuts alone; and

WHEREAS, the proposed cuts would penalize Nebraska students who default on less than five percent of their loans; and

WHEREAS, access to education will become more difficult to obtain for Nebraska's lower and middle income students.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature urges President Reagan to reconsider his massive financial aid reductions and urges Congress to reaffirm its commitment to education by at least retaining the current level of spending for higher education assistance programs.
2. That the Clerk of the Legislature transmit copies of this resolution to the President of the United States and to each member of the Nebraksa congressional delegation.

Laid over.

RESOLUTION

LEGISLATIVE RESOLUTION 267.

Introduced by DeCamp, 40th District.

WHEREAS, agriculture is Nebraska's largest, most important, and significant industry, and irrigation accounts for the bulk of the state's agricultural production; and

WHEREAS, Nebraska's climate is such that precipitation generally is not adequate to provide sufficient water for growing crops across much of the state, and surface water irrigation projects provide dependable sources of water for irrigation in times of drought and shortage that help ensure agricultural production, stabilize the local economies, maintain family farm operations, and curb rural outmigration; and

WHEREAS, recent studies including the High Plains Ogallala Aquifer study indicate that widespread declines in ground water levels will occur and extensive areas of the state will be forced to revert to dryland farming unless supplemental sources of water can be located and utilized; and

WHEREAS, significant ground water level declines are occurring in a large area of north-central Nebraska that would be served with surface water for irrigation by the O'Neill Unit reclamation project; and

WHEREAS, ground water contamination exists in areas that would be served by the O'Neill project in excess of minimum federal health standards, and levels of contamination are projected to increase dramatically making ground water use unsafe over a large area of north-central Nebraska unless the O'Neill Unit reclamation project is developed; and

WHEREAS, a dependable supply of water for the O'Neill Unit reclamation project is available from the Niobrara River which annually discharges more than 1.1 million acre-feet of water out of the State of Nebraska into the Missouri River; and

WHEREAS, the O'Neill Unit reclamation project would provide surface water to irrigate 77,000 acres of farmland in north-central Nebraska, and would provide an area of ground water recharge for 182,500 acres; and

WHEREAS, the O'Neill Unit reclamation project will include multiple benefits for the people of Nebraska, including irrigation, outdoor recreation, fish and wildlife habitat, new fishery resources, and long-term employment and jobs in its construction and operation; and

WHEREAS, the O'Neill project enjoys the support of a substantial number of people locally in the project area; and the support of: the Governor and the State of Nebraska, Congresswoman Virginia Smith in whose district the project is located, the state Natural Resources Commission, the local Natural Resources Districts, the local county boards and city councils and town boards, and of numerous agriculture, business, and other groups statewide; and

WHEREAS, if the O'Neill project is not built numerous adverse situations will occur, including: widespread reversion to dryland farming over a large area of north-central Nebraska; declines in family farm populations; reduced retail business and trade; associated reductions in jobs and increased rural outmigration; reduced local, state, and federal revenues; increased local pressures for government support and services; and increased statewide pressures on welfare and public assistance; and

WHEREAS, the O'Neill Unit reclamation project was authorized for construction by the United States Congress in 1972, and construction of the project has been delayed several years by federal district court injunction because of incompletion of the federal Environmental Impact Statement; and

WHEREAS, the federal government has completed the final supplement to the Environmental Impact Statement, and the federal court concerns should be fully satisfied this year; and

WHEREAS, the conservation and beneficial use of surface water supplies in the State of Nebraska, and the solution of ground water problems through recharge, are important elements of the policy issues of the State of Nebraska; and

ATTORNEY GENERAL'S OPINIONS

Opinion No. 222

March 17, 1982

Dear Senator Vickers:

In your letter of March 11, 1982 you call our attention to Legislative Bill 647 which would, as amended, provide that no citizen could circulate initiative or referendum petitions outside his or her county of residence, and further, that no citizen could be reimbursed for expenses by a group or organization sponsoring a petition or referendum and ask our opinion as to the constitutional validity of such restrictions given the provisions of the Nebraska Constitution reserving to the people the right of initiative and referendum.

In Article III, sections 2 and 3 of the Constitution of the State of Nebraska the right to initiative and referendum have been specifically reserved to the people. The Nebraska Supreme Court has held generally that these reserved rights should be construed to make effective the powers reserved. Klosterman v. Marsh, 180 Neb. 506, 143 N.W.2d 744 (1966). There they further held that legislation which would hamper or render ineffective the power reserved to the people would be unconstitutional. See, also, State ex rel. Ayres v. Amsberry, 104 Neb. 273, 177 N.W. 179.

However, as you are no doubt aware the Constitution also authorizes the Legislature to enact laws to facilitate the operation of the initiative or referendum powers and the Nebraska Supreme Court has held that the Legislature may enact reasonable legislation to prevent fraud or to render intelligible the purpose of the proposal. State v. Amsberry, supra.

Specifically, the Nebraska Supreme Court held in State ex rel. Winter v. Swanson, 138 Neb. 597, 294 N.W. 200 (1940), "Any legislative act which tends to insure a fair, intelligent, and impartial result on the part of the electorate may be said to facilitate the exercise of the initiative power."

Therefore, we would be of the opinion that so long as the purpose of the restrictions is reasonable and is designed to prevent fraud or to render more intelligible the purpose of any initiative or referendum effort that our Supreme Court would find such restrictions constitutional as promoting a fair, intelligent and impartial result.

In this regard it might be desirable should the Legislature ultimately enact such provisions to have provided either in the body of the law or in the legislative history a concise statement of the legislative purpose. If we can be of further assistance to you on this matter, please let us know.

Sincerely,
PAUL L. DOUGLAS

Re: Constitutionality of LB 700

Dear Senator Wesely:

We are responding to your request in which you ask us to review the constitutionality of LB 700, requiring the Natural Resources Districts to create subdistricts from which members of the district board are to be elected. Specifically, you express concern about section 3 of that proposal, which authorizes population variances between subdistricts not to exceed a ratio of two-to-one. Population variances of such subdistricts allows electors from less populated subdistricts to have more powerful votes than their neighbors in subdistricts with larger populations. The issue seems to be whether this departure from the one-man, one-vote concept is constitutionally permissible in light of the unique nature of natural resources districts.

The one-man, one-vote concept was explained in Hadley v. Junior College District of Metropolitan Kansas City, Missouri, 397 U.S. 50, 90 S.Ct. 791, 25 L.Ed.2d 45 (1970), wherein the court stated:

> [A]s a general rule, whenever a state or local government decides to select persons by popular election to perform governmental functions, the equal protection clause of the Fourteenth Amendment requires that each qualified voter must be given an equal opportunity to participate in that election, and when members of an elected body are chosen from separate districts, each district must be established on a basis that will insure, as far as is practicable, that equal numbers of voters can vote for proportionately equal numbers of officials.

(Emphasis added.) Id. at 397 U.S. 57.

The United States Supreme Court in Ball v. James, ___ U.S. ___, 68 L.Ed.2d 150 (1981), and Salyer Land Company v. Tulare Lake Basin Water Storage District, 110 U.S. 719, 94 S.Ct. 1224, 35 L.Ed.2d 659 (1963), affirmed statutes that limited the class of electors of districts similar to our natural resources districts to land owners with holdings of a certain size or larger. In each case, registered voters outside the designated class of electors brought suit alleging that such limitation of the electors constituted a violation of the one-man, one-vote principle. In each case, the court held that the "disproportionate relationship [that] the district's function bear[s] to the specific class of people whom the system makes eligible to vote," justified the departure. Ball v. James, at ___, 68 L.Ed.2d at 163.

Unfortunately, neither Ball nor Salyer involved a challenge to an apportionment scheme; each dealt with a challenge to a class of electors. However, Hadley did deal with the subdistricting scheme much like that proposed in LB 700. The Hadley court, while acknowledging the broad governmental powers of a junior college district, expressly declined to distinguish elections on the basis of their purposes. Rather, the court held that the class of eligible electors would determine whether equal apportionment between subdistricts was required.

The rule that emerges from Ball, Salyer, and Hadley, allows State Legislatures to regulate the class of electors, where "the effect of the entity's operation on them [is] disproportionately greater than the effect on those" otherwise qualified voters excluded from the class. Ball v. James at ___, 68 L.Ed.2d at 163. The unique nature of the governmental body is merely a constitutional justification for limiting the class of electors, not allowing disproportionate voting allocation. Thus, where the class of electors is not limited, the principle of one-man, one-vote is applicable.

Since LB 700 designates all resident electors as eligible voters without attempting to limit the class of electors, the principle of one-man, one-vote governs and variances are not authorized. Therefore, it is our conclusion, that the authorized variances from the one-man, one-vote principle contained in LB 700 are unconstitutional.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 224
March 23, 1982

Dear Senator Hefner:

You have asked the following questions in regard to Legislative Bill 611:

1. For purposes of legal liability in the event of a lawsuit brought for damages occurring as a result of insufficient maintenance of a road maintained by a township, is a township treated like an incorporated municipality regardless of whether it is actually incorporated, or is the county responsible for the defense of the suit unless it clearly falls within the "incorporated municipality" category?
2. Who would a plaintiff properly sue for damages on a township-maintained road where no incorporated entity exists?
3. In the event an incorporated municipality exists within a township but the township boundaries are broader than the municipal corporate limits, who would a plaintiff sue for damages occurring on a road maintained by the township, but outside the corporate limits of the city?
4. In each such case, is the township or the county, or some combination thereof, responsible for defending the suit?

The primary source for answers to your questions is the Political Subdivisions Tort Claims Act, cited as Neb.Rev.Stat. §§23-2401, et seq., (Reissue 1977), which provides the exclusive remedy for tort claims, Christensen v. City of Tekamah, 201 Neb. 344, 268 N.W.2d 93 (1978).

Under Section 23-2402 of this Act, the following definitions are made:

> "(1) Political subdivision shall include villages, cities of all classes, counties, school districts, public power districts, and all other units of local government. Political subdivision shall not be construed to include any contractor with a political subdivision;
>
> (2) Governing body shall mean the village board of a village, the city council of a city, the board of commissioners or board of supervisors of a county, the board of directors of a public power district, and any duly elected or appointed body holding the power and authority to determine the appropriations and expenditures of any other unit of local government;"

Further, Section 23-2410 of the Act provides:

> "If any person suffers personal injury or loss of life, or damage to his property by means of insufficiency or want of repair of a highway or bridge or other public thoroughfare, which a political subdivision is liable to keep in repair, the person sustaining the loss or damage, or his personal representative, may recover in an action against the political subdivision, . . ."

The questions to answer are, thus, (a) whether townships are units of local government, and, (b) if so, what is their legal responsibility for keeping roads in repair.

The answer to question (a) is found in the case of Wilson v. Ulysses Township, 72 Neb. 807 (1904), wherein at page 812 it is stated without equivocation, "they (townships) are subdivisions of the state government upon which, for convenience, certain powers have been conferred, strictly limited however to the exercise of certain functions more easily carried out by subdivision". The case analysis compares counties and townships and finds little difference except in degree and territorial extent of jurisdiction. This holding was later confirmed in the case of State v. Bone Creek Township, Butler County, 109 Neb. 202, 190 N.W. 586 (1922), rehearing denied 109 Neb. 202, 193 N.W. 767 (1922), citing Wilson v. Ulysses Township, supra.

As regards question (b), historically, the Nebraska Supreme Court, under statutes then in existence and prior to passage of the Political Subdivisions Tort Claims Act, held that "in counties under township organization the county itself is no longer liable for the construction, maintenance and repair of the public highways within the several towns; that in such case the towns are chargeable with that duty, and are liable for its performance." Goes v. Gage County, 67 Neb. 616, 93 N.W. 923 (1903). But, following later legislation, opinion of the Attorney General No. 136 of July 28, 1972, was released, a copy of which is attached, which opinion places prime responsibility for rural highways in the county board, but recognizes concurrent responsibility for the maintenance of township roads in township boards. Accepting this position, in answer to your first question, it is apparent that either or both the township and county could be sued for damages occurring as a result of insufficient maintenance of a road maintained by a township, township being construed to mean either a "regular" township or one created to encompass only a single municipality. The same answer would apply to your remaining three questions.

You further request suggested amendatory legislation if indicated. Whether such legislation is indicated would seem to depend on whether the Legislature wishes to more sharply define and allocate legal liability between counties and townships. It would seem rather apparent that as of now, under this opinion most, if not all, lawsuits would be directed at the county.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 225
March 23, 1982

Dear Senator Haberman:

This is in reply to your inquiry concerning LB 127, final reading draft.

You inquire whether or not the State Surveyor could use his office, office staff and his own time necessary to operate the record repository created by LB 127.

Assuming the State Surveyor's office is operated solely by general fund appropriations, as you indicate in your letter, he would not be able to do so.

This is because Section 18 of LB 127 specifically provides: "No expense for developing or maintaining the survey record repository shall be paid for by funds from the General Fund."

Section 17 of said bill also provides that the State Surveyor receive and account for all money received from operating the record repository and pay such to the State Treasurer who shall keep such money in a separate fund to be known as the Survey Record Repository Fund. Such fees are established by Section 16(4) of said act.

In light of the specific requirements of Section 17 for paying the fees over to the state treasury, and the specific limitation of Section 18 that no funds from the general fund be used to develop or maintain the survey record repository, it would, in our opinion, be a misuse of funds if personnel or other items supported by the general fund in the State Surveyor's office, or any other office supported by the general fund, were loaned or used to establish and maintain the survey record repository.

Respectfully submitted,

Opinion No. 226
March 24, 1982

Dear Senator Carsten:

You have asked our opinion as to the constitutional validity of your amendment to the committee amendments to LB 816, which have now been adopted and are a part of LB 816. We will confine our opinion to a discussion of your amendment, rather than discuss the bill as a whole.

Your amendment would provide for the payment of $17,700,000 in state aid to the counties, to be distributed on the basis of the ratio of the total amount of property taxes levied by each county for county purposes to the total amount of property taxes levied by all counties for county purposes. It is our conclusion that this is a constitutionally valid formula for distribution.

We say this despite the fact that some language in State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980) may cast some doubt on the matter. In that case the court held a provision granting state aid on the basis of increases in the total amount of taxes levied in the county to be invalid, saying that it rewarded a county for imposing a higher mill levy, thereby raising more taxes, and penalized it for acting cautiously and carefully, reducing the levy. The court held this to be irrational. The same argument can be made with respect to your amendment.

Nevertheless, we would be prepared to defend the provision we are considering. We think perhaps it can be distinguished from the facts in State ex rel. Douglas v. Marsh, and we point out that the holding on that particular issue was not argued or advanced by either party to the suit, so the court has not had the advantage of adversary arguments on the matter.

We are prepared to argue that the formula you propose is rational. It reflects the tax effort of each county, and will result in all of the counties' in the state receiving the same percentage of the amount they raise by a property tax for county purposes. In effect, it amounts to the state's contributing a certain percentage of the county tax burden to each county, the percentage the same for each. We do not believe such a system is wholly irrational. The law is clear that if a rational basis exists for legislation, the court will not question the judgement of the legislature. See, State ex rel. Douglas v. Gradwohl, 194 Neb. 745, 235 N.W.2d 854 (1975).

Certainly an argument can be made that tying sate aid to taxes raised by the county gives the county an opportunity to unilaterally increase the aid by increasing the taxes. There are, however, political considerations, consisting of taxpayer reaction, which may tend to minimize any deliberate attempts to benefit from this situation. The Legislature could well conclude that such constraints were enough to prevent an abuse of the system. We do not believe the court will overrule the Legislature on such a question, even if it disagrees.

We are further persuaded that the formula can be upheld by the fact that this formula has been used by many states for distributing state aid. we have read a publication entitled "The State of State-Local Revenue Sharing," published by the Advisory Commission on Governmental Relations in December of 1980. On pages 11 and 12 of this publication it is stated that many states have avoided the problems of determining and combining a large number of need and tax capacity indicators, and have used similar methods. One of the two basic formulas given as examples arrives at the aid factor by dividing the community taxes by the statewide total of community taxes. This, of course is the formula we are considering.

On page 49 we find a discussion of Maryland's formulas for distributing state aid. One of those formulas distributes it in proportion to the local property tax levy. The discussion makes it clear that "levy" means the taxes raised by property taxation, and not the mill levy, so this formula is identical to yours.

We are not suggesting that simply because other states have used such a formula guarantees that our court will consider it rational. Nevertheless, the fact that a number of states have used such a formula should have some weight.

We believe your amendment is rationally based, and are prepared to defend it.

Very truly yours,
PAUL L. DOUGLAS

Req. #2887

1. Insert the following new sections:

“Sec. 9. Every person found guilty of murder in the first degree shall suffer death if any one or more of the special circumstances enumerated in section 11 of this act have been charged and found to be true in the manner provided in section 10 of this act. Every person otherwise found guilty of murder in the first degree shall suffer confinement in the Department of Correctional Services adult correctional facility for life. Every person found guilty of murder in the second degree shall be punished by imprisonment in the Department of Correctional Services adult correctional facility from five years to life.

Sec. 10. (1) In any case in which the death penalty is to be imposed as the penalty for an offense only upon the finding of the truth of the special circumstances enumerated in section 11 of this act, the guilt or innocence of the person charged shall first be determined without a finding as to penalty. If such a person has been found guilty of such an offense, and has been found sane on any plea of not guilty by reason of insanity, and any one or more of the special circumstances enumerated in section 11 of this act have been charged, there shall be further proceedings on the issue of the special circumstances charged. The determination of the truth of any or all of the special circumstances charged shall be made by the trier of fact on the evidence presented. In case of a reasonable doubt whether a special circumstance is true, the defendant is entitled to a finding that is not true. The trier of fact shall make a special finding that each special circumstance charged is either true or not true. Wherever a special circumstance requires proof of the commission or attempted commission of a crime, such crime shall be charged and proved pursuant to the general law applying to the trial and conviction of a crime.

(2) If the defendant was convicted by the court sitting without a jury, the trier of fact shall be a jury unless a jury is waived by the defendant, in which case the trier of fact shall be the court. If the defendant

was convicted by a plea of guilty the trier of fact shall be a jury unless a jury is waived by the defendant. If the defendant was convicted by a jury, the trier of fact shall be the same jury unless, or good cause shown, the court discharges that jury, in which case a new jury shall be drawn to determine the issue of whether or not any of the special circumstances charged are true or not true.

(3) If the trier of fact finds, as to any person convicted of any offense under section 9 of this act requiring further proceedings that any one or more of the special circumstances enumerated in section 11 of this act as charged is true, the defendant shall suffer the penalty of death, and neither the finding that any of the remaining special circumstances charged is not true, nor if the trier of fact is a jury, the inability of the jury to agree on the issue of the truth or untruth of any of the remaining special circumstances charged, shall prohibit the imposition of such penalty.

(4) In any case in which the defendant has been found guilty by a jury, and the same or another jury is unable to reach a unanimous verdict that one or more of the special circumstances charged are true, and does not reach a unanimous verdict that all of such special circumstances charged are not true, the court shall dismiss the jury and shall order a new jury impaneled to try the issues, but the issue of guilt shall not be retried by such jury, nor shall such jury retry the issue of the truth of any of the special circumstances which were found by a unanimous verdict of the previous jury to be untrue. If such new jury is unable to reach a unanimous verdict that one or more of the special circumstances it is trying are true, the court shall dismiss the jury and impose the punishment of confinement in the Department of Correctional Services adult correctional facility for life.

Sec. 11. The penalty for a person found guilty of first degree murder shall be death in any case in which the trier of fact pursuant to the further proceedings provided for in section 10 of this act makes a special finding that:

(1) The murder was intentional and was carried out pursuant to an agreement with the defendant. An agreement, as used in this subdivision, shall mean an agreement by the person who committed the murder to accept valuable consideration for the act of murder from any person other than the victim; or

(2) The defendant personally committed the act which caused the death of the victim and any of the following additional circumstances exist:

(a) The victim is a peace officer who, while engaged in the performance of his or her duties, was intentionally killed, and the defendant knew or reasonably should have known that such victim was a peace officer engaged in the performance of his or her duties;

(b) The murder was willful, deliberate, and premeditated and the victim was a witness to a crime and was intentionally killed for the purpose of preventing his or her testimony in any criminal proceeding;

(c) The murder was willful, deliberate and premeditated and was committed during the commission or attempted commission of any of the following crimes:

(i) Robbery;

(ii) Kidnapping. Brief movements of a victim which are merly incidental to the commission of another offense and which do not substantially increase the victim's risk of harm over that necessarily inherent in the other offense do not constitute kidnapping within the meaning of this subdivision;

(iii) First degree sexual assualt by force or violence, or by threat of great and immediate bodily harm;

(iv) The performance of lewd or lascivious acts upon the person of a child under the age of fourteen years; or

(v) Burglary, of an inhabited dwelling house entered by the defendant with an intent to commit grand or petit larceny or first degree sexual assualt; or

(d) The defendant has in this or in any prior proceeding been convicted of more than one offense of murder of the first or second degree. For the purpose of this subdivision an offense committed in another jurisdiction, which if committed in Nebraska would be punishable as first or second degree murder, shall be deemed to be murder of the first or second degree.

Sec. 12. (1) Notwithstanding any other provision of law, the death penalty shall not be imposed upon any person who was under the the age of eighteen years at the time of the commission of the crime. The burden of proof as to the age of such person shall be upon defendant.

(2) Except when the trier of fact finds that a murder was committed pursuant to an agreement as defined in subdivision (1) of section 11 of this act, the death penalty shall not be imposed upon any person who is a principal in the commission of a capital offense unless he or she was personally present during the commission of the act or acts causing death, and directly committed or physically aided in the commission of such act or acts.

Sec. 13. Any person who seizes, confines, inveigles, entices, decoys, abducts, conceals, kidnaps, or carriers away any individual by any means whatsoever with intent to hold or detain, or who holds or detains such individual for ransom, reward, or to commit extortion or to exact from relatives or friends of such person any money or valuable thing, or any person who kidnaps or carries away any invididual to commit robbery, or any person who aids or abets any such act, is guilty of a felony and shall, upon conviction thereof, suffer death in cases in which any person subjected to any such act suffers death, or shall be punished by imprisonment in the Department of Correctional Services adult correctional facility for life in cases in which any person subjected to any such act suffers bodily harm, or shall be punished by imprisonment in the Department of Correctional Services adult correctional facility for life in cases where no such person suffers death or bodily harm.

Sec. 14. Every person who unlawfully throws out a switch, removes a rail, or places any obstruction on any railroad with the intention of derailing any passenger, freight, or other train, car, or engine and thus derails the same, or who unlawfully places any dynamite or other explosive material or any other obstruction upon or near the track of any railroad with the intention of blowing up or derailing any such train, car, or engine and thus blows up or derails the same, or who unlawfully sets fire to any railroad bridge or trestle over which any such train, car, or engine shall pass with the intention of wrecking such train, car, or engine, and thus wrecks the same, is guilty of a felony and punishable with death in cases in which any person subjected to any such act suffers death as a proximate result thereof, or imprisonment in the Department of Correctional Services adult correctional facility for life in cases where any person suffers bodily harm as a proximate result thereof, or imprisonment in the Department of Correctional Services adult correctional facility for life in cases where no person suffers death or bodily harm as a proximate result thereof.

Sec. 15. Unless otherwise provided by law every plea shall be put in by the defendant himself or herself in open court. No plea of guilty of a felony for which the maximum punishment is death or life imprisonment shall be received from a defendant who does not appeal with counsel, nor shall any such plea be received without the consent of the defendant's counsel. No plea of guilty to a capitol offense which does not require the further proceedings provided for in section 10 of this act shall be received from a defendant. No plea of guilty of a felony for which the maximum punishment is not death or life imprisonment shall be accepted from any defendant who does not appear with counsel unless the court shall first fully inform him or her of his or her right to counsel and unless the court shall find that the defendant understands his or her right to counsel and freely waives it and then, only if the defendant has expressly stated in open court, to the court, that he or she does not wish to be represnted by counsel. On application of the defendant at any time before judgment the court may, and in case of a defendant who appeared without counsel at the time of the plea the court shall, for a good cause shown, permit the plea of guilty to be withdrawn and a plea of not guilty substituted. Upon indictment or information against a corporation a plea of guilty may be put in by counsel. This section shall be liberally construed to effect these objects and to promote justice.

Sec. 16. Nothing in sections 9 to 16 of this act shall be construed to require a defendant to appear in any proceedings under sections 9 to 16 of this act with counsel, if such defendant has voluntarily and intelligently elected to proceed in person without counsel.".

2. On page 16, line 23, after "offenses" insert "and punishments".

ATTORNEY GENERAL'S OPINIONS

Opinion No. 227
March 25, 1982

Dear Senator Chambers:

In your letter of March 19, 1982, you call our attention to the provisions of LB 869 and raise several questions. This legislation would amend Neb.Rev.Stat. §53-180.05 (Reissue 1978) to add a new subsection (3) which if adopted would provide as is pertinent:

> Any person who knowingly manufactures, creates, or alters any form of identification for the purpose of sale or delivery of such form of identification to a person under the age of 20 years shall be guilty of . . . For purposes of this subsection, form of identification shall mean any card, paper, or legal document that may be used to establish the age of the person named thereon for the purpose of purchasing alcoholic liquors.

You first suggest that by using the words "Any person" this prohibition would apply to anyone no matter how young and ask if we agree with this observation. Assuming it could be found that the young person was capable of forming the requisite criminal intent, we believe that your observation would be accurate.

You also ask whether or not this section, as written, would create a crime regardless of whether or not there was actual delivery or sale of this form of identification. We would be of the opinion that a violation of this section would occur at the time any person manufactured, created or altered any form of identification and that the elements of the crime would exist in the absence of actual sale or delivery of the document if its creation, alteration or manufacture was done for the purpose of selling or delivering such document to a minor. We note in passing that it would apparently be illegal for any person to manufacture or create any form of identification the purpose of which was to be used in conjunction with the purchase of alcoholic liquors regardless of whether or not the information contained on that document was accurate. In other words a violation of this section would not depend upon the document created containing false information.

You also ask our opinion as to whether or not this language is unconstitutionally vague or too broad. Generally speaking, a statute with forbids the doing of an act in terms so vague that men of common intelligence must necessarily guess as to its meaning and differ as to its application is violative of the constitutional due process guarantees. State v. Huffman, 202 Neb. 434, 275 N.W.2d 838 (1979).

Criminal statutes are not however required to be written so as to be beyond the mere possibility of more than one construction, State v. Robinson, 202 Neb. 210, 274 N.W.2d 553 (1979), nor are they invalid simply because the prohibition could have been drafted with greater precision. State v. Briner, 198 Neb. 766, 255 N.W.2d 422 (1977). The prohibition to be upheld must be reasonably clear and definite. State v. Huffman, supra.

While it occurs to us that this prohibition could have been more carefully drafted, we do not believe that its prohibitions would be violative of due process standards as being too broad or too vague.

In raising this particular question, you suggest in passing, that other types of false identifications may be legal even if used. With this observation we disagree and draw your attention to the provisions of Neb.Rev.Stat. §53-180.01 (Reissue 1978), which makes it illegal for a minor to obtain or attempt to obtain alcoholic liquor by a misrepresentation of age, or by any other method and we suggest therefore that the actual use of a false identification, while not rendered illegal by the provisions of LB 869, are nevertheless illegal.

You also raise certain questions about the breadth of the language contained within LB 869 which provides, "For the purposes of this subsection, form of identification shall mean any card, paper, or legal document that may be used to establish the age of the person named thereon for the purpose of purchasing alcoholic liquors." You suggest in your inquiry that the legality or illegality of the document would be left to the person to whom it is presented during the process of purchasing alcoholic liquors. While this section may prohibit the manufacture, creation or alteration of a wider range of documents than perhaps is necessary to eliminate the use by minors of false identifications, we do not believe that it is constitutionally overbroad.

Here again we note in passing that this section would render illegal, the manufacture or creation of any form of identification regardless of its accuracy, if the purpose of the manufacture or creation of this document was for the sale or delivery to a minor and if this document could be used to substantiate the age of an individual, such substantiation being necessary to the purchase of alcoholic liquors.

This amendment would appear to render illegal the manufacture or creation of any identification document reflecting age for the purpose of selling or delivering such a document to a minor even though the purchasing minor might not intend to utilize this identifying document until they had reached their majority. Here again we find no constitutional impediment to the Legislature's creating such a broad prohibition, however we question in passing whether its authors intended such broad application.

In conclusion, while we question the necessity of proscribing such a wide range of conduct, we leave that decision to the best judgment of the Legislature and are of the opinion that if this provision is enacted, it most likely would be upheld as being constitutional.

Sincerely,
PAUL L. DOUGLAS

Opinion No. 228
March 26, 1982

Dear Senator Wesely:

You have asked a number of questions regarding Legislative Bill 611, as presently amended, generally as to the liability of the counties and State under reduced standards of maintenance for county roads.

First, as to whether a county could, without incurring liability, remove a bridge and fail to make appropriate roadbed alteration or barricade the gap, we are of the opinion that if a county keeps a road open, it must keep it reasonably safe for travelers. The Nebraska Supreme Court, in the case of Christensen v. City of Tekamah, 201 Neb. 344, 268 N.W.2d 93 (1978), has summarized pertinent law on the matter. First, it noted that, "Section 23-411 R.R.S. 1943, expressly states that all prior case law which evolved from former section 39-834, R.R.S. 1943, shall be applicable in deciding cases governed by section 23-2410, R.R.S. 1943". Second, it stated, "This court has held that a county is not an insurer of the safety of travelers on its roads, but must use reasonable and ordinary care in the construction, maintenance, and repair of its highways and bridges so that they will be reasonably safe for a traveler using them while he is in the exercise of reasonable and ordinary caution and prudence." Third, it noted that "The public authority is not liable for a failure to remedy trivial irregularities, slight depressions, or other minor inequalities in the surface of the highway. . . .", but, "Holes, ruts, or depressions in the street or sidewalk may give rise to a right of action for injuries caused thereby if they are of such a nature that danger might reasonably be anticipated." Therefore, it is concluded that it would be unsafe to rely on the protection of administrative minimum standards which are below the court standards enumerated above.

Second, on the question of a county escaping liability on the basis of compliance with State promulgated minimum maintenance standards, what has been said in answer to your first question is considered equally applicable. It appears that it was indeed the intent of renumbered Sec. 6 of the bill to allow escape from liability, but it is not considered to have repealed Neb.Rev.Stat. §23-2411, (Reissue 1977), which still, as previously pointed out, imposes the standard of reasonable and ordinary care.

Third, as to possible State liability for setting standards allowing dangerous conditions, it is considered that there would be no such liability under the provisions of Neb.Rev.Stat. §81-8,219 of the State Tort Claims Act, which states in pertinent part:

> (1) The provisions of this Act shall not apply to: (a) Any claim based upon an act or omission of an employee of the State, exercising due care, in the execution of a statute or regulation be valid, or based upon the exercise or performance or the failure to exercise or perform a discretionary function or duty on the part of a State agency or an employee of the State, whether or not the discretion be abused; . . .

Fourth, you ask whether Neb.Rev.Stat. §39-2113 (Supp. 1980) allows counties to gain permission to maintain a little used stretch of road to lesser standards. Said statute does state, in pertinent part:

> Any county or municipality which believes that the application of such standards to any segment of highway, road, or street would work a special hardship, or other interested party which believes that application of such standards to any segment of highway, road, or street would defeat the purpose of the scenic-recreation functional classification contained in this Act, may request the board to relax the standards for such segment.

Thus, the answer to your question is "yes".

Fifth, you ask the measure of the county's liability if lesser standards are permitted under Section 39-2113. Assuming that you still mean liability to the public for damages occasioned by insufficient maintenance or repair of a road, you are again referred to the answer to question one, which sets a standard of reasonable and ordinary care. This, of course, always raises questions of fact, which can only be finally determined by a court.

Sixth, you ask: "If the county were free from liability on compliance with the lesser standards, would the State be vulnerable to a lawsuit for damages on the basis that the standards should not have been relaxed?" It is believed that the answer would be a combination of the answers to your first and third questions, i.e., the county would still be liable under the "reasonable and ordinary care" doctrine, and the State would not be liable under Neb.Rev.Stat. §81-8,219(1) (a) (Reissue 1976).

Seventh, you ask whether renumbered Sec. 8 of the bill would allow administrative rules and regulations promulgated pursuant to Chapter 39, Section 21, to supersede other statutory provisions appearing elsewhere, such as requiring posting of weight limits on bridges. Assuming such regulations would be within the parameters of the authorizing statute, the result would really be a conflict of statutes. If L.B. 611 is truly an independent act, it would be regarded as having repealed such contrary statutes by implication. Drew v. Mumford, 114 Neb. 100, 206 N.W. 159 (1925). However, it is at least questionable that it can be so regarded. Basically, the bill is an amendatory act with only a portion therein being set up as an independent act, and the effect of this portion is amendatory. Under such circumstances, it is considered that the Nebraska Supreme Court well could consider the Act void under its prior holdings in the cases of State v. Bauman, 126 Neb. 566, 254 N.W. 256 (1934), State v. Day, 129 Neb. 699, 262 N.W. 850 (1935), and C. B. & Q. R.R. Co. v. County of Box Butte, 166 Neb. 603, 90 N.W.2d 72 (1958), all being interpretations of Art. III, Sec. 14 of the Constitution of the State of Nebraska.

But such discussion ignores the more immediate conflict created by the substantive amendment to Section 23-2411 (renumbered Sec. 1 of the Act) by inserting "and section 6 of this Act" in lines 22 and 23 of page 3. As so amended, the court would quite seemingly have the choice of basing liability on the first two sentences (prior law and judicial interpretations) or the third sentence (minimum standards set pursuant to section 39-2113). Given such options, it is our considered opinion that the court would choose the first and thus the present standard of "reasonable and ordinary care" would be perpetuated.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 229
March 26, 1982

Re: Request for Opinion on LB 726

Dear Senator Haberman:

We are responding to your request on an opinion whether Subsection 6 of Section 4 of LB 726 stating that a petition requesting groundwater controls must be signed by 75 percent of the persons residing in each township if such persons own 75 percent of the property in each township is constitutional.

Your initial inquiry concerns the choice of the specific language of this section. To us it is not clear that the intent of the section is to require that 75 percent of the property in the township be owned by 75 percent of the persons residing in that township, or whether or 75 percent of the property in that township be owned by the persons who signed the petition constituting 75 percent of the residents in the township. There is a difference upon the result depending upon this interpretation.

While the statutory language suggested is not so unintelligible and meaningless as to render it impossible of execution, Taylor v. Karrer, 196 Neb. 581, 244 N.W.2d 201 (1976), it is a general rule that a statute must be reasonably clear and definite to be valid. Neeman v. Nebraska

Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974). Some clarification of the language would avoid the confusion suggested above.

Our second point of inquiry concerns due process and equal protection arguments. Article III, section 2 of the Nebraska Constitution provides:

> The first power reserved by the people is the initiative whereby laws may be enacted and constitutional amenbdments adopted by the people independently of the Legislature.

The people are reserved the power to enact statutes and constitutional amendments. There is, however, no reservation of the power by the people within the Constitution to enact a local law. Under the Legislature's police power, certain people of townships within the designated districts are granted the power to adopt stricter water controls. The question is whether these qualifications impinge upon the equal protection and due process rights of the people within the township.

A Nebraska case, Nebraska Mid-State Reclamation District v. Hall County, 152 Neb. 410, 41 N.W.2d 397 (1950), supports the conclusion that the disqualified persons are not denied equal protection or due process of law. In holding that the Reclamation Act did not violate the constitutional guarantee of due process and equal protection because the act did not expressly confer a right on the owners of realty in a city to join in a petition for a creation of the water district, the Supreme Court stated:

> The Legislature had the power to create a water conservancy district by its own fiat. It need not have given any individual or group the right to petition for the creation of a district. It was within its discretion to determine what qualifications, if any, a petitioner for the creation of a district must have. . . .

41 N.W.2d at 412.

It should be kept in mind that non-freholders are not being denied the right to vote in violation of the "one man, one vote" doctrine. See, Reynolds v. Sims, 377 U.S. 533. However, using cases wherein the Supreme Court has questioned the validity of a provision making the right to vote dependent upon ownership of real property as an analogy, we can reinforce the conclusion that those persons denied qualification to sign the petition are not denied their equal protection or due process rights.

This conclusion is reached by a determination of whether the qualifications to sign the petition are rationally based. Using the criteria suggested in Ball v. James, __ U.S. __, 68 L.Ed.2d 150 (1981), the interest which the Legislature seeks to promote outweighs the interest of those excluded from signing the petition. Specifically, the district is not vested with typical governmental powers. The primary purpose of the district is the management, protection and conservation of groundwater. It provides no other general services such as schools, housing, transportation, utilities, or anything else of the type ordinarily financed by a municipal body. The district does not exercise what might be thought of as "normal governmental" authority. The district's actions do disproportionally affect landowners. Therefore, there appears to be a rational basis for the Legislature to impose an ownership of real property clause within this grant of power.

In conclusion, with the suggested language clarification, subsection 6 of Section 4 of LB 726 does not appear to be unconstitutional.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 230
March 26, 1982

Dear Senator DeCamp:

You have submitted to us a proposed amendment to the Carsten amendment of LB 816, and asked our opinion as to its constitutional validity. LB 816 provides for distribution of state aid which would begin after July 1, 1982. Your amendment would provide that such distributions should be made until the Supreme Court has ruled on the constitutionality of Neb.Rev.Stat. §§77-3611 to 77-3615 (Supp. 1981). If the court rules those sections unconstitutional, the distributions would continue as provided under the provisions of LB 816. If it rules the sections constitutional, the payments would be made pursuant to those sections.

While this is a very unusual provision, and, in the limited time we have had to work on it we have found no exact precedent, we can see no reason, in theory, why a provision of this type could not be sustained. We believe that making the application of a statute contingent upon a future ascertainable event is proper and is not unprecedented. The ruling of the Supreme Court on the validity of §§77-3611 to 77-3615 is such an event.

In Smithberger v. Banning, 129 Neb. 651, 262 N.W. 492 (1935), the court held that a statute contingent upon a future act of Congress amounted to an unconstitutional delegation to Congress of the Legislature's legislative powers. We do not believe that case is applicable, because the action of the Supreme Court will not be a discretionary, legislative, action, but a nondiscretionary, judicial, action. We believe that there is a controlling difference between making the application of a statute contingent upon discretionary action of another body and making it contingent on the happening of some event or nondiscretionary action.

We must point out, however, that several areas need to be clarified in your amendment. That amendment would eliminate the repeal of §§77-3611 to 77-3615. These sections now provide for the distribution of $70 million in state aid starting in December, 1982. LB 816, on the other hand, provides for the distribution of $82,600,000 to different entities than those provided for in §§77-3611 to 77-3615, beginning in July, 1982. Your amendment does not make it clear that no payments are to be made under §§77-3611 to 77-3615 until such time as these sections are held to be constitutional, although we are sure that is your intention. Considerable confusion could arise if the court has not ruled by December, 1982, if §§77-3611 to 77-3615 remain in the statutes, providing for certain distributions, and at the same time other distributions are being made pursuant to LB 816. This should be clarified. We must also point out the difficulties that would arise if §§77-3611 to 77-3615 are upheld after distributions have been made as provided in LB 816. Under §§77-3611 to 77-3615, apparently all taxing subdivisions would be entitled to some money. That is not true with respect to LB 816, which, as we understand it, gives money only to schools, technical community colleges, incorporated municipalities, and counties. We have not analyzed all of the ramifications of a distribution of a substantial protion of the $82,600,000 before the switch to §§77-3611 to 77-3615, but some questions would arise.

For example, in that contingency, should a total of $70 million be distributed, as contemplated by §77-3612, or $82,600,000, as contemplated by LB 816? Should subdivisions which had received money under LB 816 be charged with those payments, in order that all would receive the same treatment for the full year, as contemplated by §§77-3611 to 77-3615, or should they simply retain what they got under LB 816, and the balance of what was left of the $82,600,000 (or $70 million) be divided as contemplated by §§77-3611 to 77-3615? This latter solution would, of course, result in those subdivisions omitted under LB 816 getting proportionately much less than they would if §§77-3611 to 77-3615 were applied for the full year.

Also, what should be the operative date of a ruling of the Supreme Court that §§77-3611 to 77-3615 are constitutional, which will trigger the switch in distribution? Is it the date of the issuance of the original opinion, the overruling of a possible motion for rehearing, or the issuance of the mandate? We assume that it would not be the date of the entry of the order of the district court on the mandate, since your amendment speaks of a ruling of the Supreme Court, but there are three dates which could be applicable under the language of the amendment, which could make a considerable difference in the distribution of the fund.

There are, no doubt, other areas of uncertainty which should be cleared up. Someone should sit down and analyze very carefully all of the ramifications of this amendment, so that all questions as to just how it will work will be answered in the bill. Otherwise, the court may hold the bill void as being unconstitutionally vague and uncertain. See State ex rel. Douglas v. Herrington, 206 Neb. 516, 294 N.W.2d 330 (1980).

LEGISLATIVE RESOLUTION 277.

Introduced by DeCamp, 40th District; Koch, 12th District.

WHEREAS, the controversy concerning whether the State of Nebraska and its subdivisions of government have the right and authority to levy personal property taxes on business equipment located on the Offutt Air Force Base has gone on for a considerable number of years without being resolved beneficially for the State of Nebraska; and

WHEREAS, the tax exempt status enjoyed by private businesses on their business equipment located on the Offutt Air Force Base has resulted in a direct revenue loss to certain subdivisions of state government, particularly the school districts located in Sarpy County, as well as the City of Bellevue and Sarpy County itself; and

WHEREAS, the State of Nebraska has found it necessary, in a variety of ways, to attempt to make up for this loss of revenue for the school districts through various state aid formulas which in turn, has resulted in a burden on all taxpayers of this State; and

WHEREAS, the responsibility of educating the large number of children incidental to the operation of the Offutt Air Force Base has therefore fallen upon the property taxpayers of Sarpy County in an excessive and unfair manner; and

WHEREAS, on March 24, 1982 the Supreme Court of the United States in the case of United States v. State of New Mexico indicates clearly that the alleged tax immunity being used by private business to avoid personal property taxation for property located on the Offutt Air Force Base might well be an improper and unfounded immunity and therefore, such immunity is probably void, and

WHEREAS, President Eisenhower, because of his concern with the gross inequities of these alleged tax exemption enjoyed by private businessmen simply because their property was located on federal property, appointed a special committee to study such problems and correct the problems; and

WHEREAS, the federal study of the Eisenhower Administration indicated that the federal government should no longer attempt to accept this measure of jurisdiction and cause the injustice resulting from this alleged immunity; and

WHEREAS, Nebraska was one of the very few entities in the United States that sought, for whatever reasons, to perpetuate the situation in which private businesses would be allowed to locate their business equipment on property of the United States and therefore, avoid personal property taxes with the consequential loss of revenue to the State or subdivisions of state government; and

WHEREAS, past attempts to pressure Nebraska public officials at the Congressional level and federal officials in command of Offutt Air Force Base to correct this alleged immunity and allow the State of Nebraska to collect taxes properly due to its political subdivisions have been fruitless.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That in light of the March 24, 1982 U.S. Supreme Court decision of United States v. State of New Mexico the State Attorney General and the State Tax Commissioner immediately take the necessary steps to implement and enforce personal property tax laws upon those

persons, corporations or associations to and upon whom the tax would properly apply who have business equipment located on the Offutt Air Force Base;

2.That should any further action be necessary, the Legislature requests that this State's Congressional Delegation and Governor take whatever action is necessary and proper at the federal level to cause the implementation of the State's personal property tax laws for private businesses located on Offutt Air Force Base precisely as such taxes are administered in the rest of the elected states;

3. That the Legislature appoint members of the Executive Board of the Nebraska Legislature and Senators John DeCamp, Emil Beyer, and George Fenger to make certain that the directives contained in this Resolution are carried out and the taxes collected and credited to the proper entities of State government.

Laid over.

LEGISLATIVE RESOLUTION 278.

Introduced by Sieck, 24th District; Landis, 46th District; Vickers, 38th District.

WHEREAS, Nebraska's prairie is a major element of the state's heritage and has played an important role in our history and culture; and

WHEREAS, Nebraska prairie has and will remain a major source of economic prosperity for the state; and

WHEREAS, preservation of this state's native prairie is the preservation of limited resource of scientific, cultural and economic value; and

WHEREAS, understanding of the prairie as a natural resource will enhance Nebraska's appreciation for grasslands.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the week of September 19 through the 25 of 1982 be proclaimed as Nebraska Prairie Appreciation Week.

2. The Nebraska Legislature calls upon all citizens of Nebraska to reflect on and appreciate the richness and beauty that the prairie has provided our state.

Laid over.

ATTORNEY GENERAL'S OPINION

Opinion No. 231
March 30, 1982

Dear Senator Vickers:

You have submitted to us a proposed formula for state aid to political subdivisions under LB 816, and have asked our opinion as to its constitutionality. You have given us only the bare bones of the formula, but we see nothing constitutionally suspect about the basic idea.

The formula, as you have given it to us, is in six steps, which it is not necessary to repeat in full herein. Basically it would be a weighted per capita distribution of the fund to the counties, with the per capita distribution to each to be in direct proportion to its per capita property tax level. In other words, the higher a county's per capita property tax collections are, the greater its per capita share of the fund will be.

Our court has frequently held that it will not question the judgment of the Legislature, if a rational basis exists for the legislation. See State ex rel. Douglas v. Gradwohl, 194 Neb. 745, 235 N.W.2d 854 (1975). The basis purpose of all of the attempts to distribute state aid to the state's political subdivisions has been to shift some of the cost of local government from property taxes to the state, which, of course, raises most of its funds from sales and income taxes.

The manner of attaining this goal must be rational, as the court held in State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980). We believe that a straight per capita distribution would pass constitutional muster as having a rational basis, even though many might criticize it as not being the most fair method.

The formula you have submitted to us is an attempt to improve on a straight per capita distribution, by giving proportionately higher state aid to those counties which have higher per capita property taxes. Obviously, what is the most fair and logical method of distributing state aid is the subject of varying opinions, but if the method selected has a rational basis and appears to further some legitimate purpose, the state will not substitute its opinion for that of the Legislature. We believe that giving the most per capita state aid to those counties which have the highest per capita tax collections is not irrational, and would be upheld.

Your letter indicates that this formula would be used for distribution of the entire 82.6 million dollars proposed to be distributed by LB 816. We assume that your proposal would contain some formula for distributing the money to taxing subdivisions within the county, and would not go entirely to the county itself. Obviously, the method of distributing the county's share of the 82.6 million dollars would also have to be rationally based. We do not, of course, know what your proposal is in this regard.

Very truly yours
PAUL L. DOUGLAS

RESOLUTION

LEGISLATIVE RESOLUTION 279.

Introduced by Wesely, 26th District.

WHEREAS, water resource development and its funding is an important issue being considered by the Nebraska Legislature; and

WHEREAS, $11 million has been appropriated by the Legislature to the State Resources Development Fund which has funded 26 projects over the past 8 years, 15 of which have been completed; and

WHEREAS, the Nebraska Legislature has appropriated $3.5 million to the Water Conservation Fund which has funded 1394 individual conservation efforts since its first year of funding in 1978-79; and

WHEREAS, the federal government proposes to expend at least $368 million to construct the Norden Dam in Nebraska; and

WHEREAS, the Reagan Administration has proposed new federalism, a policy that will allow states to administer many programs presently administered by the federal government; and

WHEREAS, the Nebraska Legislature has supported local control especially for water resources management and development; and

WHEREAS, the $368 million in federal funds could be used to meet the water resources development needs of the entire state and to fund a number of beneficial projects in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature request the federal government to provide the $368 million designated for the O'Neill Unit/Norden Dam project to the State of Nebraska.
2. That the Legislature prepare an analysis of proposed water development projects in Nebraska and allocate the $368 million to the most cost effective and beneficial water development projects across the state. Dear Senator Wesely:

You have requested the opinion of this office regarding an amendment to LB 970 which relates to salary limitations for political subdivisions and vendors of services reimbursed by the Department of Public Welfare. You have posed several specific inquiries set forth below regarding the effect of the amendment if it is adopted.

> 1. Would the employees of the Lincoln Electric System be considered employees of the City of Lincoln for purposes of this amendment?

For our consideration, you have provided a copy of that portion of the Lincoln Municipal Code which relates to the Lincoln electric system, i.e., sections 2.55.010 through 2.55.100. Pursuant to said sections, the Lincoln city council has created the Lincoln electric system administrative board and has delegated to it, inter alia, the authority to fix the salaries and other employment benefits of all officers or employees of the Lincoln electric system. Sections 2.55.010 and 2.55.070(a), Lincoln Municipal Code; Neb.Rev.Stat. §15-309 (Reissue 1977). The budget of the Lincoln electric system is submitted by the administrative board to the city council for approval, subject to the veto power of the mayor. Section 2.55.010, Lincoln Municipal Code.

Section 3 of the amendment to LB 970 at issue provides in pertinent part:

> [T]he governing body of a city under home rule charter shall file with the Auditor of Public Accounts on or before September 1, 1982, a certified copy describing the general salary policy established by such governing body for its employees for such political subdivision's fiscal year 1982-83.

The authority over salary policies for employees of the Lincoln electric system resides with the city council, notwithstanding the fact that the council has chosen to delegate some of its authority to an administrative board. Thus in our opinion, the better response to your inquiry is that employees of Lincoln electric system are considered employees of the City of Lincoln for the purposes of this amendment, as partially quoted above.

> 2. If LES employees are considered city employees, would the restrictions on wage increases apply for fiscal year 1982, even though the fiscal year for LES began January 1, 1982?

As set forth in the above quoted portion of the amendment to LB970, the statement to be filed describes the salary policy for the political subdivision's fiscal year 1982-83. It is our understanding that the fiscal year for the City of Lincoln, the political subdivision in this instance, runs from September 1 to August 31. Lincoln Municipal Charter, Article IX, section 1. Thus, in our opinion, the statement of general salary policy to be filed by September 1, 1982, for all employees of the City of Lincoln, including employees of the Lincoln electric system, would encompass the period of time from September 1, 1982, to August 31, 1983.

> 3. Does this amendment limit all employees of a political subdivision from receiving a salary increase in excess of the state policy or is it satisfactory if the political subdivision's total salary increase is within the general salary policy provided for state government employees?

The amendment at issue requires a political subdivision, in order to receive appropriations from the General Fund, to file a statement describing a general salary policy for its employees which does not exceed the general salary policy established for state employees. Additionally, section 6 of the amendment provides in pertinent part as follows:

> If the auditor discovers that the stated policy is not being followed and that the employees of such political subdivision are receiving salaries which result in an actual salary policy which exceeds the general salary policy provided for state government employees . . . , he or she shall inform the Director of Administrative Services.

(Emphasis added.)

It is well established rule of statutory construction that effect must be given if possible to all of its several parts and no sentence, clause or word should be rejected as meaningless or superfluous. State ex rel. Douglas v. Herrington, 206 Neb. 516, 294 N.W.2d 330 (1980).

It is our interpretation of the above quoted language, giving effect to the emphasized portion thereof, that a subdivision would be in compliance with the provisions of the amendment unless the total salary increases actually granted its employees exceeded the general salary policy established for state employees.

> 4. If the Court of Industrial Relations orders a salary increase for the employees of a political subdivision in an amount which exceeds the general salary policy for state government employees, is this deemed to be the salary policy of the political subdivision which would preclude the political subdivision from being entitled to payments from the General Fund?

Pursuant to Neb.Rev.Stat. §48-815 (Supp. 1980), the Commission of Industrial Relations (C.I.R.) is authorized to establish or alter the scale of wages for employees of the state or any of its political or governmental subdivisions. In making such a determination, the operative criteria which must be considered by the Commission is comparability to prevalent wage rates paid for similar work by workers exhibiting similar skills under similar conditions. Local private employment situations can and should be considered by the C.I.R. to determine the prevalent wage, if the criteria of §48-818 is met. AFSCME local No. 2088 v. County of Douglas, 208 Neb. 511, 304 N.W.2d 368 (1981). Orders of the Commission are binding on the parties and are deemed to have the same force and effect as like orders entered by the district court. Neb.Rev.Stat. §48-891 (Supp. 1980).

Your inquiry discloses the existence of a potential conflict between the provisions of §48-818 and the amendment at issue. Based solely on the language of the amendment, an argument can be made that if a political subdivision fails, for any reason, to follow its stated salary policy and pays its employees wages resulting in an actual salary policy which exceeds the general salary policy for state employees, the political subdivision is in noncompliance and subject to a forfeiture of monies from the General Fund. We can only speculate regarding whether or not a court would reject this argument and refuse to penalize a political subdivision which was acting solely pursuant to a lawfully entered order of the C.I.R. At this state, it appears to us that this potential conflict can best be resolved by legislation.

Opinion No. 233
March 26, 1982

Dear Senator Warner:

You have requested the opinion of this office regarding the constitutionality of sections 3, 4, 5, and 6 of the amendment to LB 970, as contained in the Legislative Journal, pages 1178-1179, which relate to salary limitations for political subdivisions based on the salary policy established for state employees. In our opinion, the sole constitutional question raised by this legislation involves whether it complies with Article III, Section 14 of the Nebraska Constitution, which provides in pertinent part: "No bill shall contain more than one subject, and the same shall be clearly expressed in the title."

The Nebraska Supreme Court has held that: "Where a bill has but one general object, no matter how comprehensive that object may be, and contains no matters not germane thereto, and the title clearly expresses the subject of the bill, it does not violate Article III, section 14 of the Constitution." Peterson v. Hancock, 155 Neb. 801, 807, 54 N.W.2d 85 (1952).

LB 970 involves the general subject of health insurance for state employees. The title of LB 970 provides: ''FOR AN ACT to amend sections 44-1620 and 44-1620.01, Revised Statutes Supplement, 1981, relating to insurance for state employees; to increase the state contribution for health insurance; to provide an option for some retirees; to provide an operative date; to repeal the original sections; and to declare an emergency.''

It is well established that the constitutional provision at issue must be liberally construed. Our court has stated:

> ''. . . [T]his constitutional provision should be . . . construed, as to admit of the insertion in a legislative act of all provisions which, though not specifically expressed in the title, are comprehended within the objects and purposes of the act as expressed in its title; and to admit all provisions which are germane, and not foreign, to the purposes of the act as expressed in its title.''

Peterson, supra, at 807-808, quoting from Affholder v. State, 51 Neb. 91, 70 N.W. 544 (1897).

Notwithstanding the liberal construction afforded these provisions of Article III, Section 14, in our opinion, the amendment to LB 970 probably runs afoul of that constitutional requirement. In our opinion, the subject of salary limitations for employees of political subdivisions is unrelated and not germane to the object and purpose of LB 970 expressed in its title, i.e., insurance for state employees.

In recognition of the above described problem, you indicated in your correspondence that the amendment at issue would probably be offered to other legislation dealing with related subjects. In the event this is accomplished in a manner which complies with Article III, Section 14 of the Nebraska Constitution, in our opinion, the provisions of the amendment at issue would probably withstand constitutional challenge.

Very truly yours,
PAUL L. DOUGLAS

Opinion No. 234
March 30, 1982

Dear Senator V. Johnson:

This is in response to your letter of March 23, 1982, concerning LB 522A, a bill to appropriate the money necessary to fund LB 522 which, if passed and enacted into law, transfers to the Nebraska Department of Public Welfare all county welfare functions and fiscal responsibilities, effective July 1, 1983. You specifically asked for an opinion as to how many votes are necessary for the passage of 522A. Further, you asked for advice as to the efficacy of an appropriation bill that speaks to a fiscal year one year beyond the ensuing fiscal year.

LB 522A is to appropriate money necessary to fund LB 522, effective July 1, 1983. Article III, Section 22 of the Constitution of Nebraska was amended in 1972 to provide that each Legislature shall make appropriations for the expenses of government and when necessary make further appropriations for deficiencies. Prior to then, Article III, Section 22 stated that the Legislature shall make appropriations for the expenses of government until the expiration of the first fiscal quarter after adjournment of the next regular session. A review of LB 139, Laws of Nebraska, 82nd Legislature, First Session, 1971, which amended Article III, Section 22 shows that the purpose of the amendment was to eliminate the requirement of appropriating into the first quarter of the next session. This amendment was a logical response to the 1970 amendment of Article III, Section 6 which provided for annual sessions of the Legislature. By convening each January in the approximate middle of the fiscal year the Legislature would be in a position to make appropriations for the expenses of government and appropriations for deficiencies. Therefore, it is our opinion that LB 522A would be non-binding and thus premature.

Obviously the reason that none of the budget bills submitted by the Governor to the 1982 Legislature appropriate dollars for the 1983-84 fiscal year is an intent to conform with Article III, Section 22 cited above. The Governor has submitted a budget for a period of appropriation which would be binding on the Legislature. He has not submitted a budget for fiscal 1983-84 which follows the effective date of LB 522.

In Mekota v. State Board of Equalization and Assessment, 146 Neb. 370 the Supreme Court of Nebraska held that a bill containing an appropriation not included in the Governor's budget could be enacted without a three-fifths vote. The Court referred to Article IV, Section 7 which states: "No appropriations shall be made in excess of the recommendation contained in the budget * * *," and noted that the plural "appropriations" is used. The Court further stated that this would imply a limitation upon increase of amounts named in the budget and required to be therein and not to matters which could not be contemplated or anticipated. The court added that the language would also imply an intention that the limitation was to attach to named subjects of appropriations and not to appropriations generally. We therefore conclude that a three-fifths vote on LB 522A would not be required, but that its passage would not be binding.

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

MESSAGE FROM THE GOVERNOR

April 1, 1982

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 626 without my signature and with my objections.

As previously announced, I am vetoing LB 626, the multi-bank holding company bill.

In these times of excessively high interest rates and rollercoaster financial conditions it appears to me that this bill would permit the concentration of economic power in the hands of a few at the expense of our local communities.

Now I repeat the advice offered nearly one year ago and repeated at the first of this session: the banking community of this state must make more effort to reach some degree of consensus regarding the structure of the financial community and devote ever greater attention to the larger problems facing both the lenders and borrowers of Nebraska.

Sincerely,
(Signed) CHARLES THONE
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 235
April 1, 1982

Dear Senator DeCamp:

You have submitted to us a revised amendment to LB 816, in an attempt to answer some of the questions we raised in our Opinion No.

230 about the interpretation of your previous proposed amendment. You ask for an immediate response as to whether this meets constitutional requirements of clarity which precludes our giving it the careful study we might like.

Your amendment would make Sections 1 to 5 and 11 of the bill operative only if the Nebraska Supreme Court rules that Neb.Rev.Stat. §§77-3611 to 77-3615 are unconstitutional. Sections 3, 4, and 5 of the bill amend Neb.Rev.Stat. §§77-27,136, 77-27,137, and 77-27,137.01 (Supp. 1980), respectively, and Section 11 repeals the original sections. Under your amendment it is not just the distribution of funds pursuant to Sections 1 to 5 of the bill that would be held in abeyance, but the enactment of the new sections (Sections 1 and 2) and the amendment of existing sections of the statutes. Therefore, the original sections would continue in force until the action of the Supreme Court holding Neb.,Rev.Stat. §§77-3611 to 77-3615 unconstitutional, and the old sections would be amended, and Sections 1 and 2 of LB 816 would become operative on the date of the finality of the Supreme Court's opinion.

Making the enactment of new sections, and the amendment of old sections, of the statutes contingent upon some event, such as a decision of a court, is certainly a very unusual procedure, if not unprecedented. It is a change from the proposal we considered in our Opinion No. 230, which dealt only with distributions under Sections 1 to 5 of the bill. While we have had no opportunity to research the matter, and, in any event, are unlikely to find any clear precedent, we have serious doubts as to the propriety of such a provision.

Making the operation or application of a statute contingent upon a future ascertainable event, could, in our opinion, be sustained, as we indicated in our Opinion No. 230. Making the enactment of the statute, or the amendment of old sections of the statutes, contingent upon a future event is another matter. While we cannot, in the time frame you have specified for an answer to your letter, reach any definite conclusion about such a provision, we are not prepared at this time to undertake to defend it. This may be one step too far for the court, which may hold this amendment to be an unconstitutional delegation of legislative powers.

Your amendment would make the operative date of Sections 1 to 5 and 11 of the bill "the date the Clerk of the Supreme Court certifies that the Nebraska Supreme Court's decision has become final." There is no such date. The Clerk of the Supreme Court does not certify as to the finality of the court's decisions. The normal practice of the clerk is to issue the mandate the day after the expiration of the time for filing a motion for rehearing. Even after that, however, the rules provide that the mandate can be recalled up to the time the district court takes action on the mandate. While recalling the mandate would be unusual, we suppose that, as a theoretical proposition, the decision would not be absolutely final until the district court had entered an order based on the mandate. You should clarify what date you intend to use, because the date of certification of finality by the clerk is not satisfactory.

Your amendment would delay, and make contingent, the operative dates of only Sections 1 to 5 and 11 of the bill. However, Section 12 of the bill, under your amendment, would repeal Neb.Rev.Stat. §§77-3612 and 77-3613 outright on the effective date of the bill. Yet, if Neb.Rev.Stat. §§77-3611 to 77-3613 are held constitutional, you propose to distribute money pursuant to these repealed sections. There appears to be some confusion here, which should be cleared up.

Your new amendments have answered some of the questions we raised in our former opinion. It makes clear that, if the court holds them constitutional, $82,600,000, instead of $70,000,000, would be distributed under Neb.Rev.Stat. §§77-3611 to 77-3615, which was previously uncertain. It also provides that no distribution would be made under either formula until the Supreme Court rules, which clears up other uncertainties we pointed out.

As we said in the last paragraph of Opinion No. 230, there may be other areas of uncertainty which we have not detected, which may come up when the bill, as you propose to amend it, is implemented. This is a complex arrangement, and we are not certain we have considered all of its ramifications. Before reaching a final conclusion on the question, we would want to sit down with the officials charged with implementing the bill, and make sure there were no unanswered questions. We have not had time to do so.

We seriously question the propriety of making the amendment of sections of the statutes, and the enactment of new statutes, contingent upon the decision of the court. The date for determining the finality of the court's decision is not sufficiently specific. The repeal of Neb.Rev.Stat. §§77-3612 and 77-3613 by Section 12 of the bill seems to destroy the whole scheme of your amendment.

Very truly yours,
PAUL L. DOUGLAS

Re: LB 127

Dear Senator Sieck:

This is in response to your letter concerning our Opinion No. 225 dated March 23, 1982, regarding LB 127.

We are in agreement with the statement in your letter that "[i]t is the intent of this bill that no General Funds be used to operate the State Survey Record Repository in any way." That was the import of our Opinion No. 225.

If there is volunteer labor to implement LB 127, as you suggest, that should go a long way toward getting the program started.

We cannot, of course, say at this time whether or not there will be funds from other appropriations which will be available for this program, since the appropriations for next year have not yet been finalized. However, with the shortage of funds and the intense debate over them which is the order of the day, we would expect to see close scrutiny over the use of all funds to insure that they are not diverted from the specific purpose for which appropriated.

If you have any further questions, please contact us.

Very truly yours,

Opinion No. 237
April 1, 1982

Dear Senator Warner:

This is in reply to your inquiry concerning the constitutionality of LB 893. In your letter you refer to four cases decided by the Supreme Court of Nebraska regarding laws similar to LB 893 which were not included in our opinion of March 12, 1982.

We are familiar with the cases you have referred to, and many others, which stand for the same proposition as set forth in the Lincoln Dairy case referred to in our previous opinion. In fact in cases where attempts to fix prices have been before our Supreme Court since the Lincoln Dairy case was decided that case has been cited by the court as authority for the propositions that the Legislature may not delegate its powers to an administrative agency nor indulge in arbitrary price fixing or destruction of lawful competition.

In our opinion the decisions which you referred to do not make the constitutionality of LB 893 any less suspect.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 240
April 2, 1982

Dear Senator Chambers:

This is in response to your letter of March 22, 1982, inquiring as to the necessity of the Legislature reaffirming its continuing assent to various federal laws relative to highways.

In your letter, you refer to Neb.Rev.Stat. §§39-1304, 39-1304.01 and 39-1304.03 (Reissue 1978). Section 39-1304 makes reference to "Section 1 of the Act of Congress approved July, 1916, Public Law 156". Section 1 of this Act of Congress provided in part:

> That the Secretary of Agriculture is authorized to cooperate with the states, through their respective State Highway Departments, in the construction of Rural Post Roads, but no money apportioned under this Act to any state shall be expended therein until its legislature shall have assented to the provisions of this Act, except that, until the final adjournment of the first regular session of the legislature held after the passage of this Act, the assent of the Governor of the state shall be sufficient. . . .

In 1917, the Legislature complied with the assent required by the foregoing Federal Highway Act of 1916. Laws of Nebraska 1917, Chapter 185 (House Roll No. 722), page 420, in section 1 provided:

> Assent is hereby given to the provisions of an Act of Congress entitled "An act to provide that the United States shall aid the states in the construction of rural post roads and for other purposes" approved July 11, 1916, and the good faith of the state is hereby pledged to provide funds sufficient to carry out the provisions of said Act.

This provision appears in the Compiled Statutes of Nebraska, 1929. However, it does not appear in the Compiled Statutes of Nebraska, 1922, nor the Revised Statutes of Nebraska, 1943. The next time any Legislative assent was given to the Federal Highway Act of 1916, or to any other Federal Highway Acts or law, was in 1955 and is that provided in Neb.Rev.Stat. §39-1304 (Reissue 1978). In 1957 and 1961, the legislature reaffirmed its continuing assent to the federal acts set forth in section 39-1304. These appear as sections 39-1304.01 and 39-1304.03 (Reissue 1978).

As can be seen, the Legislature's assent to the Federal Highway Act of 1916 and subsequent amendments has been sporadic. Amendments, prior to 1958, to the Federal Highway Act of 1916 made no additional provisions for Legislative assent by the states.

The Act of Congress approved August 27, 1958, Public Law 85-767 provided that the laws relating to highways are revised, codified and reenacted as Title 23, United States Code, "Highways". Section 2 of Public Law 85-767, August 27, 1958, repealed the Federal Highway Act of 1916. There was no provision in Public Law 85-767 requiring Legislative assent to Federal Highway Acts, nor have any appeared in Title 23 to the present time.

In conclusion, we are of the opinion that there is not, and has not been, any Federal Highway Act requiring the assent of State legislatures to Federal Highway Acts subsequent to August 27, 1958.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 241

April 2, 1982

Dear Senator Beutler:

For the purpose of determining whether legislative action is required, you ask whether political subdivisions, particularly technical community colleges, are authorized to purchase "retail repurchase certificates" offered by Mutual Federal Savings and Loan Associations. We conclude that they are not.

As you explain "retail repurchase certificates," they are instruments issued pursuant to 12 U.S.C. §1464(b)(2), which provides:

> To such extent as the Board may authorize by regulation or advice in writing, an association may borrow, may give security, may be surety as defined by the Board and may issue such notes, bonds, debentures, or other obligations, or other securities (except capital stock) as the Board may so authorize.

You quote some regulations of the board apparently implementing this statutory provision. As we understand it, the retail repurchase certificates involve a borrowing by the association from the holder of the certificate. The certificates are not insured by the Federal Savings and Loan Insurance Corporation, but are secured. The holder does not become a member of the association.

We immediately confront the question of a violation of Article XIII, Section 3 of the constitution, which provides in part: "The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, except that the state may guarantee or make long-term, low-interest loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state."

Article XV, Section 17 provides that, notwithstanding Article XIII, Section 3, or any other provision of the constitution, the Legislature may provide for the investment of any state funds in such investments as it may by statute provide. That section also provides that the Legislature may authorize the governing body of political subdivisions to invest the retirement and pension funds of such political subdivisions in such investments as the governing bodies may determine, but subject to statutory limitations. The prohibition of Article XIII, Section 3 was held to apply to political subdivisions as well as to the state in State ex rel. Beck v. City of York, 164 Neb. 223, 82 N.W.2d 269 (1957). Therefore, except as to retirement and pension funds, the Legislature could not authorize political subdivisions to lend their credit in aid of any association, including a savings and loan association. Lending the association money, as would be involved in the certificates in question, would, in our opinion, constitute the lending of credit, in violation of Article XIII, Section 3.

We also question the statutory authority of political subdivisions to make this sort of investment. It is true that Neb.Rev.Stat. §77-2341 (Reissue 1976) provides that political subdivisions may invest surplus funds in "any securities in which the Board of Educational Lands and Funds is authorized by law to invest the educational funds of the state." It is also true that Neb.Rev.Stat. §72-202 (Reissue 1976) requires the funds of the Board of Educational Lands and Funds to be invested by the State Investment Officer pursuant to §§72-1237 to 72-1259, and that Neb.Rev.Stat. §72-1246 (Supp. 1981) authorizes the State Investment Officer to "invest in investments of the nature which individuals of prudence, discretion, and intelligence acquire or retain in dealing with the property of another." The argument of the savings and loan industry has been that this gives similar authority to political subdivisions of the state. We reject that argument. The issue is too complex to be fully discussed herein, but basically our position is that when §72-2341 was adopted, authorizing the political subdivisions to invest in securities authorized to the Board of Educational Lands and Funds, it incorporated by reference the statutory provisions dealing with the investment authority of that board. Those provisions became a part of §72-2341 just as though they had been set forth verbatim in that section.

Section 77-2341 was last amended in 1961. Therefore, to determine what investments it authorized, we must look to the statutory investment authority of the Board of Educational Lands and Funds in 1961. Suffice it to say that it did not include any such investments as we are talking about, and, indeed, could not have included such authority before the adoption of Article XV, Section 17 of the constitution in 1966.

The subsequent amendment of sections of the statutes changing the investment powers of the Board of Educational Lands and Funds did not operate to amend §77-2341, which had incorporated statutory provisions as they then existed. See Shull v. Barton, 58 Neb. 741, 79 N.W. 732; Knoefler Honey Farms v. County of Sherman, 193 Neb. 95, 225 N.W.2d 855 (1975); Estate of Tethrow v. State, 193 Neb. 150, 226 N.W. 2d 116 (1975); and Hanson v. City of Omaha, 157 Neb. 768, 61 N.W.2d 556 (1953). We are reinforced in this position by the fact that if the Legislature were to specifically give political subdivisions the broad investment powers indicated in §72-1246 it would clearly be unconstitutional, in authorizing investments in stocks of corporations, in violation of Article XI, Section 1 of the constitution. See Nebraska League of Savings and Loan Associations v. Mathes, 201 Neb. 122, 266 N.W. 2d 720 (1978).

The picture, so far as statutory authorization is concerned, is somewhat different with respect to technical community colleges. Neb.Rev.Stat. §79-2644(15) (Supp. 1980) authorizes the boards of technical community colleges to invest funds of the colleges in those types of securities set forth in subdivisions (1) to (10) of §72-1246. This provision makes it perfectly clear that the designated provisions of §72-1246, as they existed at the time of the adoption of that language in §79-2644, were incorporated by reference in the latter section, and that later amendments were not incorporated, since there are now no subdivisions (1) to (10) of §72-1246. This is entirely consistent with our previous discussion on incorporation by reference.

We have examined Neb.Rev.Stat. §72-1246 (Reissue 1976), and believe that none of the first ten subdivisions of that section would authorize the investment in question. There may be some question about subdivision 10, which authorizes investments in interest-bearing obligations of corporations having a rating of AAA, AA, or A, but we believe that no savings and loan associations in this state have such ratings.

We note, incidently, that subdivision 9 would authorize investments in accounts with savings and loan associations. So far as political subdivisons, including technical community colleges, are concerned, this would be in violation of the constitution, as held in Nebraska League of Savings and Loan Associations v. Mathes, supra.

It is therefore our conclusion that the investments you inquire about are forbidden to political subdivisions, including technical community colleges, by Article XIII, Section 3 of the constitution, and we also believe that they lack statutory authority to make such investments, in any event.

Very truly yours,
PAUL L. DOUGLAS

RESOLUTIONS

LEGISLATIVE RESOLUTION 296.

Introduced by Wiitala, 31st District, DeCamp, 40th District.

WHEREAS, in certain cases the State of Nebraska exercises guardianship over children through the Department of Welfare; and

WHEREAS, certain unethical actions in the exercise of that guardianship have been alleged; and

WHEREAS, the Department has admitted mishandling at least one case; and

WHEREAS, the Department has been dilatory in sharing documentation of incidents;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND REGULAR SESSION:

That an interim study be initiated to investigate the policies, procedures and administrative practices of the Department of Welfare in its actions as guardian of children and assessor of adoptive or foster homes, and that such study attempt to identify areas which require legislative action to improve current practices, with special attention to inappropriate treatment of children, foster parents, and adoptive parents.

Further, be it resolved that the Legislature's Public Health and Welfare Committee submit its findings, including any recommended legislation to the Legislature as a whole.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 297.

Introduced by Labedz, 5th District.

Purpose:

Our western culture with its Judeo-Christian heritage has long prided itself on being respectful of human life. Yet, there are today in our society disturbing, almost-Orwellian trends which are undermining this respect for human life. One of these trends is that "wrongful life" and "wrongful birth" actions have been brought around the country by persons or on behalf of persons asserting that such persons should not have been born. Since a legal system reflects a country's fundamental values, and since our culture has always prided itself on its respect for human life, this study should ask whether such causes of action are compatible with our cultural traditions and whether they should be made void as a matter of public policy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature be designated to conduct an interim study to carry out the purposes of the resolution.
2. That the committee shall upon conclusion of its study, make a report of its findings, together with its recommendations to the Legislative Council or the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 298.

Introduced by Kremer, 34th District.

WHEREAS, Speaker Richard D. Marvel, our friend and colleague, is currently in the process of restoring his health and vitality; and

WHEREAS, Speaker Marvel is a valued leader of this Legislature whose patience and tolerance as presiding officer have been greatly appreciated; and

WHEREAS, Speaker Marvel's health and well-being are this body's most pressing concern; and

WHEREAS, Speaker Marvel's experience, statesmanship, and ability are needed by this body in the important years ahead;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

That we convey to Speaker Marvel our most sincere wish for his speedy recuperation and return to this Legislature.

Laid over.

LEGISLATIVE RESOLUTION 305.

Introduced by Fowler, 27th District.

PURPOSE:

The purpose of this resolution is to study the adequacy and constitutional provisions of the current Dental Practice Act, especially those sections dealing with "other dental auxiliaries" and in particular sections 71-183.01, 71-193.13, and 71-193.14; in addition revised Statutes of Nebraska 1943, and sections 71-116 and 71-122.01; and revised Statutes Supplement, 1981.

Dental assistants in Nebraska, numbering approximately 2,000, are defined as "other dental auxiliaries." There is no statutory definition or minimum competency level established for dental assistants within this group of "other dental auxiliaries" who perform intraoral and clinical duties. This does not adequately assure the safety and well-being of the public.

No dental assistant member serves on the Board of Examiners in Dentistry, although the Board designates which duties can or cannot be performed by "other dental auxiliaries."

Without a definition and clearly designated set of delegable duties, dental assistants may be illegally practicing dentistry in the State of Nebraska. The Act and its licensing structure may require a total redrafting to include registration of dental assistants and to include a dental assistant member as a non-voting consultant to the Board of Examiners in Dentistry. A provision for a set fee, provisions for revocation or suspension of registrations, and the collection of a specified fee also need to be established.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the assigned committee be instructed to begin work immediately so as to be able, if at all possible, to report to the 1983 Legislature its findings, together with its recommendations.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 306.

Introduced by Fowler, 27th District.

PURPOSE:

To review and clarify the intent of LB 567, passed during the 1975 session of the Legislature.

There is some confusion as to the application of good time credits to parole violators whose parole has been revoked. Parole revocation under section 83-1,123 R.R.S. of Nebraska 1943 has been interpreted by the Nebraska Supreme Court as resulting in essentially a new prison term with all previous credit for good time automatically revoked. The Attorney General maintains that no provisions exist for the granting of good time for a parole violator serving this new term.

The intent of this study is to review the rationale for LB 567, to determine if the intent of the bill was that parole violators whose parole is revoked should be eligible to accrue good time during the "new" prison term, and to develop amendatory legislation if necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of the resolution.

2. That the committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 307.

Introduced by Fowler, 27th District.

WHEREAS, the health and safety of Nebraska citizens is of major concern to the Legislature; and

WHEREAS, the Nebraska Public Power District has submitted a plan to the Nuclear Regulatory Commission for the transportation of highly radioactive spent nuclear fuel from the Cooper Nuclear Station in Brownville, Nebraska to a site in Illinois; and

WHEREAS, the planned route for shipping this highly radioactive waste involves a significant portion of eastern Nebraska, including several communities; and

WHEREAS, the need for transferring this nuclear waste from Cooper Nuclear Station has not been clearly demonstrated; and

WHEREAS, the safety and welfare of Nebraskans along the proposed route would be seriously endangered in the event of an accident during the transportation of this waste; and

WHEREAS, the State of Nebraska and communities along the proposed route are not adequately prepared to deal with the consequences of an accident during transportation;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee conduct an interim study concerning the issue of nuclear waste transportation from the Cooper Nuclear Station.

2. That the Committee be instructed to report its findings to the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 308.

Introduced by Fowler, 27th District.

PURPOSE:

To study and recommend changes in the procedure for estimating General Fund revenues for the State of Nebraska.

The Legislative and Executive branches of Nebraska State government currently rely on revenue projections made by the State Tax Commissioner in preparing the state budget and setting sales and income tax rates. No other official source of revenue estimates is available.

In recent months, questions have been raised about the accuracy of these projections, the means by which the final projections are derived, and whether they in fact represent the professional opinion of Revenue Department staff.

The intent of this study is to review the manner in which revenue projections are developed and to recommend possible alternatives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature be designated to conduct an interim study to carry out the purpose of this resolution.

2. That the committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 309.

Introduced by Fowler, 27th District.

WHEREAS, Nebraska's economy is dependent on the success of agriculture; and

WHEREAS, the conservation of soil is vital to the continued success of agriculture in Nebraska; and

WHEREAS, 1.25 tons of soil per acre were eroded in Nebraska by wind in 1977 alone; and

WHEREAS, the Great Plains Conservation Program was established in 1956 to stabilize the nation's agricultural economy in a 10 state region through soil conservation methods; and

WHEREAS, its been estimated that 221 million tons of soil per year have been saved from erosion by the Great Plains Conservation Program; and

WHEREAS, the federal government estimates that each dollar invested in the Great Plains Conservation Program results in nearly $4 of increased agricultural income; and

WHEREAS, President Reagan has proposed reducing the Great Plains Conservation Program funding by 30 percent; and

WHEREAS, the farmers of today are faced with the lowest real farm income since the depression and are unable to invest their income in conservation programs; and

WHEREAS, a reduction in conservation funding will be devastating to the progress that has been made by the Great Plains Conservation Program during the last 26 years.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature urges President Reagan to reconsider his cuts to the Great Plains Conservation Program and urges Congress to reaffirm its commitment to a stable and prosperous agricultural economy.
2. That the Clerk of the Legislature transmit copies of this resolution to the President of the United States and to each member of the Nebraska congressional delegation.

Laid over.

RESOLUTIONS

LEGISLATIVE RESOLUTION 318.

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairperson; Haberman, 44th District; Schmit, 23rd District; Labedz, 5th District; Duda, 14th District; Remmers, 1st District; Landis, 46th District.

PURPOSE:

In the State of Nebraska, national inflation and the high cost of money have greatly affected the state's financial markets, including, but not limited to: certificates of deposit, cetificates of indebtedness, mortgage notes, other notes payable, bonds, trusts, money market funds and securities. National economic conditions have resulted, at times, in the further eroding of Nebraska's financial and commercial enterprises.

The Legislature should study the following subjects in light of the above-stated economic background: the flow of major money sources in and out of this state; the effect of such major money flow on this state's agricultural, financial, and business economic sectors; the alleged increases in net incomes of certain financial institutions; the ownership structure between and among various financial institutions in this state; interest rates; short term certificates of deposit and indebtedness; trusts; money market funds; the oversight, regulation, and effectiveness of enforcement of sales of securities and commercial paper by the Department of Banking and Finance; the extension of credit; creditor-debtor relationships; and any other issue or issues determined by Committee members to be in need of addressing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 319.

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairperson; Haberman, 44th District; Schmit, 23rd District; Labedz, 5th District; Duda, 14th District; Remmers, 1st District; Landis, 46th District.

PURPOSE:

Legislative oversight should continually be exercised to review the state of commerce and industry in Nebraska, and the inward and outward flow of goods, resources and services through Nebraska's economy. If the Legislature is committed to minimal but effective regulation of a free market system, it should be cognizant of economic policy decisions made at the state and federal levels of government and determine: (1) whether current Nebraska laws and regulations adopted pursuant to such laws are inadequate or mis-directed and need revision and amendment; (2) whether current Nebraska laws are too restrictive and, thus, impede the natural operation of the free market system; (3) whether current Nebraska laws are adequate, but enforcement or enactment of the policies behind such laws are inadequate; and (4) whether regulations adopted pursuant to commerce and finance laws are adequate or inadequate. Remedial legislation should be proposed, if indeed, statutory inadequacies are found.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 320.

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairperson; Labedz, 5th District; Haberman, 44th District; Schmit, 23rd District; Duda, 14th District; Remmers, 1st District; Landis, 46th District.

PURPOSE:

The regulation of the insurance industry has traditionally been conducted by the state governments rather than the federal government. Therefore, it is a necessary and proper duty of the Legislature to exercise its power of legislative oversight by reviewing and determining the adequacy of this state's insurance laws and regulations. There are indications that in certain areas, state law and regulations are at times ineffective, outdated, partly or wholly inadequate, not effectively enforced, not addressing consumer issues, or in general need of reform.

In particular, a legislative interim study committee should examine this state's insurance investment code, surplus lines code, agency licensing code, and the relationship of liability insurance with the Nebraska Motor Vehicle Safety Responsibility Act. Furthermore, the committee should review company marketing practices, agents practices, cost containment, claims adjusting, return of premium dollars and return of investment, complaint procedures and general enforcement provisions, all involving life, health and accident, liability, fire, home, credit and other insurable risks available in the State of Nebraska.

In reviewing and investigating any of the above-mentioned issues or any other issues involving insurance should deem necessary for study, particular attention should be given to both industry and consumer cost-benefits and the state's role in regulating insurers doing business in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 324.

PURPOSE:

To study the feasibility of requiring criminal offenders to pay for the expense of their incarceration. The study should include the possibility of civil actions being instituted by the proper authorities to recover from these offenders the expenses incurred by their confinement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Introduced by Banking, Commerce and Insurance Committee: DeCamp, 40th District, Chairperson; Haberman, 44th District; Schmit, 23rd District; Labedz, 5th District; Duda, 14th District.

PURPOSE:

LR 218, introduced on February 5, 1982, by Senator Howard Peterson and Senator Elroy Hefner, was referred to the Banking, Commerce and Insurance Committee for a public hearing. The public hearing was held on February 22, 1982. At the public hearing, the co-introducers and committee members agreed that the issue should be reserved for interim study.

This resolution would allow the issues raised in LR 218 to be publicly addressed by means of an interim study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 326.

Introduced by Clark, 47th District.

WHEREAS, there are 87 Minuteman III missile silos presently located in the Nebraska Panhandle counties of Kimball, Cheyenne, and Banner, and

WHEREAS, Nebraska is under consideration by the United States Air Force as both a permanent and as an interim sitting area for the MX, and

WHEREAS, the "deceptive basing moade" would require additional construction of as many as 14 decoy silos around each existing Minuteman silo which is converted to an MX silo, and

WHEREAS, there has been no impact assessment released by the Air Force which addresses the economic, sociological, and environmental consequences of either interim or permanent basing of the MX in Nebraska, and

WHEREAS, there is likely to be profound disruption of our agricultural industry, our local business economy, the aquifer, our rural communities, and our way of life, and

WHEREAS, the recent studies of the Platte River and Missouri River basins suggest that there are inadequate water supplies to meet present competing demands and that increased demands anywhere throughout the drainage could disrupt water supply statewide as well as regionwide, and

WHEREAS, there is likely to be a substantial environmental impact, and

WHEREAS, there is considerable controversy surrounding the merits of the proposed siting plans and the failure of the Air Force to adequately and accurately inform the citizens of the state and the region as to the nature and impact of its plans, and

WHEREAS, the State of Nebraska has the responsibility for ensuring the public safety, health, and welfare of all its citizens;

THEREFORE, BE IT RESOLVED THAT THE 87TH LEGISLATURE, SECOND SESSION,

1. demand immediate disclosure to the citizens of Nebraska of the Air Force plans for MX deployment, both permanent as well as interim, in Nebraska, Wyoming, and Colorado;
2. investigate the Air Force contingency plans to provide adequate security personnel capable of ensuring the safety and health and livelihood of citizens of the proposed deployment area;
3. conduct studies, of both the permanent and interim siting plans, of the:
    a) economic impact of MX siting in the Panhandle upon the local business and agricultural industries, including tax implications;
    b) sociological impact of MX siting in the Panhandle upon our rural communities;
    c) economic impact of MX siting in the Panhandle upon the local property taxpayers who would be required to provide for and generally support the deployment infrastructure by

providing schools, roads, roadway expansion and improvement, health care, sewers, police and other social services; and

d) environmental impact upon our water, land, energy, mineral and wildlife resources.

4. conduct public hearings throughout the entire state, preferably with the cooperation of Air Force personnel as participants, to enable all our citizens to express their opinions, both in support and in opposition, and to generally educate themselves respecting the issues surrounding MX Deployment;

5. order a Study Committee to issue a full report, complete with recommendations for suggested legislation, to the Unicameral regarding the information gathered and the measures necessary to ensure the continued health, safety and general welfare, including security of property interests, of the citizens of Nebraska.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 327.

Introduced by Hoagland, 6th District.

PURPOSE:

The purpose of this study is to examine the effectiveness of drunk driving legislation passed by the Legislature this session. Specifically, this study shall include an examination of whether:

1. The legislation passed has had any deterrent effect in reducing the number of alcohol related traffic accidents;

2. The mandatory sentence provisions and the mandatory suspension or revocation of the motor vehicle operator's license provisions found in other states, particularly California and Maine, have been a deterrent to alcohol related traffic accidents, and if so, which elements of such legislation have been the most effective in deterring such accidents.

3. Nebraska would benefit from adopting drunk driving legislation similar to such legislation found in Iowa, and if so, which elements of the Iowa legislation would be the most effective in deterring alcohol related traffic accidents in our state.

4. The legislation passed perpetuates the discrepancy between the formal provisions of the law providing for swift, severe, and certain punishment and the actual likelihood of apprehension and conviction;

5. Any statutory changes are necessary to increase the effectiveness of Nebraska's drunk driving legislation and to insure the health and safety of Nebraska citizens.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 328.

Introduced by Hoagland, 6th District.

PURPOSE:

The purpose of this resolution is to study the findings and recommendations of the studies completed to date in the State Water Planning and Review Process, including the Water Quality study, Instream Flows study, Groundwater Reservoir Management study, and Selected Water Rights Issues study, and to draft appropriate legislation incorporating the most appropriate of the recommendations from these studies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Committee on Public Works of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee on Public Works shall, as a part of this study, conduct hearings on the studies in Omaha, Lincoln, and two appropriate locations in greater Nebraska.

3. That the Committee on Public Works draft for introduction in the Eighty-eighth Legislature, First Session, appropriate legislation implementing the most appropriate elements of the recommendations.

4. That the Committee on Public Works shall complete its study on or before December 31, 1982, and make a report of its findings together with its recommendations and proposed legislation to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 329.

Introduced by Beyer, 3rd District; R. Peterson, 21st District.

Purpose: To study the management, supervision and utilization of personnel and vehicles of the Department of Roads and the operation of the Transportation Service Bureau in its purchase of fuel and utilization of vehicles.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That the Transportation Advisory Committee of the Legislature be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Committee shall upon the conclusion of its study, make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 330.

Introduced by Nichol, 48th District.

PURPOSE:

The discovery and development of Nebraska's geothermal resources would be advantageous to the struggle of balancing the state's energy budget. Recent study has shown the potential for development of these resources in at least the western third of the state.

The development of this energy source as an integrated part of our energy supply will rely on the correct state resource to such questions as: Who owns the resource? Will its development conflict with current water or mineral rights? Is development cost effective? What type of permit system should be required prior to development?

It is essential that we begin to investigate the answers to these questions, if we are to develop this indigenous resource for the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Works Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or the Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 331.

Introduced by Beyer, 3rd District.

WHEREAS, America's lifeline is its transportation system, allowing the unfettered movement of persons and property; and

WHEREAS, the quality of transportation services available in the United States from highways, rail, air and water is unequalled elsewhere; and

WHEREAS, May 16-22 is "National Transportation Week", an annual observance marking the role transportation plays in the lives of Americans; and

WHEREAS, Governor Thone has proclaimed the week of May 16 as "Transportation Week",

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

That the Legislature encourage all Nebraskans to honor the transportation industry by observing "Transportation Week" from May 16 through May 22, 1982.

Laid over.

LEGISLATIVE RESOLUTION 332.

Introduced by Sieck, 24th District; Hefner, 19th District

PURPOSE:

During the Second Session of the Eighty-Seventh Legislature, several appropriations questions arose regarding the funding of regional community based mental retardation services and of private and non-regional community services. The questions were made more difficult as a result of the complex special funding formula currently in place to move persons either from the institution or off of community waiting lists. In addition we have an attorney general's opinion of December 20, 1979 which raises further questions about the legal issues involved in the distribution of state funds to non-regional providers. Finally, we have the Department of Public Institutions providing state funding to both regional and non-regional providers in the same communities which appears to result in waste of state funds since both programs must maintain costly administrative services in the same community. Thus, the purpose of this study is to examine the issues stated above.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Introduced by Schmit, 23rd District; Kremer, 34th District.

PURPOSE: The purpose of this resolution is to study alternatives for funding water projects, both large- and small-scale, in the State of Nebraska. Current funding mechanisms should be reviewed and their continued viability evaluated, particularly where federal funds have constituted a substantial portion of such programs. Current and proposed funding mechanisms in surrounding states should be reviewed to provide ideas for funding in Nebraka and to determine what effect, if any, the programs of surrounding states may have on water supplies in Nebraska. Specific needs of this state in terms of public water supplies, treatment facilities, and multi-purpose storage, irrigation, hydropower, and recreation capabilities should be documented. Various means of financing such projects should be analyzed, with emphasis on a stable and sizeable fund allowing the State of Nebraska to construct projects which will enable it to maximize the efficient and economic use of water. The means of developing such projects and allocating the funds to construct and maintain them should also be investigated, an administrative structure proposed, and legislation prepared to carry out the conclusions of this study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

EXPLANATION OF VOTE

In adopting the Cullan amendment to LB 753 (found on page 1493 of the Journal) it was not the intent of the introducer or of the Legislature to eliminate the cigarette tax increase. The sole intent was to earmark funds for a specific purpose.

RESOLUTIONS

LEGISLATIVE RESOLUTION 336.

Introduced by Public Health and Welfare Committee: Cullan, 49th District, Chairperson; Higgins, 9th District; Barrett, 39th District; Wesely, 26th District; Fenger, 45th District; Apking, 32nd District; R. Peterson, 21st District.

PURPOSE:

Several bills were considered by the Public Health and Welfare Committee during the 1982 Session of the Legislature regarding the regulation of various health care professions and occupations. These include dentists, dental hygienists, dental assistants, psychologists, pharmacists, chiropractors, and nurses. This study would examine all elements of the regulations of these professions and occupations. The study would also examine general concepts of regulation of all health care professions and occupations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Health and Welfare Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Public Health and Welfare Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 337.

Introduced by Public Health and Welfare Committee: Cullan, 49th District, Chairperson; Higgins, 9th District; Barrett, 39th District; Wesely, 26th District; Fenger, 45th District; Apking, 32nd District; R. Peterson, 21st District.

PURPOSE:

To undertake a study of the costs and benefits of medical and hospital care in Nebraska, the study shall include:

1. The advancements in medical science that have improved the quality of life and the cost impact of these advancements;
2. The impact on medical costs of the expansion of medical benefits by the federal, state, and third party coverage programs which have made health care available at no out of pocket costs to consumers;
3. The effect of requiring the consumer to pay a portion of health care costs so that Nebraskans will become more prudent purchasers of health care benefits;
4. The effect of requiring the offering of several different third party coverage programs and the provision of incentives for consumers to be prudent purchasers of health care benefits;
5. The effect and extent of training physicians, nurses, pharmacists, and all health care professionals in cost containing techniques by medical and health care professional schools, residency programs, and professional groups;
6. The effect of current Federal and State regulations to determine if they permit the government to pay less than its fair share of expenses incurred by hospitals and physicians for treating patients covered by Medicare and Medicaid, therefore, causing providers to charge private patients more to recover unreimbursed costs;
7. The impact of medical and health care professional training and education on health care costs;
8. Various alternatives to control Medicaid costs in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Health and Welfare Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Public Health and Welfare Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 338.

Introduced by Wesely, 26th District; Chambers, 11th District.

PURPOSE:

The Legislature has considered and passed a number of bills during the 1982 session authorizing the issuance of tax-exempt bonds to bring capital into the state to invest in a variety of projects. The purpose of this study is to examine the extent to which Nebraska capital is now being invested outside of the state and how to redirect such investment to meet Nebraska's needs. For example, the Legislature should review pension funds to identify whether a Nebraska-oriented investment portfolio would continue to bring a high investment return while providing needed financial resources for Nebraska. Such an investment program would improve the economy of the state by promoting economic activity and reducing unemployment. The Nebraska Mortgage Finance Fund should be considered as a potential coordinating point for this effort.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee report its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 339.

Introduced by Wesely, 26th District.

PURPOSE:

To study potential tax incentives to increase jobs in the State of Nebraska. With many Nebraskans out of work, the need to examine ways to increase employment in Nebraska is a primary concern for the state. Efforts to promote business expansion through tax incentives would be reviewed in terms of their effect on increasing employment within the state by providing jobs to Nebraskans who need work.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee report its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PURPOSE:

The economy and commerce of the State of Nebraska is reliant upon the availability, affordabiltiy, and quality of the resources which support it: the human resources which are found in our state's hard working labor force; the water resources which are essential to agricultural irrigation, industrial plants, livestock industry, and domestic needs; the land resources which provide for Nebraska's bountiful agricultural production; and the energy resources which fuel our industry, commerce, and nearly every aspect of our daily lives.

The people of the State of Nebraska are in an era of ever increasing energy costs, decreasing availability of long-range conventional energy resources, and a growing reliance on unreliable sources of imported energy. This continuing situation has, is, and will cause disruptions in Nebraska's economy.

The economic crisis which exists in Nebraska and this nation is being caused in part by double digit increases in the cost of essential energy resources. If Nebraska fails to address the energy crisis in the near future, it will result in further harm to our ability to effectively compete with other market regions. States which more effectively address their energy problems will have a better chance of emerging from the present national recession with significantly stronger and independent economies than will Nebraska.

The people, the Legislature, and the Governor of the State of Nebraska must develop a better understanding of the energy situation as it concerns Nebraska and Nebraskans. The public and private sectors in Nebraska must join together to develop a comprehensive state and local strategy to deal with the high cost of energy. The Legislature must assume a strong leadership role in developing a comprehensive state energy policy to become more energy efficient and independent from costly foreign sources of energy.

The primary goal of this study is to involve interested Nebraskans and members of the Nebraska Legislature in the development of solutions to our energy problems.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Works Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee report its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

WHEREAS, people are encouraged to regenerate this renewable resource by planting 2, 200, 2,000 or 20,000 trees;

NOW, THEREFORE, the legislature of the State of Nebraska commends the Plant Two Trees program, those who are participating; and urges all Nebraskans to take part in this important program to replace Nebraska's lost trees.

RESOLUTIONS

LEGISLATIVE RESOLUTION 362.

Introduced by Wesely, 26th District; Cullan, 49th District.

PURPOSE:
To examine the possible establishment of uniform licensing, taxes, and weight/size restrictions for all highway freight carrying vehicles as proposed in recommendation number 57 of the Governor's Task Force for Government Improvement, 1980. As the Task Force recommended, all those who transport heavy freight should share equally in the maintenance and protection of our highways. With this true user fee concept in mind the study should explore the cost and benefits of implementing such a policy. The study should examine the tax savings which would result from such a proposal (estimated by the Task Force to be $15 million annually) and the affect it will have on interstate and intrastate commerce and our state highway system.

To examine the causes of deterioration of Nebraska's primary and secondary roads and bridges for purposes of allocating the costs of maintaining our road system among the various classes of users. The study should also examine the current method of financing highway and bridge improvement and maintenance in Nebraska to determine if changes in the tax structure are needed to assure that the tax burden placed upon each class of user reflects costs associated with that use as nearly as practical. The study should further determine if the existing road financing method is adequate to keep our roads and bridges in good repair and recommend new revenue measures if needed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Public Works Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Public Works Committee work with the Department of Roads, the State Highway Commission, the Governor's Task Force for Government Improvement and other state agencies and citizens in conducting the study.
3. That the committee report its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 363.

Introduced by Cullan, 49th District; Wesely, 26th District.

PURPOSE:

The maintenance and construction divisions of the Nebraska Department of Roads base the design life of roads on the amount of heavy truck traffic that uses a given stretch of road. Heavier and longer trucks have been shown to be a major source of highway failure by increasing road wear and tear and reducing the life of new and existing highways and bridges, while increasing road and bridge maintenance costs by up to 20%, costs already estimated to be $214.8 million in fiscal year 1983.

Longer and heavier trucks also pose a serious safety threat to all motorists because of increased braking and passing distances, slower acceleration rates and incrased hazards during travel in inclement weather.

The trucking industry and the Federal Government have stated that other measures, such as diesel engines, radial tires, fan clutches, aerodynamic devices, and observing the speed limit would save twice as much fuel as using triple trailer trucks and both contend that federal weight limits of 80,000 pounds make triple trailer trucks less rather than more fuel and cost efficient.

The purpose of this interim study is to examine the effects of longer and heavier trucks, including overweight and triple trailer trucks on

1) the safety of other motorists;
2) the amount and costs of road damage;
3) fuel efficiency;

and to offer comparisons of highway user fees paid by heavy trucks and other motor vehicles and alternative methods for conserving fuel by heavy commercial trucks.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1) That the Public Works Committee of the Legislature be designated to conduct an interim study to carry out the purposes of this resolution.

2) That the Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 364.

Introduced by Fowler, 27th District.

Purpose:

The purpose of this resolution is to study the quality of education offered by the University of Nebraska as it directly relates to funding provided by the Nebraska Legislature. As the major higher educational institution of the state, the University of Nebraska educates thousands of Nebraska citizens. Because of its widespread impact, its imperative that the University offer an education that is at least comparable to that found in other states. Questions concerning the quality of education need to be resolved in order to ensure that the University receives adequate funding in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Appropriations Committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 365.

Introduced by Wesely, 26th District.

PURPOSE:

The intent of this resolution would be to study the feasibility of developing a waste rubber processing plant in Nebraska, as well as an examination of the methods for financing such a plant. Studies and experimental data indicate that asphalt rubber is a viable material that provides an attractive economic alternative for construction, rehabilitation and maintenance of our roads and streets. Economic advantages result from the increased life and reduced thickness of the material. Asphalt Rubber also provides a recycling alternative that promotes environmental and energy conservation. An initial report, entitled "Feasibility Analyses for Cryogenics-based Waste Rubber Processing Operation", concluded that Nebraska provides a sufficient supply of recyclable rubber to promote a cost effective processing plant operation in Nebraska. This resolution would also provide for cooperation with the Department of Roads to conduct testing designed to verify the findings of other studies under conditions in Nebraska and to examine the development of a demonstration plant in Nebraska. The resolution will also examine the effect of such a plant on the state economy and the environment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study and shall work in conjunction with the Department of Roads to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 366.

Introduced by Landis, 46th District; Fowler, 27th District; Wesely, 26th District; Beutler, 28th District.

PURPOSE:

To study the feasibility of providing authority for the Nebraska Public Service Commission to regulate natural gas rates and service.

Nebraska depends on natural gas for a very significant amount of its domestic and industrial needs. Most Nebraska homes are heated by natural gas. The money Nebraskans pay for the use of natural gas in most instances leaves the state to the benefit of major oil companies and gas-producing states.

The federal government is in the process of abdicating its historical regulatory responsibilities concerning natural gas. As a result, Nebraskans will be faced with gigantic increases in natural gas costs unless the state takes over the regulatory role.

The intent of this study is to determine whether the Public ServiceCommission should take over the responsibility of regulating natural gas rates and service in Nebraska, and if so, what resources would be necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purpose of this resolution.
2. That the committee shall upon conclusion of its study make a report of its findings, together with its recommendations, to the Legislature.

Referred to the Executive Board.

UNANIMOUS CONSENT - Print in Journal

Mr. Warner asked unanimous consent to print the following amendment to LB 928 in the Journal. No objections. So ordered.

Req. #1809

1. Insert new sections to read:

"Sec. 83. In order to promote sound fiscal management and facilitate the orderly expenditure of appropriations, and notwithstanding any other provision of law, the State Treasurer is authorized to make interfund transfers of fund balances among the various fund accounts of the state invested by the state investment officer in the short term investment pool. Such transfers shall be made upon certification by the Director of Administrative Services that the current cash balance in a specific fund is inadequate to meet current obligations. Such certification shall include the specific fund accounts and the dollar amount to be transferred. The interfund transfer shall be reversed upon notification by the Director of Administrative Services that sufficient funds are available. The authority granted by this section shall terminate on July 1, 1983.

Sec. 84. (1) If the fund balance of any fund account is transferred for more than thirty days, the State Treasurer shall notify the state investment officer of the dates in excess of thirty days, the amount of funds transferred, and the name of the fund account. After the transfer has been reversed the state investment officer shall notify the State Treasurer of the amount of interest that would have been earned on the balance transferred to the General Fund for those dates in excess of thirty days. The State Treasurer shall transfer from the General Fund to the respective fund account, from which the interfund transfer was made, an amount equal to the interest earnings certified by the state investment officer.

(2) The State Treasurer shall provide written notification to the state agency, board, or commission that administers the fund account, which the State Treasurer plans to transfer to other fund accounts, two days prior to such interfund transfer and within two days after the interfund transfer has been reversed.

(3) The State Treasurer shall provide written notification to the Legislative Fiscal Analyst when any interfund transfer is made or when an interfund transfer is reversed.

Sec. 85. Any interfund transfer made pursuant to section 83 of this act, and which has not been reversed as provided in such section, together with any unpaid interest as provided in section 84 of this act, shall be considered by the State Board of Equalization and Assessment in fixing state sales and income tax rates. Such unreversed interfund transfers, if any, and the unpaid interest, if any, shall be considered an encumbrance against the General Fund for rate-setting purposes. Prior to any meeting of the State Board of Equalization and Assessment, if any such encumbrances exist, the Director of Administrative Services shall certify to the board the amount of such encumbrances. The provisions of this section shall terminate on July 1, 1983.".

2. Renumber remaining sections accordingly.

3. On page 117, line 25, strike "This" and insert "Sections 83, 84, and 85 of this act shall become operative on their effective date. The other sections of this".

Req. #2926

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature finds it to be in the public interest of the State and its citizens to promote the efficient development and prevent the waste of geothermal resources. Geothermal energy is an indigenous, renewable resource the development of which will benefit local economies. The Legislature further finds and declares that a permit system is necessary to protect Nebraska's ground and surface water resources and existing water users, particularly where the development of geothermal resources requires the use of ground water as a transfer medium for the utilization of geothermal energy at a location other than the well site.

Sec. 2. As used in this act, unless the context otherwise requires:

(1) Geothermal resources shall mean (a) the natural heat of the earth and the energy produced by that heat, including pressure, and (b) the material medium containing that energy;

(2) Geothermal fluids shall mean the naturally present ground water in geothermal occurrences;

(3) Geothermal occurence shall mean an underground geologic formation at temperatures higher than the normal gradient; and

(4) Material medium shall mean geothermal fluids or other substances injected into a geothermal occurence by which geothermal energy is transported to the surface.

Sec. 3. The property right to the development and production of geothermal resources is an incident of the ownership of an estate in land. When the subsurface or mineral estate has been severed from the overlying surface estate, ownership of the right to develop and produce geothermal resources shall derive from the subsurface or mineral estate.

Sec. 4. (1) When the subsurface or mineral estate in land has been severed from the overlying surface estate, the owner of the subsurface or mineral estate shall have the right to enter upon the overlying surface estate at reasonable times and in a reasonable manner to prospect for, produce, and transport geothermal resources. Fair and equitable compensation shall be paid to the owner of the overlying surface estate for the exercise of such right of entry. The right of entry granted in this section shall not include the right to construct surface facilities for on-site utilization of geothermal energy.

(2) The board of Educational Lands and Funds shall have the authority to lease state-owned geothermal

resources under the procedures contained in Chapter 72, article 3.

Sec. 5. Any person who desires to withdraw ground water from aquifers located within the State of Nebraska for geothermal resource development shall, prior to commencing construction of any wells, obtain from the Director of Water Resources a permit to authorize the withdrawal, transfer, and further use or reinjection of such ground water. The Department of Water Resources shall adopt and promulgate rules and regulations governing the issuance of such permits, consistent with this act and with Chapter 46, article 6. Such rules and regulations shall provide for consultation with the Department of Environmental Control pursuant to the issuance of such permits and shall be compatible with rules and regulations adopted and promulgated by the Department of Environmental Control under the Environmental Protection Act. Any geothermal fluids produced incident to the development and production of geothermal resources shall be reinjected into the same geologic formation from which they were extracted, in substantially the same volume and substantially the same or higher quality as when extracted, unless the permit issued in accordance with this section authorizes further uses or processing other than those incident to reinjection.

Sec. 6. The development and production of geothermal resources shall be subject to Chapter 46, article 6, and the Environmental Protection Act and any rules and regulations adopted thereunder.".

Mr. Warner asked unanimous consent to print the following amendment to LB 928 in the Journal. No objections. So ordered.

PURPOSE:

There has been a significant increase in the number of grain storage facilities takeovers by the Public Service Commission and given that the owners of the grain stored in these elevators or storage facilities are not adequately protected by our present bonding requirements.

Since in many cases we have had ample warning that owners of stored grain may not be adequately protected against loss, it is important that we examine the problem and if necessary provide the kind of protection needed to protect the owners of grain stored in public storage facilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. An interim study be conducted by the Agriculture and Environment Committee of the Nebraska Legislature to investigate this problem.

2. Furthermore, that the study committee shall submit to the Legislative Council and/or the Members of the Legislature their findings.

The purpose of this resolution is to provide for the review of all matters leading to and possibly supporting introduction in the next legislative session of legislation authorizing the State of Nebraska to enter into a compact with states in the midwest region for the purpose of facilitating development and operation of a proper low level radioactive waste disposal facility.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture and Environment Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE:

The purpose and intent of this interim study resolution is to examine the financial and tax problems confronting the horse racing industry, resulting from a number of economic factors, which have a detrimental impact on the economic well-being of owners, breeders, trainers, and the industry in general. The Legislature and the State of Nebraska needs to be aware of the current and future needs of the horse racing industry and its impact upon and relationship with agriculture and the state's economy in general.

Necessary information must be derived to properly analyze the existing tax structure relating to the horse racing industry in order to effectuate its survival and development.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture and Environment Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE:

The purpose of this resolution is to study the laws regulating investment of money placed in the various pension funds in the State of Nebraska.

There has arisen some questions regarding the soundness and security of pension funds over which the State of Nebraska exercises any influence, involvement, or control. The statutory investment structure of such funds has not been addressed in a comprehensive manner since the early 1960's.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

WHEREAS, sound economic planning requires a good understanding of the demographics of our state; and

WHEREAS, present economic conditions of Nebraska women including, among others, minority women, older women, and rural women constitute a growing and important element of the total economic mix; and

WHEREAS, information volunteered from such women is of value in understanding Nebraska's labor force, employment opportunities, occupational patterns, training, education and career counseling programs, and retirement policies; and

WHEREAS, special situations involving child care, single parenting, marriage status, access to credit and pensions, and homemaker functions frequently impact decisions of the Legislature;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND REGULAR SESSION:

That the Legislature's Business and Labor Committee sponsor a series of hearings to be conducted across Nebraska with the assistance of the Nebraska Commission on the Status of Women to acquire deeper understanding of the aforementioned elements contributing to the conditions of women in Nebraska. WHEREAS, the annual increase in health care costs is rising at a rate in excess of the rate of increase in the consumer price index; and

WHEREAS, from 1965 to 1980, health care expenditures rose from 5.9% to 9.4% of the Gross National Product; and

WHEREAS, hospital costs in Nebraska increased 19% during the last year, while the rate of inflation was less than 10%; and

WHEREAS, current federal and state regulations permit the government to pay less than the total cost of care for patients covered by Medicare and Medicaid; and

WHEREAS, providers of health care are forced to charge private sector patients more to compensate for this shortfall in government reimbursement, resulting in a projected cost shift to private pay patients of in excess of 4.8 billion dollars nationally in 1981; and

WHEREAS, from 1975 to 1979 the resulting cost shift differential between public and private sector patients rose from $12 to $41 per adjusted patient day; and

WHEREAS, Medicare and Medicaid payments for health care services are made on a retrospective basis, reimbursing for costs after they have been incurred; and

WHEREAS, retrospective reimbursement does not provide an incentive to health care providers to hold down health care costs; and

WHEREAS, although health care providers have been competitive in terms of services, there is a need to promote cost competition in the health care industry; and

WHEREAS, the impacts of rising health care costs has resulted in a 50% increase in Medicaid expenditures in Nebraska during the four year period from 1978 to 1981; and

WHEREAS, 31% of the public health dollar in Nebraska in 1978 was paid by public assistance funding and 30% was paid by insurance premiums; and

WHEREAS, the pecentage of per capita national disposable personal income which goes to health care expenditures has increased from 7% in 1965 to over 18% in 1981; and

WHEREAS, the public ultimately pays for the rising cost of health care through public tax funds, tax exemptions for health care facilities, insurance premiums, and patient rate charges.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking committee of the Legislature shall be designated to conduct an interim study to examine issues related to the containment of rising health care costs, including:

(a) cost shifting from the public sector to private pay patients.

(b) health care provider rate or budget review.

(c) methods to promote cost competition between health care providers.

(d) prospective rate reimbursement of health costs

(e) uniform health care financial reporting.

2. That the Banking Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 375.

Introduced by Schmit, 23rd District; Higgins, 9th District; Labedz, 5th District; Wesely, 26th District; DeCamp, 40th District.

PURPOSE:

Containment of Health Care Costs.

1. The cost for delivery of medical services has and continues to rise at an alarming rate.

2. Such costs are the result of waste, inefficiencies, and misuse of health services.

3. Governmental regulations have not induced insurers, doctors, and hospitals to provide health-care delivery systems that compete on price and quality of service.

4. Workers, companies, medicare recipients and insurance companies should become more cost-conscious by providing both a choice among a number of health plans and a financial stake in exercising that choice.

5. Endorsement of a competitive approach to health care advocates cost-efficiency from the consumer.

6. Consumers should be made aware of the quality, quantity, and price of medical care they require in order to make informed and cost-conscious decisions.

7. Deductibles and coinsurance discourage over-utilization and demand for medical services.

8. In a well-functioning competitive market suppliers must compete for the available funds by engaging in a constant effort to cut costs and enhance services.

9. Health care insurers should take a prominent role in addressing the problems of health care cost containment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 376.

Introduced by Wesely, 26th District.

PURPOSE:
The purpose of this study is to examine Nebraska's higher education system. The overall funding for higher education should particularly be studied. The study should examine the most effective use of tax dollars for higher education. The role and mission of the higher education system in Nebraska should be re-examined in order to streamline the system so that it is as efficient as possible.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special task force be formed to study the administration and accountability of higher education in Nebraska as suggested in Recommendation Number 80 of the Governor's Task Force for Government Improvement. The Executive Board of the Legislature shall select the members of the task force.
2. That a committee of the Legislature shall work with the task force to conduct an interim study to carry out the purposes of this resolution.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 377.

Introduced by Wesely, 26th District.

PURPOSE:

To study the possibility of establishing a research liaison with the University of Nebraska to supplement the research capabilities of the staff of the Legislature. The study would consider a Legislative research arrangement with the University to enhance and facilitate the Legislature's ability to more fully utilize the resources of the University in addressing complex and technical policy questions. Such a study should examine the ability to reduce the costs and use of special consultants by the Legislature as a result of a research liaison with the University.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That the Executive Board of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee report its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 378.

Introduced by Wesely, 26th District.

PURPOSE:

There exists a need to undertake a study of the problems associated with small power producers and cogenerators and their integration into Nebraska's electrical grid system. During the 1981 interim, it became evident that a problem may exist between some of Nebraska's electrical utilities and those Nebraskans who are able and willing to produce electricity for resale to the electrical grid system. A study should be undertaken to provide for an adequate investigation of the scope and nature of this potential problem.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That a Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon conclusion of its work make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINION

Opinion No. 242
April 6, 1982

Dear Senator DeCamp:

You have submitted to us a copy of your latest proposed amendment to LB 816, and have asked our opinion as to its constitutionality. In our opinion it can be successfully defended against constitutional attack.

Your amendment would strike all of the original sections of the bill, and all amendments, and substitute nine new sections. The first section recites that it is the intention of the Legislature that payments to political subdivisions be made pursuant to §§77-3611 to 77-3615, unless the Supreme Court holds them unconstitutional. It then provides that if, by January 1, 1983, the court has not issued a mandate on the subject, or has held those sections unconstitutional, payments shall be made pursuant to Sections 2 to 6 of LB 816. In our Opinion No. 230, dated March 26, 1982, we stated our opinion to be that making the application of a statute contingent upon a future ascertainable event was proper. We believe that is what is involved in Section 1 of your proposed amendment.

Section 2 of your amendment would appropriate an additional $45 million to the School Foundation and Equalization Fund, to be distributed pursuant to §§79-1333 to 79-1334. In our Opinion No. 189, dated February 8, 1982, we reached the conclusion that the method of distribution of that fund set forth in §79-1334 was proper, and that simply adding more money to be so distributed would have no effect on its constitutionality.

Section 3 of your amendment would provide for an appropriation of an additional $2 million for aid to technical community colleges, to be distributed pursuant to §§79-2651 to 79-2653. In our Opinion No. 213, dated March 8, 1982, we found nothing unconstitutional about the method of distributions specified in those sections, and said that adding more money to the pot to be distributed would not effect its constitutionality.

Sections 4, 5, and 6 of your amendment would amend §§77-27,136, 77-27,137, and 77-27,137.01. As amended, these sections would provide for distribution of $17,900,000 to incorporated municipalities on the basis of the ratio of the population of each municipality to the population of all municipalities in the state. These sections would also provide for the payment of $17,700,000 to counties, to be allocated on the basis of the ratio of the property tax levied by each county for county purposes to the total amount of property taxes levied by all counties for county purposes.

We are confident that the distribution to the municipalities on the basis of their populations can be defended. In our Opinion No. 226, dated March 24, 1982, we also reached the conclusion that we could defend the distribution of money to the counties on the basis of the ratio of property taxes collected by the county for county purposes, despite some doubt cast upon the question by State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980). We are still of that opinion.

We are therefore of the opinion that your amendments to LB 816 could be successfully defended against constitutional attack.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

April 6, 1982

Dear Senator Beutler:

In checking our Opinion No. 241, dated April 2, 1982, addressed to you, we find two typographical errors in it. In the second paragraph on page 2 of the opinion, two references are made to "§72-2341." The proper references should be to §77-2341. We hope these typographical errors have not caused any confusion to you or other members of the Legislature.

Very truly yours,

UNANIMOUS CONSENT - Print in Journal

Messrs. DeCamp and Landis asked unanimous consent to print the following amendment to LB 652 in the Journal. No objections. So ordered.

1. Strike the original sections and all amendments thereto and insert the following new sections:

“Section 1. The Legislature finds that the state has a high responsibility for the education of its citizens and the right to impose reasonable rules and regulations for the control and duration of basic education. The Legislature also finds that parents have the right to provide an equivalent education in a privately operated system. It is the intent of the Legislature that the State Department of Education act as the primary civil and criminal enforcement agency for violations of Chapter 79 and the rules and regulations promulgated thereunder.

Sec. 2. That section 79-1233, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1233. (1) The State Department of Education shall provide, by rule and regulation, that no ~~No~~ person shall be employed to teach in any public, private, denominational, or parochial school in this state who does not hold a valid Nebraska certificate or permit issued by the Commissioner of Education legalizing him or her to teach the grade or subjects to which elected, except that no Nebraska certificate or permit shall be required of persons teaching exclusively in junior colleges organized as part of the public school system.

(2) Public, private, denominational, or parochial schools in the state may employ persons who do not hold a valid Nebraska teaching certificate or permit issued by the Commissioner of Education to serve as aides to a teacher or teachers. Such teacher aides may not assume any teaching responsibilities. A teacher aide may be assigned duties which are nonteaching in nature, if the employing school has assured itself that the aide has been specifically prepared for such duties, including the handling of emergency situations which might arise in the course of his or her work.

(3) Rules and regulations mandated under this section shall be adopted and promulgated as provided in Chapter 84, article 9.

Sec. 3. That section 79-1701, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1701. The State Department of Education shall provide, by rule and regulation, that all ~~All~~ private, denominational, and parochial schools in the State of Nebraska, and all teachers employed or giving instruction therein, shall be subject to and governed by the provisions of the general school laws of the state so far as the same apply to grades, qualifications, and certification of teachers and promotion of pupils. The department shall also provide, by rule and regulation, that all ~~All~~ private, denominational, and parochial schools shall have adequate equipment and supplies, and shall be graded the same and shall have courses of study for each grade conducted therein, substantially the same as those given in the public schools where the children attending would attend in the absence of such private, denominational, or parochial schools.

Rules and regulations mandated under this section shall be adopted and promulgated as provided in Chapter 84, article 9.

Sec. 4. (1) The State Department of Education shall have authority to determine whether any person is conducting a school which fails to meet the requirements of Chapter 79 or any rules and regulations adopted and promulgated pursuant to such chapter.

(2) Whenever the Commissioner of Education has reason to believe that a violation of any provision of Chapter 79 or any rule or regulation of the department has occurred, he or she may cause a written charge to be served upon the alleged violator. The charge shall specify the provisions of law or the rule or regulation alleged to be violated and the facts alleged to constitute a violation thereof. The commissioner shall provide for notice and a full and fair hearing at a time and place specified in such notice in which each alleged violator shall answer the charges complained of. The notice shall be delivered to each alleged violator not less than ten days before the time set for the hearing by personal service, by certified or registered mail to his or her last-known address, or by publication. Following the hearing the commissioner shall determine whether the charges are true or not and if true, the commissioner may issue a declaratory order finding the charges to be true and (a) impose a civil penalty of five dollars for each child attending the school for each day in volation, (b) issue an order requiring the violator to cease and desist violation, or (c) impose the civil penalty and issue the cease and desist order.

(3) Any civil penalty assessed and unpaid under the provisions of subsection (2) of this section shall constitute a debt to the State of Nebraska which may be collected in the manner of a lien foreclosure or sued for and recovered in any proper form of action in the name of the State of Nebraska in the district court of the county in which the violator resides or owns property.

(4) In addition to the powers provided to the commissioner in this section, he or she may petition the district court for an injunction whenever he or she believes that any person is violating any provision of Chapter 79 or any rule or regulation adopted and promulgated pursuant to such chapter.

Sec. 5. (1) Any decision rendered under section 4 of this act may be appealed pursuant to Chapter 84, article 9.

(2) Any penalty assessed under section 4 of this act may be waived by the Commissioner of Education upon a showing that the person is currently complying with all applicable requirements for the operation of a school.

Sec. 6. Upon application by any person operating a school, the State Department of Education shall waive conflicting requirements imposed by Chapter 79 or any rule or regulation adopted and promulgated pursuant to such chapter upon a showing that:

(1) The applicant's claims are rooted in religious belief and compliance with the laws and rules and regulations would conflict with fundamental tenets of the religion; and

(2) The values and programs of the public or private state approved school are in sharp conflict with the fundamental mode of life mandated by the applicant's religion.

Sec. 7. Any person applying for a waiver under section 6 of this act shall provide to the State Department of Education a list of the names, ages, and post office addresses of all persons of compulsory school age attending the school for which an exemption is sought.

Sec. 8. The State Department of Education upon receiving an application under section 6 of this act shall hold a hearing to determine whether the applicant has made the showing required by such section.

Sec. 9. (1) The State Department of Education may appoint a hearing examiner to conduct the hearings provided under sections 4 and 8 of this act.

(2) In proceedings under sections 4 and 8 of this act the department shall have the powers possessed by the courts of this state to issue subpoenas and cause them to be served and enforced. All testimony shall be under oath which shall be administered by a member of the department. Any person who appears before the department shall have all of the due process rights, privileges, and responsibilities of a witness appearing before the courts of this state. All witnesses summoned before the department shall receive reimbursement as paid in like circumstances in the district court.

(3) The department shall cause a record to be made of all proceedings pursuant to sections 4 and 8 of this act.

Sec. 10. That original sections 79-1233 and 79-1701, Reissue Revised Statutes of Nebraska, 1943, are repealed.".

ATTORNEY GENERAL'S OPINION

Opinion No. 243
April 7, 1982

Dear Senator Lamb:

LB 895 of the Eighty-Seventh Legislature (1982), contained a formula for determining the high school tuition rate for nonresident pupils. You have asked if this legislative bill is constitutional.

LB 895 was amended on February 25, 1982. On April 6, 1982, it was inserted, with amendments, into LB 933. In its current posture, LB 933 requires the high school tuition rate for nonresident pupils to be determined annually by the receiving school district on a uniform taxation basis for the support of the high school program of the receiving school district. The formula for making such a determination is set forth in Section 2 of LB 933, as amended. It is rather long and therefore is not recited verbatim herein. In general, the formula uses, inter alia, the most current annual term finance report of the receiving school district on file with the State Department of Education. It includes the total current expense listed therein plus 10 per cent depreciation of certain assets divided by an amount equal to the most current total valuation on record with the county clerk of the receiving school district plus a valuation determined by multiplying the most current valuation on record with the county clerk of all Class I school districts, not part of any Class IV district, in the county times a certain ratio.

The "rate" determined by Section 2 of LB 933 will obviously vary from school district to school district. Each school district has different current expenses plus different asset values, as well as different valuations on record with the county clerk. Thus, for the purpose of this opinion, we cannot mathematically determine the per pupil cost of each school district. And, for the same reason, we cannot say that the formula in this legislative bill for determining tuition is or is not unconstitutional.

It appears to us that the following rule announced by the Nebraska Supreme Court is applicable:

> As is clearly apparent in a situation such as this the needs are not capable of exact ascertainment. In the very nature of things and as the pertinent statutes declare there may only be estimates, which of course negative any thought that accuracy must be attained. The true test is that there shall be a reasonable and approximate estimate and determination made in the light of the known and reasonably ascertainable facts and also in the lights of known and fairly anticipated conditions.

Mann v. Wayne County Board of Equalization, 186 Neb. 759, 186 N.W.2d 729 (1971).

It appears to us that the formula for determining per pupil cost in LB 933 comes within the above stated rule. Whether, mathematically, that formula would yield a per pupil cost which a court in a particular case could find is constitutional or unconstitutional, involves facts which are not at our disposal. Hence, we are in no position to offer an opinion that LB 933 is or is not constitutional.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 244
April 12, 1982

Re: LB 825

Dear Senator Chambers:

This is in reply to you inquiry concerning LB 825's proposed amendment to Neb.Rev.Stat. §51-215, which would authorize libraries to recover court costs and attorney fees in actions brought to recover penalties imposed or accruing pursuant to the bylaws or regulations of the Library Board.

As you suggest, LB 825 deals with civil actions only. As such we point out that there is nothing that we are aware of which limits the conditions which may be placed upon persons utilizing the services of public libraries. In fact, Neb.Rev.Stat. §51-205 specifically provides that a "library board shall have the power to make and adopt such by-laws, rules and regulations for its own guidance and for the government of the library and reading room as it may deem expedient."

With no limitations placed upon libraries by Neb.Rev.Stat. §51-205, we see no problem with regard to the amount of any penalty which libraries may impose upon persons violating its bylaws and regulations, or that any specific notice of such penalties be given to persons subject to them. Nor do we see any need for any advanced warning, notice or demand before initiating whatever civil action may be necessary to protect or recover its property.

With regard to the disposition of attorneys fees authorized by LB 825, there does not appear to be any requirement that actions brought on behalf of a library must be brought by an attorney receiving a salary from pubic funds. By the same token there is nothing which would prevent such an attorney from initiating such actions. In any event, the disposition of attorneys fees would be in a manner agreed upon by the library, the attorney, and any public agency from whom the attorney may be otherwise receiving a salary.

In conclusion, since LB 825 deals with civil actions, intent is not an element upon which a library's right of recovery may be based.

Very truly yours,
PAUL L. DOUGLAS
Attorney General

ATTORNEY GENERAL'S OPINIONS

Opinion No. 245

April 12, 1982

Dear Senator Chambers:

You have inquired whether the State of Nebraska, through its Legislature, may constitutionally exempt persons under the age of 18 years from the imposition of a sentence of death.

At the present time, we are aware of no constitutional impediment to a state limiting by legislation the class of persons upon which a sentence of death may be imposed. This opinion is limited to the instant question where the limitation is based upon a classification of persons — Juveniles — which is already recognized by our statutes and uniformly granted unique treatment under the criminal laws of this country. See, Neb.Rev.Stat. §§43-201.01 et seq. (Reissue 1978); Neb.Rev.Stat. §43-247, §43-261 and §43-276 (1981 Supp.), operative July 1, 1982.

Very truly yours,

Opinion No. 246

April 12, 1982

Dear Senator Nichol:

You have inquired whether the State of Nebraska, through its Legislature, may constitutionally exempt persons under the age of 18 years from the imposition of a sentence of death.

At the present time, we are aware of no constitutional impediment to a state limiting by legislation the class of persons upon which a sentence of death may be imposed. This opinion is limited to the instant question where the limitation is based upon a classification of persons — juveniles — which is already recognized by our statutes and uniformly granted unique treatment under the criminal laws of this country. See, Neb.Rev.Stat. §§43-201.01 et seq. (Reissue 1978);

Neb.Rev.Stat. §43-247, §43-261 and §43-276 (1981 Supp.), operative July 1, 1982.

You have also inquired regarding the effect of the proposed amendment to LB 787, removing persons convicted of murder in the first degree, who are under eighteen years of age, from exposure to a sentence of death, would have upon those presently sentenced to death. Passage of this amendment would only effect a sentence of death which had not become final. See Opinion No. 218, March 15, 1982.

Very truly yours,
PAUL L. DOUGLAS

RESOLUTIONS

LEGISLATIVE RESOLUTION 212. Read. Considered.

Messrs. DeCamp, Hoagland, Fowler, Koch, Kremer, Wiitala, Landis, and Miss Kilgarin offered the following amendment:

Strike original language and replace it with:

WHEREAS, the Natural Gas Policy Act of 1978 calls for the gradual deregulation of most natural gas wellhead prices by 1985; and

WHEREAS, the Federal Energy Regulatory Commission has discussed raising allowable prices for old flowing (NGPA Section 104) natural gas administratively; and

WHEREAS, the changes, which are being discussed by the FERC, could affect the price of a substantial quantity of Nebraska's natural gas supply; and

WHEREAS, approximately seventy-five percent of the residential structures in Nebraska are heated with natural gas and the average cost of natural gas to each residential user could increase substantially if prices were raised in this manner; and

WHEREAS, agriculture, commercial, and industrial users in Nebraska could also incur substantially increased costs if prices are increased administratively; and

WHEREAS, increased natural gas costs for agriculture, commerce, and industry in Nebraska will result in higher consumer prices for all commodities; and

WHEREAS, such price increases could further damage an already frail Nebraska economy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-SEVENTH LEGISLATURE, SECOND SESSION:

1. That the Legislature supports the gradual decontrol of natural gas prices as outlined in the Natural Gas Policy Act of 1978.
2. That the Legislature opposes the raising of the allowable wellhead price of old flowing gas administratively by the Federal Energy Regulatory Commission.
3. That the Legislature urgently requests the Nebraska Attorney General to initiate and/or intervene on litigation to prevent the acceleration of deregulation of natural gas by the FERC, pursue such litigation to the fullest, and report on the progress of such litigation to the Legislature and the Executive Board of the Legislative Council.
4. That the Clerk of the Legislature send copies of this resolution to the President of the United States, the Nebraska congressional delegation, and Speaker of the United States Senate.

RESOLUTION

LEGISLATIVE RESOLUTION 386.

Introduced by Hoagland, 6th District.

WHEREAS, The right to emigrate freely and to be reunited with their families is being denied Soviet Jews and others; a right affirmed by the Soviet Constitution, the Universal Declaration of Human Rights adopted by the General Assembly of the United Nations, The Helsinki Final Act and other accords and/or treaties; and

WHEREAS, Ida Nudel was arrested by Soviet authorities four years ago for "anti-Soviet behavior", to wit, the posting of a sign in the window of her Moscow apartment requesting that she be permitted to emigrate to Israel — and was subsequently sentenced to four years of exile in Siberia; and

WHEREAS, Ida Nudel has served her last winter of Siberian exile and is due to be released by Soviet authorities on March twenty-fifth, nineteen hundred eighty-two; and

WHEREAS, Ida Nudel had, prior to her exile to Siberia, lived in Moscow under tremendous hardship, having been repeatedly arrested and imprisoned for weeks at a time; and

WHEREAS, Ida Nudel has endured years of Soviet persecution, harassment and imprisonment simply because of her desire to practice her own religion while living in the country of her choice; and

WHEREAS, Ida Nudel, while incarcerated within the Soviet Union, has selflessly dedicated herself to working on behalf of others who are also "imprisoned" within the Soviet Union by a government which is committed to continuing its persecution of its Jewish citizens and denying them basic rights and privileges accorded other persons practicing recognized religions within the Soviet Union; and

WHEREAS, Ida Nudel has been a "Guardian Angel of Prisoners of Conscience" — traveling extensively within the Soviet Union from prison to prison to let other prisoners of conscience know "they have not been forgotten", and has recently been recognized world-wide for her efforts as nominee for the Nobel Peach Prize; and

WHEREAS, The Soviet Union's continuing persecution of its Jewish citizens and denial of those rights and privileges accorded other recognized religions in the Soviet Union will not succeed in isolating Soviet Jews from their friends in the world so long as those, like Ida Nudel, who hold liberty and freedom as the highest ideal, continue to speak out on behalf of the beleaguered and oppressed Soviet Jews seeking to emigrate; and

WHEREAS, The members of this Legislative Body call upon the government of the Soviet Union, as a signatory to The Universal Declaration of Human Rights adopted by the General Assembly of the United Nations and the Helsinki Final Act, to permit Ida Nudel to emigrate to Israel and join her family - family she has not seen since nineteen hundred seventy-two - upon her release from Siberian exile; now, therefore, be it

RESOLVED, That this Legislature of the State of Nebraska, which holds justice, freedom and liberty as the highest ideals, urges the Soviet Union to cease all harassment of and pressure on Jews who express the wish to emigrate to Israel and unite with their families and their people in Israel, and The Legislature of the State of Nebraska further urges the Soviet Union to permit Ida Nudel the right to depart for Israel - a basic human right inherent in the Soviet Constitution - upon her release from Siberian exile; and be it further

RESOLVED, That copies of this Resolution, suitably engrossed, be transmitted to Oleg Troyanorski, Ambassador Soviet Mission to the United Nations, 136 East 67th Street, New York, New York 10021; Aleksandr Chikvadze, Consul General, Consulate of the USSR, 2970 Green Street, San Francisco, CA. 94133; Anatoly Dobrynin, Ambassador, Embassy of the USSR, 1125 16th Street, N.W. MESSAGES FROM THE GOVERNOR

April 14, 1982

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning herewith LB 754 with my specific line-item reductions and with my signature.

As a result of my request to state agencies to make additional reductions to their budgets, I am able to report to you voluntary reductions in this year's general fund appropriations of $403,521. I must, therefore, modify the current proposed appropriations contained in LB 754 reducing them as follows: Parole Board, $2,000; Fire Marshal, $4,500; Motor Vehicles, $302,000; Military Department, $37,521; Game and Parks, $45,000; Workmens Compensation Court, $2,500; and DAS - Budget Office, $10,000.

The actions I have taken, in agreement with the agencies listed, will have the effect of providing sufficient funds for the agencies involved in carrying out their normal duties for the remainder of this fiscal year. It will also provide us with additional assistance while we manage the cash flow of our state through these uncertain economic times.

May I commend those agencies that came forward with these voluntary reductions in the spirit of helping all Nebraskans. I urge your support of LB 754, as reduced.

Sincerely,
(Signed) CHARLES THONE
Governor

April 14, 1982

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning herewith LB 761 with my line item reductions and with my signature.

There can be little doubt that this budget has received the most careful and detailed review of any budget in the history of Nebraska. The difficult economic times and declining state revenues demand that every possible action to hold down state spending be considered.

When the initial analysis was begun on this budget back in November and December the projected revenues from the existing tax rates of 15% on income tax and 3% sales tax was $718 million plus an estimated July 1, 1982 unobligated balance of 25.8 for a total of $743.8 million. Current estimates would put that figure at $638.4 million or a drop of over $107 million. Even with the proposed increase of 2% on the income tax and 1/2% on the sales tax, we will still be short of the original projection by $5.9 million.

For this reason and in keeping with the philosophy that all possible efforts must be made to reduce the budget before considering increasing taxes, I believe it to be my obligation to make even further reductions to an already tight budget passed by you just last week.

As you know, late last week I called on each agency in state government to cooperate with my Budget Office in identifying any possible further savings. I am pleased and proud to report that 24 agencies have responded with reductions of over $605,000. Those agencies and the corresponding reductions are as follows: Governor, $2,409; Attorney General, $10,000; Administrative Services, $48,500; Court of Industrial Relations, $6,383; Postsecondary Education Coordinating Commission, $1,372; Water Resources, $15,092; Game and Parks, $25,000; Natural Resources Commission, $22,750; Environmental Control, $26,132; Aeronautics, $2,894; Roads, $10,000; State Patrol, $10,000; Personnel, $8,600; Education, $22,664; Revenue, $37,079; Equal Opportunity Commission, $3,000; Policy Research Office, $29,122; Health Department, $24,850; Public Institutions, $21,650; Economic Development, $100,000; Supreme Court, $3,636; Military, $150,000; Liquor Commission, $17,500; and Energy Office, $6,926.

With the reductions made in the deficit bill the total of voluntary savings exceeds $1,000,000 in general funds.

In addition the following cash funded agencies have suggested the following reductions: Gasohol Commission, $20,175; Aeronautics, $14,400; Banking, $9,023; Insurance, $64,827; and Real Estate Commission, $12,030.

The amount for Program 108 — Homestead Exemption has been reduced by $997,815 to $29,300,000 which is the amount estimated to be expended this year. Low turnover in housing markets reduce expectations of growth in this program. Further, audits of counties in this heretofore unaudited program have been initiated by the Department of Revenue. Subject to this review, counties will report in November as to actual homestead totals for reimbursement.

I have reduced the appropriation for Community Mental Retardation by $175,839. This will allow for an appropriation for this program of $15,337,129, an increase of $176,871 over my original recommendation. Some disparities do exist between the funding levels for the various regions. The appropriation, if my veto is sustained, will continue the effort to equalize that funding.

In a time of declining federal funds, maximum administrative flexibility should be preserved. Therefore, while I am leaving the total appropriation of Title XX funds unchanged, I have eliminated the earmarking restrictions on those funds contained in LB 761.

The $200,000 earmarked for the Disabled Persons and Family Support Program has received by line item veto, but the total amount available for Public Assistance has not been reduced. These funds were to be used to begin a new program which does not seem to be advisable at a time when existing services are facing demands that could exceed available resources. This is not the year to begin new programs.

Other general fund line item reductions are: Department of Welfare, $35,000; State Claims Board, $52,500; Department of Health, $76,150; Public Service Commission, $2,155; Department of Roads, $72,316; Historical Society, $9,306; Educational Television, $22,386; and Department of Education, $40,000.

I have given careful attention to the recommendations of your thoughtful Appropriations Committee Chairman regarding the time for instating state employee wage increases: October 1 or January 1. I am particularly proud of our loyal, hard-working employees. They are not unconcerned with our fiscal problems and are concerned with their fellow Nebraskans, many of whom are experiencing financial problems in their homes, businesses and farms. The counsel given you on March 10th, aggrevated by further revenue declines, remains sound. Sound management and sound policy demands we postpone wage increases until January 1, 1983. This action will permit a savings of $3,767,501.

In total these reductions represent a savings of $6,272,048 in an admittedly tight budget. The taxpayers of Nebraska are demanding that their state government exercise restraint during these difficult times and I believe that this budget exhibits that restraint.

Based on current projections the appropriation to the Department of Roads Operation Cash Fund has been revised to $110,364,000. This will allow the Department of Roads to continue their existing construction program without requiring an increase in the gasoline tax.

Let me take this opportunity to thank you for your efforts thus far and encourage your careful consideration of this proposal.

Sincerely,
(Signed) CHARLES THONE
Governor

ATTORNEY GENERAL'S OPINIONS

Opinion No. 247

April 14, 1982

Dear Senator Vickers:

In your letter regarding LB 953 you ask if the lack of a provision in the bill which would prohibit the use of beef check-off funds for the purpose of influencing legislation would deprive cattlemen of their freedom of expression and/or speech contrary to the state or federal constitutions.

At the outset we note that in previous years the Legislature has created the Soybean Development, Ag Products Marketing, and the Grain Sorghum Resources Acts, and that subparagraphs 10 of sections 2-3311, 2-3622, and 2-4011, respectively, contain a proviso that prohibits all funds collected from being used to influence legislation. LB 953, a Beef Industry Development Act, is patterned after the three Acts referred to above except that LB 953 is silent with regard to the use of funds for the purpose of influencing legislation, leaving the possible interpretation that the fees collected by the Beef Board could be used for lobbying purposes.

In past inquiries concerning the use of such funds for lobbying purposes we have pointed out that fees such as those which would be collected by the Beef Board are collected under the Legislature's power to tax and, consequently, are public monies.

With regard to the use of such monies as would be raised by the provisions of LB 953, our Supreme Court noted in State ex rel. School District of Scottsbluff v. Ellis, 168 Neb. 166, 95 N.W.2d 538 (1959):

> It is . . . Fundamental that the power to tax and the power to provide for the disposition of taxes raised are identical and inseparable, and the Legislature is clothed with full power and control over the disposition of revenues derived from taxation,

> including those raised by political subdivisions of the state under authority of the state, subject only to constitutional restrictions.

With regard to your constitutional question we would first note that there is no specific provision in either the federal or state constitutions dealing with the question of whether it is proper to expend public revenue for the purpose of influencing legislation. Consequently, we believe the question presented must be analyzed from the perspective of whether or not the expenditure of public monies to influence legislation would constitute a public purpose. Our Supreme Court has recognized that the use of public funds must be directed toward a public, as opposed to a private use. Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 334 (1976). In this area, it is difficult to define any specific formula for determining what is or is not a public purpose.

> " 'No hard and fast rule can be laid down, for in determining whether a proposed expenditure of public funds is valid as devoted to a "public use or purpose" each case must be decided with reference to the object sought to be accomplished and to the degree and manner in which that object affects the public welfare.' "

It is equally difficult to determine what types of attempts to influence the legislation might constitute a private, as opposed to a public purpose. For example, if a member of the Beef Industry Development Board, who is paid with public funds, testified before the Legislature in support of a bill which would promote the beef industry in our state, a public purpose would appear to be present. On the other hand, the expenditure of such funds under the Beef Development Act to hire a lobbyist may present a closer case, depending, for instance, on how the lobbyist's duties are defined.

As the court noted in Chase v. County of Douglas, supra, it is for the Legislature in the first instance to decide what is or is not a public purpose. And the problem with regard to the provisions of LB 953 is that the legislation is silent on the question of whether or not monies can be expended for influencing legislation.

You have also asked if a provision allowing individuals to object to the use of check-off funds for lobbying purposes ameliorate any constitutional difficulties considering the decision in Abood v. Detroit, 431 U.S. 209.

We have examined the Abood decision and conclude that it has no application to situations such as are presented by LB 953.

Abood dealt with the use of union dues for purposes unrelated to collective bargaining, i.e., support of political candidates and the expression of political views. In arriving at its conclusion, the

Supreme Court considered the affect of federal legislation such as the National Labor Relations Act, and the Railway Labor Act. We do not see any application of rules for the expenditure of union dues under the provisions of federal labor legislation to the expenditure of monies collected under the Legislature's power to tax.

Opinion No. 248
April 14, 1982

Dear Senator Lamb:

We are responding to your letter in which you request our opinion regarding the constitutionality of LB 401. Specifically you inquire whether a provision excluding incorporated cities and villages from a ground water control area is constitutional, and further, whether it is constitutional to exclude persons who reside in incorporated cities or villages from voting on the establishment of a control area. With regard to these questions you draw our attention to Ball v. James, _U.S._, 68 L.Ed.2d 150, 101 S.Ct._ (April 29, 1981).

In Ball v. James, supra, the United States Supreme Court held that the voting scheme limiting election of water reclamation district directors to landowners, and apportioning voting power by the amount of land owned by each voter, did not violate the Fourteenth Amendment Equal Protection Clause of the United States Constitution. The court stated the question to be: "whether the purpose of the District is sufficiently specialized and narrow and whether its activities bear on landowners so disproportionately as to distinguish the District from those public entities whose more general governmental functions demand application of the Reynolds principle [one man — one vote]." Ball v. James, supra, 68 L.Ed.2d at 158. In that case non-landowning registered voters living within the geographic boundaries of the district brought suit alleging violation of the Equal Protection Clause of the Fourteenth Amendment by depravation of their right to vote. The court concluded that the functions of the district were so specialized that it did not exercise general governmental powers or perform such important governmental functions that all the citizens residing in the district were affected.

The question with regard to LB 401 appears to be whether land within incorporated cities and villages and the residents residing in those cities and villages may be excluded from a ground water control area.

The purpose of a ground water control area is stated in Neb.Rev.Stat. §46-656 (Supp. 1981): "To provide for an orderly management system, particularly in areas where available data, evidence, or other information indicates that present or potential ground water conditions require the designation of control areas with special regulation of future development and use, . . ."

A ground water control area may be designated by the Director of the Department of Water Resources pursuant to Neb.Rev.Stat. §46-658 (Supp. 1981) if he finds that the development and utilization of the ground water supply is caused or is likely to cause within the reasonably foreseeable future, the existence of an inadequate ground water supply to meet present or reasonably foreseeable needs for beneficial use of such water supply, or the dewatering of an aquifer resulting in the deterioration of the quality of such ground water; or if he finds that pollution of ground water has occurred or is likely to occur in the reasonably foreseeable future. The director is required to consider whether conflicts between ground water users are occurring or may reasonably be anticipated to occur in the future.

The controls which may be adopted by a Natural Resources District in which a control area has been designated include restrictive well spacing requirements, requirement of rotation for use of ground water, allocation of withdrawal of ground water, installation of flow measuring devices upon ground water wells, irrigation scheduling, and a moratorium of one year upon the drilling of new wells. (Neb.Rev.Stat. §46-666 (Supp. 1981)). A district in which a control area is designated, is permitted to levy a tax upon the taxable property within the portion of the district encompassed by such control area pursuant to Neb.Rev.Stat. §46-673 (Supp. 1981).

It is evident from the purpose, necessary prerequisites for creation, and powers of an NRD relating to a control area that the creation of such a control area has a disproportionately greater effect upon agrarian landowners using water for their agricultural business than upon the urban dwellers. In Holt Civic Club V. City of Tuscaloosa, 439 U.S. 60 (1978), the Supreme Court held that a governmental unit restricting the right to participate in its political processes to those who reside within its borders may legitimately enact regulations which affect persons and property outside of its geographical boundaries. In that case the City of Tuscaloosa, Alabama had enacted ordinances applying to persons and property residing within up to three miles of the city's corporate limits without giving the persons residing in that territory the right to vote in its municipal elections. Upon challenge by persons residing within the three mile police protection of the city's limits, the Supreme Court held that these persons were not being denied the right to due process of law.

It is our conclusion that the exclusion of cities and villages from the boundaries of a ground water control area and thereby excluding the residents of those cities and villages from participating in the decision to create such ground water control areas does not violate either the equal protection or due process clauses of the United States Constitution. We believe that such a provision could sustain a constitutional challenge.

ATTORNEY GENERAL'S OPINION

Opinion No. 249
April 15, 1982

Dear Senator Koch:

By letter dated April 14, 1982, you presented this office with several questions regarding LB 602A, the "bingo bill", with respect to which you apparently wish our opinion.

You first ask whether all lotteries as presently defined by Neb.Rev.Stat. §28-1101(6) (Reissue 1979) would fall within the new definition of bingo contemplated by LB 602A should that bill be enacted. We think not. Under LB 602A bingo would continue to represent only one hybrid form of lottery. While it is true the new definition of bingo in the bill is broader than that presently found at Neb.Rev.Stat. §9-127 (Supp. 1980), it would continue to be distinguished from other forms of lottery by the particular method for determining winning chances. Any particular game of chance could be considered bingo only if its winners are determined from a random drawing of a subset of objects from among a total set of objects all of which are peculiarly designated in some manner. Moreover, bingo under LB 602A would continue to employ the use of cards held by players which, by virtue of their relationship to the designated objects drawn, are necessary for ascertaining winners. It seems clear to us that this particular method of determining the winning chances is but one of many which might be conceived under the general definition of lottery found in §28-1101(6).

No different conclusion is compelled by noting that the new bingo definition contemplated by the bill would delete any reference to a specified number of objects which must comprise a total set from which the subset is drawn, which specified number is 75 in existing statutes. Of course, the total number of objects that must be in the set to begin any game must be greater than the number within a subset which determines each winner and, we suppose, large enough to ensure winners will be determined at some point before all objects in the total set are drawn. This, however, seems to us to impose a practical, rather than legal, limitation on how few designated objects must comprise the total set at the beginning of any drawing.

You next ask whether numbered tickets sold by students at a public school athletic or musical function, where the purchaser holds one half of the ticket and the other half goes into a container from which winning numbers are drawn, would fall under LB 602A's definition of bingo. Again, we think not. As noted above, the bill would continue to contemplate that bingo games employ cards in the ascertainment of winners in addition to the employment of designated objects drawn at random. Thus, the kind of activity you describe would not amount to a bingo game.

Your third question, it appears to us, is whether or not newsprint-type cards currently employed in certain games of chance similar to bingo, which you term "English Bingo" or "look-a-like bingo" can be considered "regular bingo cards", in view of Neb.Rev.Stat. §9-137 and 9-161 (Supp. 1980). You attached your April 14th letter samples of newsprint cards utilized in these other games of chance.

Our judgment is that under LB 602A such newsprint cards would not be considered regular bingo cards. Neb.Rev.Stat. §9-161 currently requires that the playing spaces on regular cards be contained within an area not less than four inches square. This requirement is not changed by LB 602A's amendment of §9-161, and thus, any cards such as the newsprint cards you submitted to us failing to meet this size requirement cannot be considered regular bingo cards. This conclusion alone should answer your question, and we respectfully decline to respond to your further inquiry regarding the nondisposability requirement of §9-137, since that provision is not at all affected by LB 602A and our longstanding policy precludes us from providing opinions on legislation already enacted.

Finally, you ask whether if "pickle cards" are found to fall within the definition of lotteries by the Nebraska Supreme Court, would pickle card games fall within the definition of bingo under LB 602A. Pickle card games as presently conceived determine winners by a method not employing the drawing of subset of objects from among a total set of objects peculiarly designated. Pursuant to LB 602A, this methodological characteristic must exist in connection with a particular game of chance before it can be considered to be bingo. We conclude that the pickle card game as presently conceived would not constitute bingo under the bill.

Yours truly,
PAUL L. DOUGLAS

Mr. President, Mr. Speaker and
Members of the Legislature

Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I hereby return LB 669A without my signature and with my objections.

Reimbursement for actual expenses of Commission members as provided in Section 1 of LB 669 would require a General Fund expenditure of $2,500 in Fiscal Year 1982-1983 and $4,000 in Fiscal Year 1983-84.

To increase state expenditures for these purposes cannot be supported in these economically difficult times.

I urge your body to sustain my veto of LB 669A.

Sincerely,
(Signed) CHARLES THONE

ATTORNEY GENERAL'S OPINION

Opinion No. 251
April 16, 1982

Dear Senator Haberman:

You have asked us whether or not it is necessary to have an appropriation bill to pay all judges' salaries. While it is true that Article III, Section 25 of the Nebraska Constitution specifies that no money shall be drawn from the treasury except in pursuance of a specific appropriation made by law. Our Supreme Court in State v. Weston, stated: "It will be observed that this provision does not require the appropriation to made by act of the Legislature, but merely that it be 'made by law', so that it may be done either by direction of the Constitution itself, that being the supreme law in the state, or by the Legislature through the forms prescribed for drawing money from the public treasury. . . ."

Therefore, we would be of the opinion as we were in Opinion NO. 57, dated March 18, 1957, a copy of which is enclosed for your information, that once you have created a office and an officer has been appointed to fill that office that officer will be compensated by act of law if not by direct act of the Legislature.

We hope this adequately responds to your inquiry.

Sincerely,
PAUL L. DOUGLAS

ATTORNEY GENERAL'S OPINIONS

Opinion No. 252
April 16, 1982

Dear Senator Warner:

You have asked for our opinion on the number of votes required to pass LB 816A under the provisions of the Nebraska Constitiution.

You refer of course to Article IV, Section 7 of the Constitution which in part provides: "No appropriations shall be made in excess of the recommendation contained in such budget including any amendment the Governor may make thereto unless by three-fifths vote of the Legislature, and such excess so approved shall be subject to veto by the Governor." LB 816A is an appropriation bill to fund the distribution of state aid to local governmental subdivisions adopted pursuant to LB 816. Prior to LB 816, the Legislature had provided for the distribution of funds to governmental subdivisions in a series of statutes. Pursuant to court action, the statutes setting up the formulas for distribution have been amended by the Legislature in LB 816.

The Governor's budget recommendation as originally sent to the Legislature contained in LB 761, Section 12, Subsections 1 and 2, for programs 146 and 147, $12,600,000 and $70,000,000. LB 816A appropriates a total of $82,600,000. The distribution of the total amount appropriated under LB 816A is different than the distribution which would of occurred under the appropriations recommended by the Governor in his original budget message to the Legislature. The totals, however, remain the same. This question while different is somewhat similar to a question dealt with in Opinion No. 49, dated March 20, 1975, Report of the Attorney General 1975-1976. In that opinion we stated that a bill making appropriations for a new program not in existence at the time the Governor made his recommendation did not require a three-fifths vote. We include a copy of that opinion with this letter. The cases discussed therein and the matters which are now before the Legislature lead us to the conclusion that the amount which is appropriated by LB 816A $82.6 million dollars is the same as and not in excess of the amount recommended by the Governor in his budget messages to the Legislature.

We have also this date responded to a request for an opinion from Senator DeCamp on the same issue. A copy of that response is included herein.

Sincerely,
PAUL L. DOUGLAS
Attorney General

Opinion No. 253
April 16, 1982

Dear Senator DeCamp:

You have asked for our opinion on whether or not 30 votes are required for final passage of LB 816A. A similar request has been received from Senator Warner, a copy of our response to that request is included herein.

You state in your letter that LB 816A appropriates approximately $45,000,000 to education programs which is in excess of the Governor's recommendation in his original budget message of approximately $42,000,000. As you know, LB 816A appropriates $82,600,000. This sum is arrived at by combining the recommendations made in the Governor's original budget in LB 761, Section 12, Subsections 1 and 2, wherein the Governor recommended $12,600,000 and $70,000,000 for distribution of state sums to governmental subdivisions. The $70,000,000 recommendation included within it a division of approximately $41,000,000 of that total to be distributed to school districts. LB 816A obviously increases the share of school districts over that contemplated by the Governor's recommendation, but that increase to school districts is at the expense of other governmental subdivisions and not as a result of increasing the total amount of money recommended by the Governor.

The constitutional provision to which you refer does not require that the Legislature divide a distinct appropriation in the exact manner the Governor recommends. It is designed so that the Governor's general recommendations for particular areas may not be exceeded. However, the distribution within such areas may well vary from the Governor's recommendation without necessarily being in excess of his recommendation. It is therefore our opinion that LB 816A is not in excess of the Governor's recommendation and therefore does not require a three-fifths vote.

As a further matter, you state in your letter that it has been a uniform practice to require 30 votes for the passage of an ''A'' bill. We have examined the constitutional provisions involved and note that Article IV, Section 7 of the Constitution requires a three-fifths vote of the Legislature for appropriations in excess of the Governor's recommendation. ''A'' bills may or may not be an appropriation in excess of the Governor's recommendation. If they are for the purpose of funding governmental functions not in existence at the time the Governor made his recommendation, they of course do not require 30 votes. See Opinion No. 49, March 20, 1975, Report of the Attorney General 1975-76. If an ''A'' bill funds a program which was included in the Governor's recommended budget and increases the Governor's recommendation, then 30 votes would be required to pass the ''A'' bill with an amount over the Governor's recommendation. If the ''A'' bill fails to receive 30 votes but receives 25 or more votes, it would still pass but only at the funding level recommended by the Governor. Thus, to make a flat statement that the Legislature has uniformly required 30 votes to pass an ''A'' bill while it may be correct, is not constitutionally mandated in all situations.

As a final matter, you have brought to our attention the provisions of Neb.Rev.Stat. §81-137 (Reissue 1976). That section provides:

> The Governor shall also submit to the Legislature at the same time he submits the budget, copies of a tentative bill for all proposed appropriations of the budget clearly itemized and properly classified, for the ensuing appropriation period, and no appropriation shall be made in excess of the items and recommendations contained in the budget unless by a two-thirds vote of the Legislature, but any item or recommendation therein contained may be rejected or decreased in amount.

Obviously this section purports to require a greater majority to increase the appropriation above the Governor's recommendation than does the Constitution. We believe that this discrepancy may be explained by the following facts. Article IV, Section 7 of the Nebraska Constitution from 1920 to 1964, provided for the requirement of a three-fifths majority. In 1964, the Constitution was amended by a vote of the people pursuant to an amendment proposed in LB 807, Seventy-Third Legislative Session, to require a two-thirds majority for appropriating money in excess of the Governor's recommendations. Section 7 was again amended in 1972, by a vote of the people pursuant to an amendment proposed by the Legislature in LB 301 at the 1971 Session, to reduce the requirement back to the three-fifths majority that had been in effect from 1920. The constitutional provision has remained the same since that time.

Neb.Rev.Stat. §81-137 from 1929 to 1971, required a three-fifths majority for the passage of such items. In 1971, in LB 28, the Legislature amended that section to require a two-thirds majority to conform with the constitutional provision of 1964. The following year the Constitution was changed back to three-fifths, but no action has been taken on Neb.Rev.Stat. §81-137 since that time. We believe that it is obvious that where there is a divergence between statutory requirements and constitutional requirements with respect to the number of votes necessary to adopt an appropriations bill in excess of the Governor's recommendation, the constitutional requirements will control over the statutory requirements. While the Legislature has plenary power over the fiscal matters of the government, its authority is limited by the constitutional requirements. See, State ex rel Meyer v. State Board of Equalization and Assessment, 185 Neb. 490, 176 N.W.2d 920 (1970). Therefore, our opinion expressed above in regard to LB 816A and other matters is not affected by the provisions of Neb.Rev.Stat. §81-137, since such provisions are subject to the constitutional requirements set forth in Article IV, Section 7 of the Nebraska Constitution.

Sincerely
PAUL L. DOUGLAS

Dear Mr. President and Senators:

I hereby return LB 412 without my signature and with my objections.

LB 412 substantially changes the current Homestead Exemption Act. Among other provisions, LB 412 imposes an income test on the disabled including veterans reducing their eligibility for the program. Additionally, LB 412 opens an entire area of new eligibility at the last legislative moment for disabled renters at an unknown but likely large future cost without floor debate.

Since the implementation date of this act falls after the forthcoming 1983 legislative session, the concept underlying this bill can be and should be deliberated more fully at that time.

Sincerely,
(Signed) CHARLES THONE
Governor

Mr. President, Mr. Speaker and
Members of the Legislature
State Capitol Building

Dear Mr. President and Senators:

On April 20, 1982, I signed and approved LB 816 which I have forwarded to the Secretary of State for filing. I have signed LB 816A but have exercised my line item veto authority to reduce the appropriation and herein state my objections.

LB 816 substantially changes the distribution of state aid to local governments that existed under the local government revenue fund and government subdivision fund.

Among the changes made in LB 816, certain local governments which participated under the original formula such as educational service units, fire districts, cemetery districts, and others are now excluded under the new act. In information distributed by the Revenue Committee, these districts will receive some $3.5 million in state aid this fiscal year. Next fiscal year these funds are reallocated to increase the funding available to other local governments — principally school districts and municipalities.

Using the Revenue Committee figures as supplied by county officials, school districts will receive almost $3.4 million more in FY 82/83 than in FY 81/82 and municipalities $483,000 more. This happens at a time when, as reported by the State Auditor, a good percentage of these funds had been unbudgeted by them.

While signing LB 816 and LB 816A, I disagree that such increases over and above the amounts already allocated should occur. Such increases, while for some they may slightly ease the real pain of the losses caused by the new distribution formula, also provide unnecessary and — in light of the state's current difficult fiscal situation — unjustified windfalls to others.

I have, therefore, line-item reduced the allocation to schools by $3,368,000, and municipalities by $483,000.

Sincerely,
(Signed) CHARLES THONE
Governor

ATTORNEY GENERAL'S OPINION

Opinion No. 254
April 16, 1982

Dear Senator Clark:

You have called our attention to LB 734, which will not be acted upon this session, but which you anticipate will be introduced again next year. You ask us for our opinion as to its constitutional validity. We believe it is constitutionally suspect in two respects.

The bill would amend Neb.Rev.Stat. §77-202 (Supp. 1980) to provide in part:

> Transmission and distribution lines, transformers, and associated substation facilities within the State of Nebraska owned by nonprofit cooperative corporations and associations which are used or useful for the transmission and distribution of electric power and energy shall be exempt from taxation, except that any such lines, transformers, and facilities which were assessed and taxed in 1979 shall continue to be taxed based upon the 1979 assessment of such lines, transformers and facilities.

The exemption of such personal property owned by nonprofit cooperative corporations and associations would, we believe, be authorized by Article VIII, Section 2 of the Nebraska Constitution, which authorizes the Legislature to classify personal property in such manner as it sees fit, and to exempt any of such classes. We read into that provision a qualification that the classes must be reasonable, but we believe the designated class of property owned by the specified types of owners would qualify as reasonable.

The problem with the bill is in the exception. Article III, Section 18 of the Constitution forbids unreasonable classification, and we are unable to detect any valid legislative reason for exempting such property which was not taxed in 1979, and taxing permanently all such property that was taxed in that year.

We call your attention to our Opinion No. 82, issued April 24, 1981, in which we dealt with a somewhat similar problem. We reached the conclusion that a permanent exemption from sales and use tax for new equipment purchased for installation in a factory construction of which began after July 1, 1981, while denying such exemption to factories started before that date constituted unreasonable classification.

The classification involved in LB 734 is even more unreasonable. The argument could be made that giving a special privilege to a facility constructed after the passage of the bill would tend to encourage someone to construct it. Here the exemption would be given to equipment installed after January 1, 1979, but before the effective date, or even the passage, of the bill. How could the exemption possibly have had any influence on the installation of the equipment? Yet, that equipment would be given the exemption. We are not suggesting that making the cut-off date after the passage of the bill would cure the defect (we don't think it would), but are simply pointing out that there is no readily apparent reason at all for the classification.

The provision about taxing the property excepted from the exemption "based upon the 1979 assessments of such lines, transformers, and facilities," very clearly violates the uniformity provision of Article VIII, Section 1 of the Constitution. As we understand that language, such property would continue to be given the same assessed value it was given in 1979, regardless of depreciation, obsolescence, inflation, or any other factor affecting value. It would be assessed differently from other taxable property. We do not believe that authorization of Article VIII, Section 2 of the Constitution for the Legislature to classify and exempt personal property was intended to remove nonexempt personal property from the uniformity requirements of Article VIII, Section 1. In our opinion dated April 11, 1979, Opinions of the Attorney General 1979-80, page 124, we concluded that a provision that no governmental subdivision should thereafter receive less revenue from the taxation of railroads than it did in 1978 violated the uniformity clause of the Constitution. LB 734 contains a similar defect.

Very truly yours,
PAUL L. DOUGLAS
Attorney General
